15 per cent. more power than any other type of gasoline motor, which means
15 per cent. more mileage per gallon of gasoline.

This is not a theory but a fixed engineering principle resulting from the perfecting of the "McLaughlin" Valve-in-Head Motor. Hundreds of users of
"McLAUGHLIN" Valve-in-Head 45 Horse-power cars give evidence daily that
they are getting 22 miles or more per gallon of gasoline while touring with full
