

# Why En-ar-co Quality Does Not Fluctuate

## En-ar-co National Motor Oil Scientifically Refined By Graduate Workmen Only

NEVER content to abide by old, established ways, En-ar-co refining experts are constantly seeking new methods. New inventions are continually being added. Many are found only in our refineries. But these experts have long realized that mechanical processes alone do not forestall quality fluctuation.

Oil scientists say that *quality must not fluctuate*. Lubricants must be uniform in order to give the greatest service and assure complete satisfaction.

### Accurately Trained Workmen Produce Accurate Products

Having supplied the best materials, newest modern equipment, exact formulas and rigid tests, quality then depends upon the degree of training each workman receives.

Thus it is to your advantage to use En-ar-co National Motor Oil and other En-ar-co products. All En-ar-co brands are made by graduate workmen only—men who have passed through the several grades of En-ar-co scientific training. Each man must qualify for his master degree before he is assigned to responsible duties.

### Your Satisfaction Guaranteed

*Tractors, Automobiles, Aeroplanes, Trucks, Gas Engines and Motor Boats give better service and last longer when lubricated with En-ar-co National Motor Oil.* And there's equal satisfaction in White Rose Gasoline and other En-ar-co products. The best is none too good for your motor.

Here, then, is your assurance of maximum service and satisfaction. Try En-ar-co National Motor Oil now—made by men who know!
