DEATH OF THE GENERAL.

But the end was fast approaching. Our thinning force were assailed by four times their num-ber. From every side death stormed upon their unsheltered bodies. Half their line officers were wounded or klied. The undaunted leaders were also fallen. Ward, Lieut Colonel of the Fifteenth, had received a frightful wound; Coggs-well was shot through the wrist; Lee, Devens Harvey and Stewart were still fighting sadly and vain; a ball shattered Wistar's sword armhe dropped the weapon, picked it up with his left hand, and General Baker himself restored it to the spabbard. Alas, that the chivairic leader should never again do such kindly service for a brother in arms! The yelling enemy began to upon our confused lines. The crisis had come. There was some hand to hand fighting; a few of the gray coats got entangled with our own the rear; they took a dozen, and made charge after charge. Just than a body of men appeared, pressing down from the left, The General ordered the troops around him to stand firm, and cried, "Who are these men?" "Confederate troops, you d—d Yankees!" was the reply; and they rushed almost within bayonet distance. One huge red-haired ruffian drew a revolver, came close to Baker, and fired four balls at the General's head, every one of which took effect, and a glorious soul fled through their ghastly openings. Captain Beiral seized the slayer by the throat and blew out his brains—

Javne's Sanative Pills. A Mild, Prompt, and Effertive Remedy.

HERE is scarcely any disease in which purge

tive medicines are not more or tess required dimuch sickness and suffering might be prevened were they more generally used.—No person can eel well while a costive habit of body prevails; besides, it soon generates serious and often fatal disases, which might be avoided by timely and judious use of proper Cathartic medicines.
Convinced of the correctness of these views, Jayne's Sanative l'ills, are recommended with th greatest confilence, experience having demonstrated them to be far superior to any other in use; being more mild, prompt, saie, and uniform in their operation. While using them no particular care is required, and pa lents may eat and drink as usual.

ANCT Age will not unp it them, as they are so combined ung all as to always readily dissolve in the stomach. In small doses they are alteratives, and general laxa-tive but in la ge doses are actively carbaric, clean-sing the whole alimentary canal from all putrid, itating, and fecal matter.

For Dyspepsia, these Pills are really an invaluable article, gradually changing the violated secretions of the Stocach and Liver, and producing healthy action in those important organs. In cases of long standing a cure will be more speedily effected by usu .g, in c. njuncti-.g, wi h the Pills. either Jatne's Alterative, on Tonic Vermisung, ac-

PROSPECTUS Of a New Semi-weekly Journal

WITH the beginning of the year 1862, the VV undersigned purposes commencing the pub-lication of a new Semi-Weekly newspaper, to be devoted to Politics, Literature, Agricultural, Com-mercial, and General Intelligence. WINDSOR, ST. JOHN & As to its political tone, the undersigned will only say to those who have been in the habit of reading the Aeadian Recorder, that the new journal will conform in its general tone to that which characterized the Recorder during the eight years —nearly—in which the latter was under his editorial management. In the management of the new journal he will, however, be more free to act in accordance with his own ideas of editoria ndiciousness On this head, he will only say fur ther, and for the information of the general publi that the substantial interests of the British Am rican Colonles, rather than the petty squabbles of local factions, in which the public welfare is no materially involved, will receive the most constant consideration and careful discussion; and that whilst, in what relates to disputes between riva political parties, it is not promised that neutrality will ever be the policy pursued, every effort will be made to maintain always an attitude of strice independence and impartiality; and that, while no party will receive a blind support, towards none will there be exhibited a factious opposition. In the other department of the projected journal, every possible pains will be taken to make it com bine instruction with amusement for both the town and country reader; to furnish the latest news

publication; to make the paper a reliable medium for commercial intelligence; and to render it wor-thy the commendation and support of the general Is their sleep-discurbed?
