Sir:

x x x

It seems that the residents of Rocky Point Reserve claim all the land for those who were there when it was purchased. It was never divided into holdings and I wish to have a decision as to whether others can come there besides those who were there when it was purchased. There is not enough of land to cultivate and there is plenty of room for building if any one wishes to do so, can Mrs. L. Mitchell prevent them?

John A Mac Donald.
