FOREIGNERS IN LYNN WILL BE EXAMINED

Mayor Issues Order For Thorough Inspection Of Foreign Quarter — Surviving Bandit Tells His Story

Lynn, Mass., June 27.—Mayor James E. Rich issued instructions to the police this afternoon to give the foreign quarters of the city a thorough overhauling. He instructed the police inspectors to go through those sections of the city where the foreigners live, interview all strangers and if they cannot give a satisfactory explanation of their presence in the city, to either arrest them or railroad them out of town. He declares that the tragedy of Saturday would not have happened if the police had followed similar instructions which he gave them some time ago and for which he had two extra inspectors appointed. The order of Mayor Rich followed a report which reached him to the effect that the three bandits who shot up the city Saturday had been hanging about Andrews street for several days.

Chief Shannon, of Chelsea, visited Lynn today in the hope of identifying the men, but he was unable to do so. Many other police officials have also made similar attempts without success. As no one has come forward to claim the remains of "Joe" and "Andy" the bandit, who was killed, plans have been made to bury him at the city's expense tomorrow morning. "Andy" Abson who is in the hospital, is in an extremely critical condition tonight and his death is hourly expected.

Watched Two Weeks. Twankowski, the bandit under arrest, has been watched for two weeks by the police. He was seen by the police in the city of Lynn, Mass., and in the city of Boston, Mass. He was seen in the city of Boston, Mass., on June 27, and in the city of Lynn, Mass., on June 28. He was seen in the city of Boston, Mass., on June 27, and in the city of Lynn, Mass., on June 28. He was seen in the city of Boston, Mass., on June 27, and in the city of Lynn, Mass., on June 28.

He is certain an officer killed his companion "Joe," for he says he saw the officer shoot at "Joe" and the head of the latter suddenly dropped, and the officer, the arrested man says, did not know he had killed Joe.

Dr. Needlebaum of Boston came to Lynn this afternoon and had a talk with Twankowski. He thought the young man came from the same place as he did in Austria, but decided this was not the case.

ITALY ASKS FOR EXTRADITION

Word Received That Rome Has Moved In Porter Charlton's Case—U. S. Takes No Action.

New York, June 27.—Although word comes from Rome that the Italian government has decided to ask for the extradition of Porter Charlton, the youth charged with wife murder, the U. S. authorities have refused to take any action. Although the police books against Rossi reads as follows: "Giovanni Rossi, alias Andy Rose, aged 21, a native of Italy, arrested on suspicion of shooting with attempt to kill, Diego Siracusa in his house in 37 North street, and also with robbing him of \$50 and a gold watch and chain," the announcement of the death of Siracusa is hourly awaited, when the charge must necessarily be changed to murder or manslaughter.

The boy's arraignment has been set for tomorrow, but it was understood tonight that the federal authorities will ask for an adjournment. This will probably be granted. Meanwhile the state department will likely reach a decision and unless insanity proceedings interfere he will be turned over to the federal authorities if they decide to grant extradition.

The young prisoner is still in a highly nervous state, verging on mental and physical collapse. He eats but little and alternately paces the floor of his cell or attempts to read.

Italian Struck By Auto Driven By Robert Taft Will Probably Die — President Sends Doctor From Boston.

Instead of attending the races the family will remain in Beverly unless there is an unexpected change for the better in the man's condition. The report from the Beverly hospital tonight was that his name was on the dangerous list and he has only a slight chance of recovery.

Dr. S. J. Mistor of Boston, at the request of the president, arrived here this afternoon and he is working with the hospital authorities, doing all that can be done for the injured man. Robert Taft was badly broken up over the affair and has spent much of his time this afternoon at the hospital.

NOT PLEASED WITH ENGLAND

New York, June 27.—A Sun London cable says: "There seems to be a rift in the entente cordiale between England and France. It is reported that France is displeased by the failure of Foreign Secretary Grey to adopt its point of view regarding Crete, believing that sooner or later some satisfactory intervention will occur necessitating intervention as a result of Sir Edward's policy of procrastination. The French government wanted a conference but Sir Edward would not accept the proposal. He also declined the suggestion that representatives of protecting powers should meet frequently in London for the purpose of settling current business in regard to Crete."

FEW NEW DETAILS IN TRAGEDY YESTERDAY

With Diego Siracusa lying at death's door with a bullet in his head in the general public hospital and his brother Italian and confessed would-be murderer, Andrew Rossi, lying in a prison cell, at Central police station, his own existence depending upon the life or death of the man whom he attempted to slay, as a result of jealousy over a pretty woman, sums up in brief the present situation of one of the most sensational criminal cases in the police annals of the city for several years.

ANDREW ROSSI.

Although the police books against Rossi reads as follows: "Giovanni Rossi, alias Andy Rose, aged 21, a native of Italy, arrested on suspicion of shooting with attempt to kill, Diego Siracusa in his house in 37 North street, and also with robbing him of \$50 and a gold watch and chain," the announcement of the death of Siracusa is hourly awaited, when the charge must necessarily be changed to murder or manslaughter.

THREE HURT IN B. & M. WRECK

Wrecking Train Collides With Freight At Newburyport And Fire Follows — Fireman Quincy Injured Internally.

Peabody, Mass., June 27.—A wrecking train of the Boston and Maine railroad on its way from Boston to Newburyport tonight ran into a freight train demolishing the caboose, setting fire to several cars and injuring three men. The most seriously injured was Fireman Quincy of the wrecking engine who is believed to have sustained internal injuries. He was taken to a Boston hospital. The other men, neither of whom was a railroad employee, were Patrick Collins and Ernest Martin. They were sitting in the caboose. Martin sustained badly lacerated wounds of the head and thigh and Collins a broken leg.

The accident happened on the Georgetown branch between West Peabody and Lynnfield. A portion of the freight train had been left standing on the through track while the engine shifted the other cars onto the siding at Martin's gravel pit. The cause of the accident has not been ascertained.

THREE SERIOUS ACCIDENTS IN COBALT MINES

Five Men Drop Sixty Feet Down Shaft And Two Are Badly Hurt — Electrician Probably Fatally Shocked.

W. M. DAVIDSON KILLED BY FALLING TIMBER

Special to The Standard. Cobalt, Ont., June 27.—The already lengthy list of accidents here received three additions at the city of Cobalt mine when five men dropped sixty feet down a shaft, three of them escaping with a few minor injuries, while Abe Larsen, a Finlander, had his left leg and arm broken, and a man named Regan sustained an injury to his foot. The men had boarded the cage at the 137 foot level, coming from the bottom. Only the presence of mind of the hoist man, who hastily applied the friction brake, saved them all from death.

E. Hogan, an electrician, employed by the Mines Power Company, received the shock from 11,000 volts when the wires in the rheostat which he was repairing became crossed. He was horribly burned about the face and body and may not recover.

Wm. Davidson, while fixing the valve in pump No. 12 shaft, Buffalo mine, was struck and fatally injured by a large timber which fell a distance of 25 feet on his back. The timber had been loosened by a blast a short time before, and a fellow employe stepped on it and it gave way and fell upon Davidson. The man above saved himself from falling to the bottom of the shaft by grasping a projecting iron, hanging on for some time until rescued.

HOT SHOT FOR STABBING OF APLESWORTH "SCAB" SAILOR

Presbyterian Minister At Lunenburg Says Minister Of Justice Has Shown Himself Unfit For Office.

Special to The Standard. Lunenburg, June 27.—The Rev. D. A. Frame, Presbyterian, severely scored Hon. A. B. Aylesworth, minister of justice, in his sermon last night. Mr. Frame referred to the case of King and Skill, of Toronto, who were sentenced to a year's imprisonment each for selling obscene books. Though they pleaded guilty, the minister of justice said they had committed no offence and had them liberated. Such a statement on the part of the minister of justice as one man stated at the Presbyterian conference at Halifax, said Mr. Frame, argues his unfitness for office.

ATTEMPTED TO KILL CUBAN CONGRESSMAN

Single Shot Fired In Lobby Of Parliament By Another Congressman Who Went Scot Free.

Havana, June 27.—A sensational attempt to kill Antonio San Miguel, congressman from Pinar del Rio, and editor of La Lucha, was made in the lobby of congress today, a few minutes before that body was to open its session. Congressman Manuel Lores, of Oriente, was the assailant. A single shot fired went wild, but almost hit another congressman standing near.

The attempt to kill Congressman Miguel, when it became generally known, caused intense excitement throughout the city. Congressman Lores was not arrested on account of his congressional immunity.

Rome, June 26.—The Chamber on Saturday unexpectedly voted the expenditure of 10,000,000 lire (about \$1,193,000) for dirigible balloons for the army.

The Socialists and Republicans opposed the proposal. They deplored increased army expenditure as useless, advocated disarmament. The discussion arose during the absence of the Minister of War. He was summoned from the Senate and made an eloquent appeal to the country's national honor.

The vote was then passed by a majority of 200.

NOT ANXIOUS TO CATCH FUGITIVE

NINE FLIGHTS AT MONTREAL AERIAL MEET

Lachapelle Made Speed Record, And Brookens Highest Flight—McCurdy's Baddeck Fails In First Trial.

Special to The Standard. Montreal, June 27.—Some sensational flights were made at the International Aviation meet here this afternoon. Nine flights altogether were made during the afternoon, six by the Wright biplanes, two by Deleesses in his monoplane, and one by McCurdy of Nova Scotia, which however failed. The speed trial was easily won by Lachapelle in a Wright machine he covering the route twice around the course, a distance of over 4,000 yards, at a speed of about 40 miles an hour, making the distance in three minutes, twenty-two seconds. Count Deleesses was more than a minute slower, his time being 4 minutes, 35 seconds. A fine flight was made by Ralph Johnson in a Wright machine when he flew over Lake St. Louis and cruised in the air for 35 minutes. The highest flight ever made in Canada was made by Brookens in a Wright machine. The machine went up until it was lost in the clouds and Brookens claimed that he had ascended 3,500 feet. He kept ascending for twenty minutes and then suddenly stopped his motor and swooped to earth in a wonderful long glide and alighted easily. The official figure of his ascent was 1,650 feet.

The opinion is persistently expressed that the government is not anxious to bring Goldthrite back to justice, as evidence which he could give would be disconcerting. The story published by government newspapers that Goldthrite had been sent broad-cast is untrue. One of the inspectors of the Dominion police force said today: "No circulars or photographs have been sent out. I do not know where the newspapers publishing that story got their information."

LABOR UNIONS OUT WITH BALL LEAGUE

More Trouble Develops At Cleveland — Labor Leaders Claim That Score Cards Are Not Printed In Union Shops.

Cleveland, Ohio, June 27.—Trouble is again threatening between the American baseball league and the labor unions. The boycott against any park in which the Cleveland team was playing which was ended by an agreement a month ago may be revived according to local union officials. Labor leaders claim that the Cleveland club is using score cards and tickets printed by non-union labor. President Ben Johnson of the American League is expected here tomorrow when a conference will be held between the club and labor leaders, and efforts made to bring about a settlement of the trouble.

CLONDBURST DOES \$300,000 DAMAGE

Huntington, W. Va., June 27.—Great damage has been wrought throughout the Coal river and Mud river valleys by heavy rains, followed by a cloudburst today. The rivers are the highest stages ever known. The damage to crops and property will probably be \$500,000. Railroad traffic has been suspended, owing to many washouts and landslides.

ILLINOIS BRIBERY CASE WITH JURY

Chicago, June 27.—Eighty hours have passed with no sign of a verdict from the jury that is considering the case of Leo O'Neil Browne, Democratic minority leader of the Illinois legislature, charging him with bribing C. A. White to vote for William Lorimer for United States Senator. Judge McSorel has not even been called upon for further instructions.

STATES ADDED TO BRITISH DOMINIONS

Notice to Ottawa That Postage Is Reduced To Siamese Districts First Intimation Of Latest Addition.

Ottawa, June 27.—The first intimation received in Canada that another splash of red has been added to the map of the world, is given in a notice sent out by the postoffice department. It is to the effect that the states of Kalimantan, Kedah, Perlis and Trengganu in Siam, have been transferred from the control of the government of Siam to that of Great Britain and that in consequence the postage rate to these states has been changed to two cents per ounce.

Then the truth leaked out, an examination revealed that immense supplies had been stocked, in some cases sufficient to run over ten years. It was found that while the government was paying first class prices the goods were inferior. As an instance, the government had been paying \$5 and \$6 per ream for certain paper from Canadian firms but the orders had been transferred to American firms and these supplied paper worth only \$1 per ream. Goldthrite and his accomplices evidently got the balance.

Gouldthrite Could Tell Story of How Liberal Campaign Funds Were Raised.

Complaints from Party Managers Led to Discovery of Thefts in Interior Department.

Special to The Standard. Ottawa, Ont., June 27.—There is no news yet of Goldthrite, the fugitive superintendent of stationery at the government printing bureau. Commissioner Sherwood, of the Dominion Police and two of his assistants are in the United States seeking for clues as to his whereabouts, but the only official statement forthcoming tonight is that Colonel Sherwood is expected back tomorrow night.

Mrs. Goldthrite has evidently gone to join her husband. She is said to have been shadowed by detectives at Prescott on Saturday, who crossed the border after her. The opinion is persistently expressed that the government is not anxious to bring Goldthrite back to justice, as evidence which he could give would be disconcerting. The story published by government newspapers that Goldthrite had been sent broad-cast is untrue. One of the inspectors of the Dominion police force said today: "No circulars or photographs have been sent out. I do not know where the newspapers publishing that story got their information."

Would be Embarrassing. The suggestion is made that if Goldthrite is placed in the dock the whole method the Liberal party adopts of raising funds will be revealed. Indeed this was the cause of the frauds being discovered. It was not Hon. Charles Murphy's astuteness, which he himself explained in a typewritten circular which he gave out last week. The fact is that two parties had complained to the secretary of state. The first were the Liberal party managers who are short of funds, and have had considerable difficulty in gathering enough to finance the prime minister's western tour. They appealed to some of the Canadian firms which have been in the habit of contributing to the party funds to supply them with the money. It was found that while the government was paying first class prices the goods were inferior. As an instance, the government had been paying \$5 and \$6 per ream for certain paper from Canadian firms but the orders had been transferred to American firms and these supplied paper worth only \$1 per ream. Goldthrite and his accomplices evidently got the balance.

COLLEGIANS SUBSCRIBE TO EPHEBIC OATH

New York, N. Y., June 27.—The senior class of the College of the City of New York, presented to Mayor Gaynor today an "Ephobic" oath, swearing as did the Athenian youths, never by act of theirs to bring disgrace upon their city's name. The mayor, who has urged students to interest themselves in public affairs, was greatly pleased. The oath is engrossed on parchment.
