SUBSCRIPTION BIBLES.

A fresh supply of these has been re seived this week, so that we have been at length able to fill several orders which much to our discomfort and the inconvenience of our agents have had to wait a long time. We have remaining now a small surplus stock, and we advise all our agents to send in their orders at once. -before a rise in the prices which seems inevitable. The publishers have given us notice that they cannot continue to supply us upon former terms, the prices of materials for Book making having risen very greatly in the United States. Halifax,

PRAYER AND FASTING .- If we are not to expect that the devil should go out of a particular person, that is under a bodily possession, without extraordinary prayer, or prayer and fasting; how much less should se expect to have him cast out of the land and the world without it .- Ed.

THE VALUE OF PRAYER .- There is no way that Christians in a private capacity can do so much to promote the work of God, and advance the kingdom of Christ. as by prayer, In this way they may have power with him who is infinite in power.-Edwards.

CHRIST'S POOR .- Christ is yet poor in his members; and he that gives to them lends to the Lord; and Christ tells us that he will look on what is done to them as to him.—Edwards.

THE CHURCH OF CHRIST.

The Church of Christ was designed to represent him on earth, and to minister to all the moral needs of the human race. Her work, then, is not done when she sets up churches at he me, and mission stations abroad. She must grope her way into the alleys and courts | Rolling Stock :and purlieus of the city, and up the broken stair-case, and into the bare room, and beside the loathsome sufferer. She must go down into the pit with the miner, into the forecastle with the sail or, into the tent with the soldier, into the shop with the mechanic, into the factory with the operative, into the field with the farmer, into the counting-room setters. Money sent otherwise is at the risk of the with the merchant. Like the air, the Dopt. Railways and Canals, church must press equally on all the surfaces of society; like the sea, flow into every nook of the shore-line of bumanity; and like the sun, shine on 400 things foul and low, as well as fair and Rev F H W Pickles for David Rockwell . 200 | high, for she was organized, commission-6 00 'ed, and equipped for the moral renovation of the world. -Bishop Simpson.

SOMETHING NEW. The Marvel Copyist

A WONDERFUL INVENTION.

The PAPYROGRAPH and ELECTRIC PEN Superseded.

No Copying Press required .- Most simple Process invented. Instant Reproduction without Press or Damping.

Usefulness.

One to two hundred copies of Church Reports, Pastoral and other Letters, Sunday School Lessons, Prayer-meeting Topics, Circulars, Plans, Irrawings, Specifications, Music, stc., in one or more colors if desired, at one operation. This process can be repeated for any number of thousands of copies.

Copies can be male on any kind of Paper with out precious preparation, and can also be made o Muslin. Linen. Leather. Silk. Wood, etc.

HOW IT CAN GREATLY SERVE THE PREACHER.

There are scores of ways in which a clergyman will find this invention of the greatest service to him. It is important that the annual report of his labors, or that the treasurer's or secretary's report take low or more copies from the original writing, each one a perfect face-simile. Thus days of labor, or a heavy printer's bill is savel. Often a paster write, tracts for distribution through his neighborhood, invitations to attend his services, all can be done quickly and neatly through this wonderful

The whole method is simplicity itself. We deem this method, after examination and use in our office, as far preferable to either the PAPTROGRAPH or Electric Pen, or any other of this class of duplicating processes. Its weight is less than 4 pounds. There is nothing about it liable to get out of order. The whole process is perfectly clean.

OUR PAPYROGRAPH OFFER WITHDRAWN. We have been astonished at the simplicity, cheapness and efficiency of this new invention, and as it will accompaish with one-tenth the trouble and one-sixth the expense the work of the Papyrograph, we withdraw our offer, made last month, in

ORDER AT ONCE, AS THE PRICE WILL PROBABLY BE ADVANCED.

favor of this new invention.

There is a conflict between rival manufacturers for the patent for the process. This rivally has run the price down to \$5.00. As soon, however, as the right to the patent will be determined, the successful claimant will most likely advance the price, as he will then hold a monopoly.

BEWARE OF IMITATIONS ALREADY IN THE MARKET.

Directions for Use.

Write the article to be copied on any kind of paper with the prepared ink. Let it dry without blotting.

Place the writing, ink side downward, on the with the hand so that all parts ot it remain five minutes, then tours . ue remove carefully and an impression will remain on the pad. Place the paper to be printed on the pad, smooth lightly with the band and a copy is made. This repeat to the extent of the number of copies
