GOSSIP.

Readers will please note the advertisement of Lorne Stock Farm. A McKillop & Sons are now offering young stock of Standard-bred horses, Shorthorn cattle and Oxford Down sheep.

Labori (10791), the fine Clydesdale stallion, son of Hiawatha, owned by Mr. A. B. Matthews, Newton-Stewart, has again been hired by the Scottish Central Horse Breeding Society for 1904. It is a far cry to that date, but time these days must be taken by the forelock. Labori was hired here this date last year to travel the same district this year, and is now on his rounds. He was bred by Messrs Robertson, Clendrie, Kirkcaldie, and has been a noted prize-winner, standing close up to the winners at the Glasgow Show for three seasons, and in 1901 was the junior premium horse of the Glasgow Agricultural Society.

Mr. Edwin Battye, of Gore Bay, writing us, says: "Our cattle are doing well, and we have now over twenty calves. We have sold all our bulls that we wanted to spare that were fit for service. We have some calves that will be fit, both for breeding and individuality, to head any herd. Two are from imported cows and sire; two Matchless bulls from imported sire, and a Duchess of Gloster bull, all from Royal Emperor =40416= (79809); also, a nice lot of heifer calves. We have bought from the Hon. Wm. Mulock, York Wanderer (imp. in dam). He is a light roan, calved February 2nd, 1903; bred by Rev. J. S. Smith, Oakland, Boyle, Ireland; got by Wanderer's King (80212); dam Riby Anna (imp.). This is an extra fine individual, and we have great expectations of him, intending to use him on the heifers from Royal Emperor."

On June 17th, Mr. Jas. Dalgety sailed for the Old Country to bring out a consignment of Clydesdales and Hackneys that includes some of the best horses that were ever selected for Canada. Several of the number have already been bought by the brothers in Scotland, and some that are hired out on the routes this season will be included in the shipment to this side. Dalgety Bros. are in a particularly advantageous position for importing good horses. Having a stock farm in Scotland, they are able to collect some of the best specimens that are offered for sale, and can keep them until a full consignment has been secured. The connection in Scotland also enables them to get a thorough knowledge of all the prizewinners (and their ancestors) at the shows over there. This summer's shipment will first be seen at the Black Horse Hotel, Toronto, and later at the stables in London. Watch for Mr. Dalgety's announcement of the individuals in later issues.

TRADE NOTES.

GASOLINE ENGINES.—One of our representatives recently called upon the McLachlan Gasoline Engine Co. and had a look over their great variety of supplies. Engines ranging from two to thirty horse-power are manufactured in these works. Our attention was particularly drawn to the twenty-horse-power machine, intended chiefly for Western thrasher business. It is certainly a smooth-running machine, and fills a long-felt want.

ONTARIO WIND ENGINE AND PUMP Co., Limited, Toronto, write: "Never in the history of our company were we so busy as at present. The Canadian Airmotor is in such good favor with the Canadian public that we are unable to meet the requirements of our customers. The Canadian public has tested this machine for years, and the immense increase of our business is the verdict. Our firm took no part in the recent wind-mill contest in London, England, and it is only justice to us to remove any impression from the public mind that the Canadian Airmotor was outdone. The fact that the prize medal was given to this firm at the Paris Exposition, 1900, speaks for itself."

Accidents will happen

and it pays to have a fence that is accident proof.

The No. 7 Top Wire in Page Fences is break-proof at 3000 pounds' strain—common wire same size at 1700 pounds.

Page Fence Wire is tempered to stand that strain. Its coil takes up summer slack and gives spring for winter tension, and acts as a cushion to meet accidental strains.
