

Director, and will be expected to strictly follow the routine laid down for their guidance. The Clinic has been established for the benefit of the public, and the Trustees are very desirous that it will be taken full advantage of by those to whom it can be of any service.

LABORATORY.

## GENERAL.

The Clinic has been established for the benefit of the public; its services are free; and the Trustees are very desirous that it will be taken full advantage of by those to whom it can be of service, subject only to the proviso that in order to prevent abuse of its facilities the Trustees and Medical Director reserve the right to make special rulings in particular cases.

Medical men will always be welcomed at the Clinic and are urged to take advantage of its facilities.
