The St. John police made 78 arrests during March. A man of 51 and a lad of 13 were the oldest and youngest respect-ively. Fifty people were arrested for drunkenness, and six for assault, three for fighting, one for drunkenness and as-sault, five for stealing, one for being drunk and carrying a "gun," one for keeping a disorderly house, three for being inmates of the house, one for using abusive and of the house, one for using abusive and two for profane language, two for being drunk and profane and one for interfering with and resisting the police. Eight of the prisoners were females; 53 of them were natives of New Brunswick, six came from England, five from Quebec, three from Nova Scotia, three from Prince Ed-ward Island, while Norway, Sweden, Den-mark, Newfoundland, New Zealand, Scotland and the United States contributed one each and one man evidently didn't know where he hailed from.

Mr. McCain's steam press at Florence-ville Station ceased operations on Saturday night, owing to the accumulation of large supplies at St. John and Cape Town, and supplies at St. John and Cape Town, and to the impossibility of getting the hay into the interior of the country with suffi-cient speed to give storage room at the ports of shipment and landing. Mr. Mc-Cain has between 4.000 and 5.000 tons now in stock at different points, which prob-tably will be shipped after the first of May. The steam press is expected to begin oper-ations again in about a month. Florence ville is the largest shipping port for hay on the C. P. R. north of St. John. It is estimated that 8,000 tons have already been shipped from there this season, and there are between 4,000 and 5,000 tons yet to go out. The end of the big demand for hay in South Africa is almost in sight and Andrew D. McCain will make a trip to Great Britain this summer to locate a new and if possible an equally good mar-ket.--Woodstock Dispatch.

Meteorological conditions throughout March have been unexceptionally mild and spring like the average temperature for the past month was 35.9 against 29.8 for the same month last year and a gen-eral average for March of 28.3 degrees. government and the holding of a fair was made contingent upon the receipt of this grant as well as assistance from the city. The city council promised to aid the ex-hibition provided the provincial grant was obtained, but so far nothing has ap-peared in the estimates which would show that any amount will be fortheoming from the provincial coffers. One of the directors of the Exhibition Association said to The Telegraph that the association had not yet totally given up hope and that if the grants are ob-up hope and that if the grants are ob-tor the directors of the totally given the provincial work of the totally given the association had not yet totally given the provincial work of the totally given the association had not yet totally given the provincial work of the totally given the provincial work of the totally given the association had not yet totally given the provincial work of the totally given the provincial work of the totally given the directors of the totally given the provincial work of the totally given the provincial work of the totally given the total work of the total work

One of the directors of the Exhibition Association said to The Telegraph that the association had not yet totally given up hope and that if the grants are ob-tained the association will at once get together and arrange for the show. The difficulty appears to be that by statutory enactment the sum to be granted by the events for arbitrary nurooses must not

aggregate more than \$5,000 annually and as it is thought the government desires to aid the Sussex fair to 'the extent of \$1,000 there would remain but \$4,000 avail-able for St. John. To increase this amount would require the introduction and pas-suge of special legislation and this it was thought would not be done. Consequently there were many things more certain than
