HEAD OFFICE AND
WORKS:

SYDNEY, CAPE BRETON, CANADA

The commercial possibilities opened up by the Canadian Northern Railway System are unequalled in the British Empire. In 1897 the Canadian Northern operated 100 miles of railway.

It now controls 4,100 miles in the most promising parts of the country. It has created 150 new

NEW townsites along its 3,000 miles of line west of Lake Superior, and has made practicable many new enterprises in Nova Scotia, Quebec and Ontario. In Nova Scotia there is a

TERRITORIES re-creation of business along the Halifax and South Western. Quebec City will have a new direct rail route to Montreal and

OF Ottawa. In Quebec Province enormous pulpwood areas are being tapped. In

Ontario the year 1908 will see a new port of Key Harbor, on Georgian Bay, capable of daily shipping 8,000 tons of ore from the

THE Moose Mountain iron mines. In the west several towns will be founded on the new

line from Brandon to Regina; the Goose Lake branch from Saskatoon

CANADIAN will make accessible to homesteaders the Great Saskatchewan Plain.

The development of coal mining near Edmonton is giving a new

NORTHERN aspect to industry in Alberta. Enquiries about rates and opportunities for business to William Phillips, General Eastern

Agent, Canadian Northern Building, Toronto, Canada.

SYSTEM

The Hudson's Bay Company
