

**TO EARN THE BIG SALARY
LEARN RAILROADING.**

There is no line of work to-day that pays the princely salaries as does that of Railroading. Mechanics and tradesmen, office and store clerks, street-railway men, etc., spend years in learning and training, only to find that they have entered overcrowded trades and lines, and are therefore compelled to accept small wages. Not so with Railroading.

**FIREMEN AND BRAKEMEN
Earn from \$75 to
\$150 per month.**

With the rapid progress of Railway building in Canada, it takes only from 2 to 3 years to be advanced to Engineer or Conductor, whose salaries are from \$90 to \$185 per month.

**You can earn that money.
We can start you for it.**

We teach and qualify you by mail in from 8 to 14 weeks without loss of time from your present work. Positions are secured; in fact, there are many openings right now if you were qualified to fill them. Our Course is the most complete treatise on the subject of Railroading in existence. We do not show a course anywhere nearly as thorough. Don't tamper with your education by buying cheap bargain courses. Ours is the only School of its kind in Canada with text-books written for use on Canadian Railways.

Our free booklet tells all about our system of teaching. When writing, state age, weight and height.

**Waterous
Portable Sawmill**

No. 0 Wooden Saw Frame, specially designed for Portable Sawmill work. Takes saws up to 52 inches diameter. Forged Steel Mandrel 2 3/4 inches diameter. Friction feed of 4 in. h paper and iron friction, set close to outer frame bearings. Substantial carriage can be returned or giggered from 5 to 10 times as fast as feeding speed. Carriage will accommodate good size logs. Standard carriage for rack feed is 16 feet 11 inches long; rope feed 17 feet 6 inches long. Frame extra wide, of heavy red pine stringers, edges bound with heavy iron. Log seats heavy web. Six-inch eye-beams. Knees and rack cast in one piece. Knees have 3-in. h independent t-p-r movement and are fitted with our patent upper and lower steel hook Peel Dogs, operated by overhead single-acting ratchet networks, having large ratchet wheel. Split steel setting and holding Pawls, designed to eliminate lost motion and permit a set of 1-16 inch. Steel-set shaft 1 1/2-16 inches diameter and 16 feet long. Carries pinions which operate knees and is fitted with heavy cast iron hand-wheel for hand setting. Track 54 feet long. This is one of the finest Portable Sawmills made. It will pay you to send for our free catalogue, which describes it, as well as many others, in detail. Drop us a card to-day.

Anybody Can Kodak.

**THE NO. 1
BROWNIE**

Pictures 2 1/4 x 2 1/4. Price, \$1 00.

If you feel somewhat interested in photography, but are not just sure whether you will really care for it after you have taken it up, there's a very inexpensive way of making the experiment. The Dollar Brownie offers the opportunity. The Brownies are not expensive, but they stand the supreme test—THEY WORK. The pictures are 2 1/4 x 2 1/4 inches, and the camera is truly a capable little instrument for either snap shots or time exposures. The price is so small that at first thought you may consider this camera a toy. The fact is that its production at this price is only made possible because it is made in the Kodak factory, the largest and best-appointed camera factory in the world.

The Brownie Cameras all load in daylight with Kodak film cartridges, have effective lenses and shutters, and are capable of really high-grade work. They are made in both the box and folding form, at prices ranging from \$1.00 to \$12.00.

THE BOOK OF THE BROWNIES tells all about them, and may be had free at any dealers, or will be mailed upon request.

BY HOOK OR BY CROOK.

"By hook or by crook" is an allusion to an ancient manorial custom which permitted the neighboring poor to take all the wood that they could reach and pull down from the forest trees, using only their shepherd's crooks.
