DE LAVAL CREAM SEPARATOR

If you have any use for a cream separator, it's only a question of time before you buy a De Laval.

Many buy a De Laval to start with and so avoid a lot of "separator grief."

Others buy one, two or three different machines before they finally learn by experience that "the best is the cheapest" and get a De Laval.

That's why, in the older dairy sections where separators have been in general use for many years, you'll find most of the machines are De Laval.

"Claims" don't mean much to such farmers. They've had lots of separator experience. "Performance" means a thousand times more to them than claims.

They've watched the De Laval "perform" for several decades. They know that it is reliable and they stick to it, just as does the creameryman who is also "separator wise".

Why not be guided by the experience of these men and buy your De Laval "Sooner" instead of "Later?"

Order your De Laval now and let it begin saving cream for you right away. See the local De Laval agent, or, if you don't know him, write to the nearest De Laval office as below

THE DE LAVAL COMPANY, Ltd.

Cover Up Cracked Walls and Ceilings

Why live with cracked walls and ceilings when they're easily covered up.

Beaver Board will cover them up for all time, and you'll never have the job to do again.

Many an old farm home has been revived with this knotless, crackless, manufactured lumber. Room after room has been made over—one at a time if you please—without muss or litter.

The big, sturdy panels of Beaver Board are nailed directly over the old papered wall or to the studding of new partitions. They are treated in unlimited decorative fashion and all former monotony is entirely eliminated—Beaver Board transforms the whole house.

Beaver Board is real lumber. It is built up into large panels from the strong, pure fibres of the spruce tree. Each panel is treated with the Sealite process which prevents warping.

The booklet "Building More Comfort into the Farm Home" tells about this worthwhile building material and gives many decorative suggestions for its use. Write for a copy. Ask our Department of Design and Decoration for plans and color suggestions.

PEERLESS PERFECTION

Strong enough to keep your own live stock where they belong and your neighbor's out. The best way to hold neighborly friendships is to fence to prevent trespassing. This fence "locks the bars," "stays put." Made of Open Hearth steel wire—heavily galvanized.

in such a thorough manner that it will not flake, chip or peel off. The wires are tough, elastic and springy and will not snap or break under sudden shocks or quick atmospheric changes. The joints are securely held with the "Peerless Lock," which will successfully withstand shocks and strains and yet it can be erected on the most hilly and uneven ground without buckling, snapping or kinking. We also build a full line of poultry fence, ornamental fence and gates. Write for our literature. Valuable information on fence construction.

BISSELL SILOS

Our Silos are made of Pine or Spruce Staves preserved in creosote oil; steel splines; steel hoops, large at bottom; doors on two-step plan, airtight; roof of "Barrett" roofing, cut into right size sections. Consult us freely as to particulars. All sizes; prices on request. Write for folders.

T. E. BISSELL CO. LTD.,
10 Mill Street, ELORA, ONT.

The Silo increases fodder value 40%, and saves one-third of other feeds. With a Silo you can give your cattle green feed in winter, and when a drought comes in summer. Silage stimulates and aids digestion, and assimilation of food, increasing flesh and fat.
