OUR VERY LARGE CONTRACTS for almost everything in our way, is going to save hundreds of dollars to the people of Colchester during the next few months. Prices with us were fixed long ago and will not be changed not war profitters.

FOR DEFENCE OF MURMAN REGION

Text of an agreement between the Representatives of Great Britain the United States, France and the Murman Regions. Council for the defence of the Murman Region against the powers of the German Coalition. The Russian forces will be under the command appointed by the Council, but admission of Russian volunteers into the allied forces will be permitted, according to a Russian message.

The three Entente Powers are to provide the Russian command with the necessary help in equipment, supplies, transports and instruction for the Russian armed forces. They agree not to interfere with the home affairs of the region.

Second.—The peace treaties with Russia and Roumania may not be mentioned.

Third.—The principle of self determination of peoples has not been discussed but may be settled at the peace conference where the fate of Belgium may be settled.

Fourth.—The Balkan question is to be settled around the conference table

Fifth.—the freedom of the seas the dismantling of Gibraltar and the Zucz Canal and the right for Germany to use coaling stations.

Sixth.—The Colonial question is to be settled on the basis of the Status Quo.

The Vorwaerts considers this is a very reasonable peace program.

ALLIES ARE STILL WINNING—GERMANS LOST 180,000 MEN IN LAST WEEK.

With the French Army in France, July 24.

Tuesday was another successful day for the Allies along the entire active battle fronts. The bag of prisoners captured by the French north-west of Mont Didier numbered more than 1,500. The victory was gained with very slight losses.

Farther south ward on the northern side of the Marne, French and American troops met several strong German attacks, to which they responded with vigorous counter-attacks, as a result of which the allied line was again advanced. The Americans made their mark in heavy fighting in the vicinity of the front.

On the eastern side of the salient the British and French advanced an average of one kilometer.

The British increased the number of prisoners taken in three days to 1,100 by capturing three hundred. Approximately 180,000 dead, wounded and prisoners have been lost by the Germans since July 18. The enemy continues to burn stores and munitions within the salient, evidently being fearful that the future will see him driven back much farther.
