	Junior Sophisters		10		10		

* Attendance on these Lectures is necessary for keeping Term.

III. EXAMINATIONS.

Examinations are held at the end of each Term, in those subjects on which lectures have been given during that Term. The Examination at the end of Easter Term, in each of the first two years, extends to the subjects of Lecture during the two preceding Terms. After the Examination for the degree of B. A., the candidates for Honours are classified and arranged, and medals are conferred as prizes. After the Annual Examination in each of the first two years, a similar classification is made, and books are conferred as prizes. The number of the classes is four, and the arrangement in each is according to merit. The classification is made not only in *Literis Humanioribus* and *Disciplinis Mathematicis et Physicis*, but in each subject for which a prize is offered.
