LEGISLATURE OF NEW BRUNSWICK,

HOUSE OF ASSEMBLY.

FREDERICTON, March 16—Afternoon.

After dinner Mr. Donald resumed his speech on the bill, referring to the attempt by the Surveyor General forty years ago to sell water lots on the St. Croix, and the directions forbidding him to do so, which came from the Imperial Government. He read the directions referred to, and argued therefrom that the Home Government intended that those who had received grants should exercise the rights of possession to low water mark.

Mr. Wedderburn referred to the full discussion that the bill had elicited on previous occasions in the House. He held that its provisions, besides being unconstitutional, were adverse to the interests of the people. Farmers, fishermen, miners, lumbermen, quarrymen and others would under the bill be deprived of the right to rest their property en route to market on any shore below high water mark. FREDERICTON, March 16-Afternoon

market on any shore below high water mark.

Mr. Hibbard said as some members are opposed to the bill, he would as one consent that it should only apply to Charlotte. He would also go for amending the bill so that no action of trespass would be brought for rafts or boats grounding. The object of the bill is to protect our fishermen in the same way as American fishermen are protected in Maine. The people of Grand Manan, Deer Island and Campobello, are most interested in the bill, and they present it only with a view of protecting their fishing rights. The Legislature of New Brunswick is asked to protect the people of Charlotte as the Legislature of Maine is said to have protected its people, and he hoped it would be done.

Hon. Mr. Crawford thought that the shores between high and low water should be left as public highways as at Progress was reported, and the bill was referred back to the committee.

Progress was reported, and the bill was referred back to the committee. Hen. Mr. Stevenson for Mr. Lindsay from the Committee on the Maduxnakik Boom Company Bill reported, recommending an amended bill.

Mr. Hanington, from the Committee on Agriculture, submitted a report. Mr. Hanington said the Committee had drafted a bill to abolish the Board of Agriculture, which they would refer to the Government.

Mr. Wedderburn suggested and the Attorney General endorsed the view that the House should go into committee on the report at the same time, and after that a bill might be framed that would meet the view of the House better than the bill now prepared.

Messrs, Hanington and Beckwith explained that it was the intention of the Committee to continue the present Board for a year and in the meantime a new system could be organized embracing a management of the department by the Surveyor General see that the Board would be directly accountable to the people. The results now attained are not commensurate with the outla;.

Mr. Butler, from the Railway Committee, reported in favor of bills to enable Fredericton; the bill to amend the New Brunswick Railway Act, and the bill to incorporate the Newcastle Railway Company.

Hon. Mr. Crawford presented the pettion of Ezra Stockton and others against changing Havelock polling place.

Mr. Robinson committed the bill to amend the New Brunswick Railway Act, and the bill to amend the New Brunswick Railway Company.

He thought that it would be best to pass the bill in the hope that it would lead to a reconciliation. He feared, if the bill did not pass, it would only widen the breach here, and unfortunately lead to outside parties being brought in as had already been done in one case in the province. The present Rector could, under the bill officiate in the new parish, and he hoped the legislation now desired would lead to happy results. It will give the new parish only the old build-
