

GOSSIP.

Dr. D. McEachran, of Ormstown, Que., makes a change in his advertisement, in which he states that his June importation of Clydesdales being immediately disposed of, he will, to fill numerous orders, have a large consignment of yearlings and two-year-olds arrive at the end of September, and in the meantime special orders will be executed for customers who will communicate with him, stating their wants.

PLEASANT VALLEY SHORTHORNS.

The almost unprecedented success that has attended the venture of Geo. Amos & Son, of Moffat, Ont., as breeders of Shorthorns in the ten years of their experience, is evidence of natural adaptability for that particular line of pure-bred stock-breeding, and uncommonly fine judgment in the selection of breeding stock, backed up by a master ability to care for, feed and exhibit them in the best possible fit. Their first purchase was made ten years ago, and consisted of three Golden Drop females, and the Van-ity bull, Vanguard, a son of Imp. Knuckle Duster. This cross produced a number of local show winners that, in turn, crossed with their next herd-header, Imp. Old Lancaster, made an international reputation for the firm, and proved one of the greatest sires of his day; produced a number of winners at Toronto and other leading shows in Western Canada and the United States. The next addition made to the herd was the purchase of Imp. Mattie, a Mysie cow, and Imp. Scottish Queen, a Jilt. The latter, mated with Imp. Old Lancaster, produced that great heifer, Pleasant Valley Jilt, who won for the firm the grand championship at Toronto, and afterwards sold for \$2,500; Scottish Queen also produced the grand young bull, Scottish Signet, by Old Lancaster, considered by the firm one of the best they ever raised, and is retained as one of their main stock bulls. Another notable son of this great cow is Jilt Victor, imported in dam, who won so many honors at the leading shows in the herd of James A. Watt. Imp. Mattie, also produced her quota of Toronto winners, and is the dam of Lancaster Princess, who, in turn, is the dam of Lomond's Mysie, junior champion at Toronto last year, and which sold for \$2,000 at auction last winter, she being sired by Ben Lomond, which followed Old Lancaster as chief herd-header. Pleasant Valley Mysie, a full sister to Lomond's Mysie, also won first prize as junior heifer calf at Toronto last fall. Other breeding cows purchased were Imp. Sweet Fragrance and Imp. Collynie Fragrance. Four of the daughters of the latter cow, by Old Lancaster, are doing duty in the herd, three of them being Toronto winners. Imp. Princess Victoria, whose daughters have won honors for the firm at Toronto, one of them, Victoria 74th, sold to cross the border, has a brilliant record of winnings in the land of the Stars and Stripes. Scottish Lassie, a Flora-bred cow, produced for the firm the sensational heifer, Flora 90th, by Old Lancaster, she was grand champion of Canada in 1905, and in the United States in 1908. Another of the great breeding cows is Rosebud 11th, the dam of Lancaster Bud, first prize two-year-old, and reserve champion at Toronto last fall, and grand champion at Alaska-Yukon Exhibition at Seattle, 1909. Briefly, this firm has won at Toronto, on animals (with the exception of Imp. Old Lancaster) of their own breeding, first, senior and grand championships on Old Lancaster, in 1901, 1904 and grand championship on Flora 90th, 1907, first, junior and grand championships on Pleasant Valley Jilt, in 1902, first and reserve junior championships on Lomond's Mysie, first, reserve and championship and reserve grand championships on Lancaster Bud, both a record for these, besides first on exhibition at last on breeder's herd, first on get of one sire, first on get of one cow, etc., a record unapproached by any one firm in Canada. It will see the usual representation of the highest quality out for sale, and where the firm will be glad to meet their many friends.

The CAPITAL Is the Cream Separator that will "Buy Itself" For You.

As soon as you have read this advertisement, sit down and write a post card for The Capital book—the book that not only tells the story of the easy-running, cream-saving separator, but that tells how you can put The Capital in your own dairy practically without costing you a cent.

The book also tells all about the wonderful Capital gears, about their perfect meshing and non-wearing qualities—how they run in oil—how an automatic clutch stops them running the minute you let go of the handle—and about how they give the light, three-and-a-half-pound bowl 7,000 revolutions a minute.

It tells how and why The Capital skims closer—why The Capital wastes less than one-fifth the cream that other separators waste—and then explains how the machine can be made sweet and clean in two minutes after you are through using it.

This book is full of hard-and-fast facts—separator facts—which every dairyman owes it to himself to know; facts which will prove a revelation to the dairyman who is not familiar with The Capital.

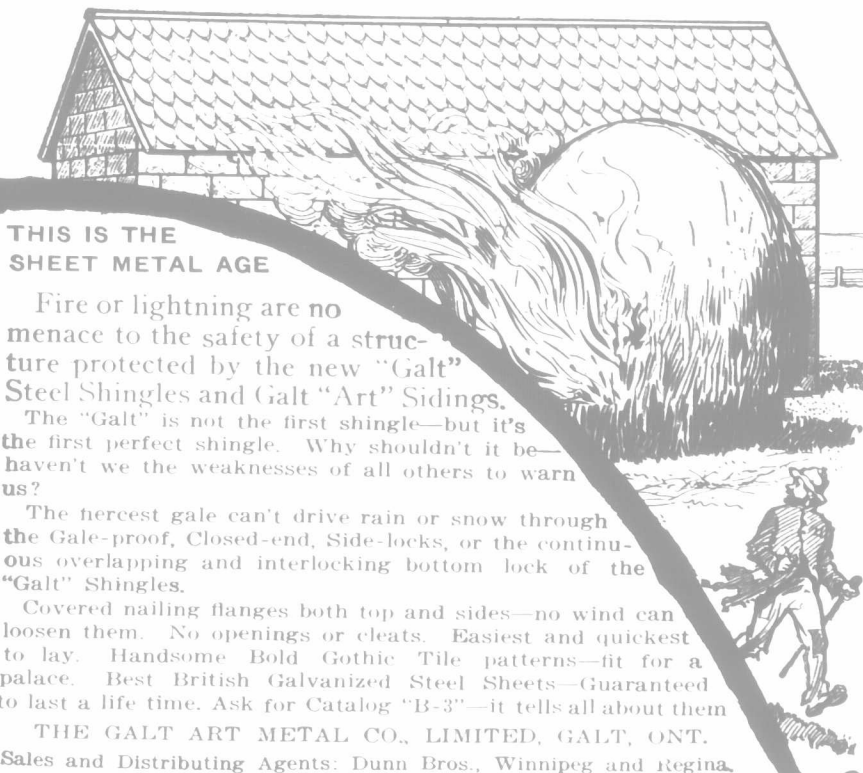

Write for the book to-day—NOW.

THIS IS THE SHEET METAL AGE

Fire or lightning are no menace to the safety of a structure protected by the new "Galt" Steel Shingles and Galt "Art" Sidings.

The "Galt" is not the first shingle—but it's the first perfect shingle. Why shouldn't it be—haven't we the weaknesses of all others to warn us?

The fiercest gale can't drive rain or snow through the Gale-proof, Closed-end, Side-locks, or the continuous overlapping and interlocking bottom lock of the "Galt" Shingles.

Covered nailing flanges both top and sides—no wind can loosen them. No openings or cleats. Easiest and quickest to lay. Handsome Bold Gothic Tile patterns—fit for a palace. Best British Galvanized Steel Sheets—Guaranteed to last a life time. Ask for Catalog "B-3"—it tells all about them.

THE GALT ART METAL CO., LIMITED, GALT, ONT.

Sales and Distributing Agents: Dunn Bros., Winnipeg and Regina.

BOYS FOR FARM HELP The managers of Dr. Barnardo's Homes invite applications from farmers or others, for the boys who are arriving periodically from England to be placed in this country. The young immigrants are mostly between 11 and 13 years of age; all will have passed through a period of training in Dr. Barnardo's English Institutions, and will have been carefully selected with a view to their moral and physical suitability for Canadian life. Full particulars as to the terms and conditions upon which the boys are placed may be obtained upon application to Mr. Alfred B. Owen, Agent Dr. Barnardo's Homes, 50-52 Peter St., Toronto.
