

"The next solacing fact is this: That most of this debt will be a debt we owe to ourselves. Great Britain is borrowing in the main from her own children. The debt is in the family . . . . and the more we lend the less will Great Britain owe to others. And that is the most important fact in our national security and national wealth."

—Premier Lloyd George  
in Albert Hall, London,  
October 22nd last.

## *Happy will be the Nation which Owes its War Debts to its Own People*

THE interest on Canada's war debt is now about \$25,000,000 a year.

If that interest is paid in Canada to the Canadian people it will go back into circulation in Canada, instead of being sent out to foreign creditors.

Likewise when the principal comes due it will be kept in Canada for re-investment and thus will aid in the development of the nation and its resources.

And that is a most important fact in Canada's national security following the war, just as it is important to Great Britain's national security that her war debt shall be owed to her own children, when the war is over.

So when you buy Victory Bonds you not only directly help Canada to fight the war but you contribute to the national security after the war.
