CASH, and all the profits we need is enough to pay

our running expenses.

Send for our price list, and then compare our

prices with the CREDIT prices at your village store.

We can save you money on almost every class of

goods you use, but we would especially draw your

attention to these lines: Sugars, teas, and all kinds

of groceries; boots and shoes; harness; stoves and

scales. We are carrying a very large stock of the

above, and having bought in large quantities we

obtained these goods at figures that enable us to

sell them at prices that will astonish you.

We are able to handle any quantity of good butter

and eggs.

PURE ANIMAL NON-ACID FERTILIZER.

Rowlin's Complete, per ton. \$30 00

Rowlin's Pure Animal Fertilizer, per ton. 25 00

Rowlin's Pure Fine Bone Meal, per ton. 25 00

The above fertilizers are made exclusively of

animal matter and warranted pure and free from

acids. It is not necessary for us to offer prizes in

gold to sell our fertilizers, they sell rapidly on

their own merits. Why does the Government

Analysts pronounce them more valuable than acid-

made fertilizers? Because they contain more

plant-food. See this year's Bulletin, which will

convince you that our fertilizers are the best and

purest. I will state briefly the advantages claimed

for Pure Animal Non-Acid Fertilizers:—1st. A

permanent enricher of the soil, not a mere stim-

ulant. 2nd. It is entirely free from any deleterious

acid. 3rd. Every pound of it is of value for

fertilizing the soil. 4th. Its physical condition is

such that not the slightest difficulty is found in ob-

taining even distribution on the soil. No clogging

or gumming in the drill which is found so trouble-

some with acid-made fertilizers. 5th. Its price,

which in addition to its intrinsic value, must com-

mend it. Use four to five hundred pounds per acre.

If your land is very poor use a little more, and you

will receive good results. Terms to suit the farm-

ers and gardeners. Send for catalogue and analysis.
