

## THE AUGUST BANK STATEMENT.

The features of the August bank statement are the expansion in Canadian credits and the coincident contraction of those abroad and the concentration of the banks' resources in preparation for autumnal demands. In Canadian call loans there was an expansion during the month of \$346,740 from \$60,081,256 to \$60,427,996. Coincidentally call loans outside Canada are down from \$102,436,037 to \$100,447,288 or by \$1,988,749. Current loans and discounts in Canada show an increase for the month of \$4,805,434 from \$653,008,336 to the new high figure of \$657,813,770.

Current loans and discounts outside Canada decreased from \$40,267,390 to \$38,609,568 or by \$1,657,822.

With regard to the expansion in Canadian call loans it is to be noted that this is by no means participated in by the whole of the banks. On the contrary, the three banks with the largest increase in this item account for an expansion of about \$1,800,000 between them, but these and other lesser increases are offset to a considerable extent by sharp decreases under this heading in the remaining banks. The continued steady increase in the current loans and discounts in Canada is very satisfactory evidence of the
