A respectable female in the neighbourhood of Loughull, was attacked with Typhus Fever. She Jay for five days without having tasted any description of food. She was given over by the Sargeon, and preparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose case is referred to above, heard of the circumstance, and knowing the immense benefit that he himself had derived from Hodoway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a v-ry short time she was completely cared.

Fills, which had an immediate and surprising effect upon his system, and the result was to restore him in a few weeks to perfect health and strength, to the surprise of all who knew him. He considered his case so extraordinary that he, in gratitude, sent it out far publication to the Sydney Morning Herald, in which paper it appeared on the 2nd January, 1848. A few doses of the Pills will quickly rally the energies of both body and mind, when other medicines have failed.

TO INTENDING EMIGRANTS FROM NOVA SCO-TIA. THE CANADA COMPANY would suggest to parties who may contemplate leaving Nova Scotia that the Western Section of Canada offers every inducement for them to settle there, rather than that they should proceed to the United States. In Upper Canada they will find a most healthy climate, and abundance of excellent Land to be obtained upon easy terms from the Government and Canada Company. The great success which has attended Settlers in Upper Canada is abundantly evidenced by the prosperous condition of the Farmers throughout the Country, by the success of many Natives of New Brunswick and Nova Scotia who have settled in many Townships;—and by the individual progress made by several thousands of people who have taken Lands from the Company. The Canada Company's Lands are offered by way of Lease for Ten Years; or for Sale Cash down. The plan of 1-5th Cash and Bulance in Instalments, being done away with.

The Rents, payable 1st February each Year, are about the Interest, at six per Cent., upon the Cush Price of the Land. Upon most of the Lots, when Leased, no Money is required down; whilst upon the others, according to lecality, One, Two, or Twee Years' Rent must be paid in advance, but these pay ments will free the Settler from further Calls, until the Second, Third or Fourth year of his Term of Lease.

The Statler has secured to him the right of converting his Lease into a Freehold, and of course, stopping payments of further Rents, before the expiration of the Term, upon paying the purchase. But he may, if he pleases, refuse to call for the Freehold; the option being completely with the Settler.

A Discount, of Two per Cent., will be allowed for anticolar remains of the uppelase Money for every mester to the land and the purchase.

the Settler.

A Discount, of Two per Cent., will be allowed for anticipated payment of the purchase Money for every unexpired year of Lease, before entering the Tenth Year. The Lessee has also secured to him the benefit of the Settler's Saving's Bank Account.

The direct trade now opening up between Upper Canada and Halifax presents facilities for cheap passage by the St. Lawrence to the upper Lakes, in the vicinity of valuable lands open for settlers.
