## Afternoon Session of Common Council

**Paving of Brussels Street and  
Awarding of Coal Contracts  
Discussed by City Fathers.**

The paving of Brussels street and the awarding of coal tenders constituted the afternoon session of the common council held in the committee room at four o'clock yesterday afternoon. The matter of summer band concerts was held for further discussion.

The report of the committee of the whole was read and presented for adoption section by section.

The first section presented, was that which relates to the government of the harbor, and the committee had passed an Act agreeing to take over the city's rights, powers and interests in the harbor of St. John for the sum of \$2,000,000 and appoint a Board of Commissioners to administer and have control of the harbor, a plebiscite for or against such harbor commission should therefore be taken on Monday, August 1st.

**Com. Thornton's Amendment**  
Commissioner Thornton moved in amendment that the report be referred back to the committee as he thought there might be some more discussion on the part of the commissioners.

His amendment called forth considerable discussion. The mayor said that there would be plenty of discussion on harbor commission before the public were asked to vote on the matter.

Commissioner Bullock expressed himself in favor of issuing propaganda which would clearly set before the public both sides of the question.

Commissioner Thornton said he would like to know if the council in voting in favor of the resolution were not at the same time voting in favor of harbor commission, because once the people had voted on the matter no recourse was left with the council.

Commissioner Jones said the question of whether the people were in favor of commission or not, would be definitely settled at the polls, but in the meantime the resolution called upon the mayor to supply the public with information which would determine whether they would vote for the measure or not. A vote was then taken, Commissioner Thornton's amendment was lost and the resolution adopted.

**Other Sections**  
Resolutions 2, 3, and 4 were all adopted without comment.

Resolution two, was that the replacing of the 6 inch main sewerage street by a 10 inch one, be proceeded with by the water and sewerage department at an estimated cost of \$4,200.

Resolution three, that the petition of residents of Charles street for a retaining wall be referred to the Commissioner of Public Works to report. Resolution four, that an application from the N. B. Power Co. to erect an electric sign on one of their buildings be referred to the Commissioner of Public Works and the City Engineer to report.

A communication was read from the Department of Justice, Ottawa, acknowledging the receipt of a telegram in which the City of St. John went in record as approving amendments to the Opium and Drug Act recommended in a resolution by the City of Vancouver.

**Smoke Nuisance**  
A communication from the Retail Merchants' Association complaining of the smoke nuisance caused by the Royal Hotel, was referred to Commissioner Thornton at his request, as he stated he thought he could promote some action in the matter.

Commissioner Bullock read a communication from Charles S. Hanington offering to re-sell to the city a property at Green Head purchased from the city by his father in 1912 at a total cost of \$42,950. Mr. Hanington stated that if the city would consider the proposal he would be willing to let it have the land at a considerable discount.

Commissioner Bullock said that if he had been stated there were valuable time and clay deposits on the land which would make it an excellent site for a cement plant, but he did not think the city should consider the offer favorably at the present, and recommended that such be the reply sent to Mr. Hanington.

Commissioner Frink said that if there were deposits on the land such as described, the Commissioner of Harbors would be justified in ordering a thorough geological survey, in view of the high cost of cement.

Commissioner Frink was of the opinion that Mr. Hanington would not have offered the land on such favorable terms, had he considered it so valuable. Commissioner Bullock's resolution carried.

**Coal Contracts**  
The Commissioner of Harbors then recommended the acceptance of coal tenders submitted to his department as follows:—  
Anthracite coal to be delivered on the West Side, the Colwell Coal Co. at \$16.40 per ton; soft coal, the Dominion Coal Co. at \$8.25; anthracite to be delivered on the East Side, the Dominion Coal Co. at \$16.00 per ton.

## No Anaesthetic Found in Bottle

**Probe Into Alleged Palmerston  
Kidnapping Case Has Been  
Abandoned.**

Listowel, May 30.—That Miss Edna K. Lee, the choir leader of Knox Church, Palmerston, the victim of an alleged kidnapping episode ten days ago, was suffering from a mild form of amnesia, when found in a semi-conscious condition in the driveway leading to the Nalra farm, was learned from Provincial Inspector Boyd announced that the investigation had been abandoned for the present.

From stating that the analysis of the mixture in a vanilla bottle found beside Miss Lee in the driveway, showed conclusively that it did not contain chloroform or ether. Inspector Boyd declined to discuss the result of the investigation.

**Public Works**  
The Commissioner of Public Works submitted a verbal report. He stated his department had received tenders for soft coal, which was practically all that was used by his department, and that the prices ranged from \$8 to \$15. He saw no reason why he could not get his coal at the same rate as the ferry, and would not advise accepting tenders yet.

The Mayor also questioned purchasing soft coal on a falling market.

The Commissioner of Water and Sewerage recommended the acceptance of the Consumer Coal Co's tender for the coal required by his department on the East Side at \$16 per ton; and the Colwell Fuel Co. for the West Side order at \$16. The recommendations of the commissioners were all adopted.

**Brussels Street Paving**  
Commissioner Frink moved that the paving of Brussels street from Union to, and across, City Road, be proceeded with at a cost of \$125,000, to be paid by the city, and that the work be done by the Department of Public Works.

The council went into committee to consider the motion. Commissioner Frink stated that his estimate covered the cost of the necessary plant to carry out the work, which would cost \$11,500.50. The N. B. Power Co. had agreed to be paid \$3.50 for the concrete base to be laid.

George N. Hatfield the Road Engineer, stated that he had conferred with the company in regard to the paving of Brussels street and they had indicated that they would only pay for a 14 foot strip of concrete in the center of the street, and the rest would be done by the city.

It was a matter he said which could be fought out with the Power Co. as well when the job was ended, as now. Commissioner Thornton objected to the work being undertaken by the Public Works department, as it would prevent their carrying out their programme in regard to asphaltizing of the sidewalks of the city. He thought it would be better if tenders were called for the asphaltizing of the street, as a contractor could do the work more cheaply than the city could.

The Mayor was of the opinion that this would not be advisable in view of the dispute between the city and the Power Co. He would not favor bringing in a third party in the dispute.

**Price of Asphalt**  
Commissioner Frink said the price of asphalt had dropped \$10 a ton since the tender for Douglas Avenue had been closed, and the contractor there stood to make a very handsome profit on the asphaltizing alone. He thought that if the city bought its own portable asphalt plant, much money would be saved.

Thornton's amendment that the asphaltizing of the surface of Brussels street be submitted to tender was lost. The original motion was put and carried.

Commissioner Thornton expressed the fear that if the department undertook the work it would not be completed for two years or more. Commissioner Frink said that the Price William street work, 1600 feet, had been begun by his department in August and completed before the frost came. The Brussels street work would be for 3100 feet of paving. The council rose from committee.

**No Band Contracts**  
Commissioner Frink stated that the people were clamoring for band contracts and he moved that the \$1,000 appropriated for the purpose be expended.

Commissioner Thornton stated that he did not wish to appear to be opposing all the motions of the Commissioner of Public Works, but in view of statements frequently made by the Mayor and other commissioners, that many in the city were out of work, and without three square meals a day, he questioned if the money might not be expended to better purpose in their interests. He would therefore ask the council to reconsider the motion. His request met with the favorable comment of the commissioners and was accepted.

**The Street Flusher**  
In reply to enquiries regarding the work of the motor street flusher and sprinkler purchased by his department, Commissioner Frink stated that the estimates submitted to him showed that the cost of three horse-drawn sprinklers was \$24 per 25 miles, or 24 cents per mile; the cost of the motor sprinkler was \$16 per 25 miles or 64 cents per mile. The machine he said was giving good satisfaction at every reduced saving in cost of operation and the cost for repairs had been light.

The mayor said it was a good investment and it would pay the department to purchase a couple more. Commissioner replied that he hesitated doing so at the present time when the city was already heavily involved in capital expenditures. Commissioner Thornton thought machinery could be purchased at a considerable reduction by waiting for a while.

On motion the meeting adjourned.

**CRUSHED TO DEATH.**  
Montreal, May 30.—Two men were killed last night at Nille Lasalle, when a van of the C. P. R. was wrecked in jumping an unlooked switch, opposite the Standard Paint Co.

## IN THE EDITOR'S MAIL

To The Editor of The Standard.  
Sir:—Will you please inform me if there is not a bye-law regarding the erection of electric standards in front of business houses, and doesn't this bye-law say that where permission is given for their erection that the lights are to be kept burning from dusk until eleven p. m. every night in the week? Is this view of the law is correct, how is it that many of the lights erected with this understanding are never lighted, while others are lighted for an hour or two some nights and turned out when the places of business close, while others keep their burning every night in the week, thus complying with the law?

If the standards are not to be kept lighted why encumber the streets with them? In Boston a year or two ago, all private lights and signs of every kind which were erected on the sidewalks were ordered removed, because in the case of lights, some obeyed the law which was similar to our own, while others did not, and the latter were in the majority as they are here.

Perhaps the responsible Commissioner can enlighten us. I do not know whether it is the Commissioner of Public Safety or Public Works that is in charge of these standards.

Yours truly,  
LIGHTS.

May 19th, after a lingering illness at the Brooklyn Hospital.

Mrs. Cronk, who was born in Stanley, York Co., N. B., is a daughter of Rev. Henry T. Parlee, Stewiacke, N. S., and a granddaughter of the late George W. White of Centerville, N. B. She was graduated in 1909 from the Victoria General Hospital, Halifax, N. S., and since her marriage in 1910 has resided in Brooklyn, N. Y.

She is survived by her husband and two children, Margaret and Marion, aged nine and six years; her father, Rev. Henry T. Parlee, Stewiacke, N. S.; three brothers, Medley of Ottawa, Ont., Archie of St. John, N. B., and Percy and one sister Ruth at home.

**OBITUARY**  
Miss Alice Melvin  
The friends of Miss Alice Melvin in St. John and elsewhere will learn with regret of her death almost at the outset of her life-work, at Lawrence, Kansas. Miss Melvin was a graduate of the High School of this city, a B. A. of McGill University, with first-class honors, and an M. A. of the University of Pennsylvania. After graduating at McGill she taught one year at St. Agnes' School, Belleville, Ont., and the next at the Quincy Mansions School at Quincy, Mass. She won a gold medal for her English at the University of Pennsylvania. Attacked with appendicitis on Saturday, 21st May, she succumbed early Tuesday, the 24th, after an operation. This early and sadly closed a career which gave every promise of brilliancy in academic life.

Miss Melvin was the eldest daughter of Dr. George G. Melvin, chief medical officer of this province. Her mother, who was Miss Alice Marvin, daughter of the late Joseph B. Marvin, N. B., died just three years ago. She leaves, besides her father, one sister, Miss George Melvin, who will spend the summer in Fredericton with her parents. Miss Melvin's body was brought from Kansas by her father and sister to this city yesterday for burial at Fernhill beside her mother.

**Mrs. H. W. Cronk.**  
The friends of Mrs. H. Walter Cronk, of Brooklyn, N. Y., will regret to learn of her death on Thursday,

## Tide Water Route To Be Inspected

**Governors of 17 States of  
Middle West to be Taken  
Down St. Lawrence.**

Detroit, Mich., May 30.—Governors of 17 of the Middle West States and representatives of Boards of Commerce along the lakes are to be given a trip by water to Montreal and Quebec to familiarize them with improvements required to make the Great Lakes to the St. Lawrence waterway available for ocean steamships. The suggestion was made to the joint inland waterways and port development committees of the Detroit Board of Commerce by O. A. Fleming and F. K. Nuncieville of Windsor.

Stops would be made at Welland Canal to inspect the old 14-foot lock and the new one of 25 feet; again at Toronto to see the \$3,000,000 harbor improvements being made there, an expenditure that would be wholly lost if the improvements did not go through. The tourists would then be taken through all the rapids that are to be drowned out, and at Montreal they would be shown an up-to-date harbor.

**WAR MEMORIAL SERVICES**  
Paris, May 30.—Memorial exercises were held today in every United States cemetery in France. The French government gave every possible assistance in conducting the observances. Many prominent French citizens participated.

**FUNERALS**  
The funeral of Miss Alice Melvin was held yesterday afternoon from the residence of D. H. Melvin, 37 High street, to Fernhill. Service was conducted by Rev. G. F. Dawson and Rev. H. A. Cody.

The funeral of Miss Margaret J. Mason was held yesterday afternoon from her late residence, 25 Brunswick street, to the Methodist burying ground. Service was conducted by Rev. O. P. Brown.

Funeral on Sunday was largely attended, his body being laid to rest in the cemetery at Baltimore. Relatives came from Montreal and Hillsboro. The service was in charge of Rev. Mr. Love, and the Dawson choir rendered appropriate selections. He is survived by his widow (nee Sarah Shaw), two sons, two daughters, thirty grandchildren, twenty-eight great-grandchildren, and one great-great-grandchild. Among the grandchildren are Venia Parrie, B.S., of Cornell University staff, and Stuart Harris, professor of music, Watertown, Mass. He is also survived by one brother, Alonzo Milton, of Montana.

**Wesley Kitchen**  
Fredericton, N. B., May 30.—Wesley Kitchen died this morning. His mother-in-law, Mrs. Jacob Barker, died in the same house on Saturday night. Mrs. Kitchen was a daughter of the late George Kitchen and had been associated with him as railway and bridge contractor for many years. He had been living in Saskatchewan, but last year returned to Fredericton. He is survived by his wife, one brother, Cook Kitchen, in Edmonton, Alta., two sisters in Pennsylvania, two daughters by a first marriage, Mrs. Huntwood, of Saskatoon, now on her way here, and Mrs. Oscar Ballantyne, of Vancouver, and one son, Alfred Kitchen, in Ontario. A. B. Kitchen, H. G. Kitchen and Cole Kitchen, of Fredericton, and Willard Kitchen, of Vancouver, are nephews.

**John H. Milton**  
Hillsboro, May 30.—The death of John H. Milton, which occurred on Saturday last at the home of his daughter, Mrs. W. Lutes, removed the oldest and most respected resident of this section. He was eighty-eight years of age and had been identified with this place all his life. Mr. Milton was a lumberman, having brought into the parish the first rotary steam sawmill. He was a member of the third Hillsboro Baptist church, Hillsboro, for fifty-eight years, and for many years was choir leader there. He was cared for in his last illness by his two daughters Mrs. M. Smith and Mrs. W. Lutes, who with his two sons, C. P. Milton and W. S. Milton, were with him in his last hours. The

**Karl G. Roebeling.**  
Trenton, N. J., May 30.—Karl G. Roebeling, president of John A. Roebeling Sons Company, builders of the Brooklyn bridge, died suddenly yesterday, at his summer home at Spring Lake, N. J.
