WALLACE HAS GREAT RECORD AS SHORTSTOP

The record compiled by Rob Wallace as shortstop probably will stand supreme forever. The record books do not show where there is an infielder who has performed at that position for 13 years and has such a remarkable average.

In 13 years Wallace has fielded for a percentage of 349—indeed phenomenal. One year he topped the field. That was in 1904 when he broke into the American league. However, he always has been near the top. His total number of assists and putouts shows that he covers acres of ground in his territory.

Wallace's complete record as a major league shortstop follows:

Rank	Year	G.	P.	A.	E.	P.C.
1	1911	123	280	417	42	947
2	1910	109	278	414	35	918
3	1909	87	193	279	27	496

GREEK'S PLAYERS TO ARRIVE

The new men signed for the Marathon baseball team will arrive in the city today and it is expected that with fine weather they will be a full turn out for practice on the grounds to night. Sheldon Cook, Jr., the big college pitcher has been here since Tuesday and has had one or two workouts with the local players. He has shown in practice that he has the goods and the management is much pleased with him. It is expected that he will be a great acquisition to the team. The local men have already been at work for two or three nights getting in some good practice. They show in good form and there is evidence that they will be in excellent shape by the time the league season opens.

That there will be a monster attendance when the first games are played on May 24th is indicated by the rapidly growing interest in the league. From Fredericton comes the word that a large delegation of celestial city fans will be on hand to see the Fredericton men and the Marathon clash. Fredericton has practically the same team which did such good work last year while it is believed that the local team will be even stronger than before. It looks like first-class baseball from the start.

The deposits of \$500 a club by the towns in the league circuit have been posted with the Eastern Trust Company of this city and it is evident from this that all teams will go into the league, prepared to see it through and live up to the regulations. In fact the constitution of the league is so drawn that the local fans will get practically all the benefits in the way

JOHNNY EVERS HAS JOB CINCHED ANCHOR OF CUB INFIELD

JOHNNY EVERS.

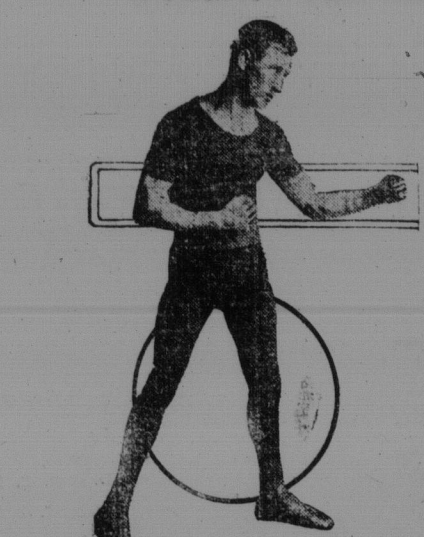

"The brains of the infield," Johnny Evers, second baseman of the Cub team, has been only a scribe with an imagination, or a desire to boost the stock of the Cub club.

Evers has been given a great deal of credit for discovering that Morrie failed to touch second, thereby winning a pennant for Chicago, when, as a matter of fact, Artie Hoffman, who from centerfield attracted Evers' attention to the lapse on Morrie's part. Baseball scribes have the word "basing" chanted on the desk tops

for ready reference when writing the same, always tell you what a wonderful "baser" player Evers is, and how he is the swing member of the "Tinker to Evers to Chance" combination, of which a poem was written.

Evers is a great ball player; one of the greatest infielders of the day, in fact. He has his job at second base cinched. Despite his crabbed disposition, similar to that of Jesse Burkett, he is popular with his teammates. If baseball scribes have the word "basing" chanted on the desk tops

AUSTRALIA'S LIGHTWEIGHT CHAMPION TO MEET WOLGAST FOR THE TITLE

Hughie Mehegan.

(By Tom S. Andrews.)

The matching of Ad Wolgast, world's champion lightweight, and Hughie Mehegan, Australian champion, will result in a real international battle.

Joe Woodman, manager of Sam Langford, has arranged to bring Mehegan here and Tom McCarey, the Los Angeles promoter, has closed with Wolgast, who stipulates that the Australian bet \$5000 the side.

As far as the side bet is concerned there will be no trouble for Mehegan can double the amount easily. He is well liked in the land of the southern cross and when Australians fancy a man, they do not stop over a little thing like a few thousands.

The battle should be a card and ought to draw over \$50,000. The betting will not be one-sided, for Mehegan will have plenty of backing, and at least a dozen sports will accompany him.

Mehegan makes the lightweight limit easily. He has never scaled more than 133 or 134 pounds. I saw him in half a dozen battles and his only defeat was at the hands of Cyclone Johnny Thompson, who weighed 162. He defeated Ray Branson, Arthur Douglas, the South African champion, and boxed Johnny Summers a draw although outweighed 10 pounds. He outpointed Frank Thorn, a clever lightweight.

Wolgast will not get to Mehegan as easily as many think, for he has a splendid defense and hits from an angle, as Wolgast does. He covers well and has a strong right hand punch.

It was at first supposed that Burns' spine had been injured, but an examination made yesterday showed that while the back, shoulder and neck muscles were strained, no serious results are anticipated.

Clinton Smith of Glastonbury, Conn., has a dock of 30 Barred Rock pullets which began to lay May 1, when they were just three months and three days old. Smith claims this is a world's record in the egg-laying line.

NECK MUSCLES STRAINED.

Cyclone Burns, who it was thought was badly hurt as a result of the loss with America Monday night, was able

to be about yesterday afternoon and at least a dozen sports will accompany him.

TY COBB THRASHED SPECTATOR

New York, N. Y., May 15.—Just as Detroit went to bat in the fourth today, Cobb jumped into the grandstand and thrashed a spectator. Manager Jennings said after the game that the man had applied opprobrious epithets to the player. Cobb was immediately put out of the game.

BIG UMPIRES IN LITTLE LEAGUE

HARRY TRUBY, HARVEY PASTORIOUS, JOE O'BRIEN,

Believing that if big men are not the best umpires, they at least exercise a psychological effect upon belligerents, President R. W. Read, of the Ohio State league, has signed as umpires three of the largest men he could find, who are supposed to possess the other qualities as well.

The Ohio State is a six club league

and its fans have never been noted for their kindly feelings toward arbitrators. Police protection is not always adequate and Read wanted men able to handle emergencies.

In the above trio he has huskies. Truby is 6 feet 10 1/2 inches in height and weighs 195; Pastorious is 6 feet 1 inch and weighs 185; O'Brien is 6 feet and weighs 192.

Compare the Tudhope with higher-priced cars

COMPARE them on a value basis. There is more real value in Tudhope Cars—more service, more equipment, more refinement—than in any other Car sold in Canada at the same price.

A broad statement? We can prove it; Tudhope buyers save the customs duty on imported Cars—35 per cent—\$500 to \$700 on the average car.

This saving is wholly effected by the elimination of the duty, not by using cheaper grades of material, nor the employment of less expert workmanship, nor economizing in the finish of the cars. The capacity of the Tudhope factory and the modern machinery with which it is equipped make it possible for us to build cars at Orillia at just as low cost as they can be built in the United States. And just as good cars.

Compare a Tudhope 30-36 h.p. Car that sells for \$1,625 with other cars that sell for over \$2,000.

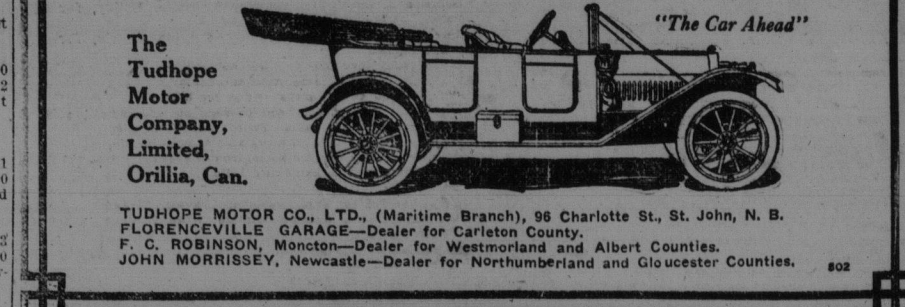

The Tudhope at \$1,625 has chrome-nickel steel transmission gears; long-stroke motor with cylinders cast in bloc, getting maximum power from the gasoline and allowing no waste of power; double-drop frame, giving riding comfort with high road clearance, and strength without extra weight on tires; extra large tires, lessening tire-wear and jolting. Such features as Continental Demountable Rims and Bosch Dual Ignition System are not usually found in any but high-priced cars. None but the higher-priced cars use chrome-nickel steel to the same extent as the Tudhope.

Then there is the extra Tudhope equipment. Besides the genuine mohair top and windshield the purchaser of a Tudhope car gets a speedometer, steel tool-box on the running board and an extra tire and rim in a water-proof case.

ROSE PITANOF MAKES RESCUE IN FAST SWIM

Detroit, Mich., May 15.—Swimming one mile in the Detroit River in the record breaking time of 23 minutes, 45 seconds, and saving her "pacemaker" after he had succumbed to cramps, was the notable feat today of Miss Rose Pitonof, the Boston 17-year-old girl, who is giving exhibitions here.

The American amateur record for a one-mile swim in open water is given as 25m. 40 s. 25s, held by J. H. Reilly, and the professional record is given as over 26 minutes.

She rescued C. A. Woodward, a Detroit man, who attempted to make the distance with her, when he was over come by cramps a half mile from the starting point. Miss Pitonof held him up until a boat reached him.

Owing to the fact that the distance was not accurately measured and that Miss Pitonof had the current with her, it is doubtful if the record will be recognized.

When she completed her swim, the big crowd along the shores greeted her with cheers.

The temperature of the water was about 60 degrees and the surface quite rough, making going bad.

The time taken from the dive to the shot of the pistol at the finish was 24m. 39s, but 45 seconds was allowed for the time used in helping Woodward.

The Ramblers and Tigers had a friendly five string match on Black's alleys, last evening, and it was a hard fight from start to finish. The Tigers won by 21 points, and a return match will be bowled on Friday night. Last night's scores were as follows:
