THE SITUATION. On the Eastern front the Russians have received their first check since June 3rd, the Teuton forces having driven them back six hundred yards at a point nineteen miles from the railway centre of Kovel.

It is asserted that Turkey has offered to make a separate peace with Great Britain on humiliating terms. Nothing doing. The Allies will all act together in the matter of making terms, and do the humiliating themselves.

There has been some attempt to twist political capital out of the above matter, but there nothing to be gained in that course, either one way or the other.

ever that it might be "prudent" for the Ontario Legislature to retain control of some of said lands. This was not done, but eight years later the Mowat Government again suggested that the Imperial authorities take an interest "in nickel ore of the ungranted lands of the Crown for Imperial and nation uses."

It will thus be seen that had the advice of Hon. Mr. Hardy been accepted by the Imperial authorities John Bull would have had a controlling interest in Canada's famous nickel supply.

Any effort to throw blame on Conservative administrations equally fails of the attempted mark. The outbreak of hostilities illumined the nickel situation as it did so much else, and then outside interests had control, with the refining done in the States.

Overland New Series Model 75 B \$890 Roadster \$870 31 1/2 Horsepower An Unparalleled Victory About a month ago we announced to the world our newest value—the \$890 Overland. In twenty-four hours and from every section of the Dominion we had received more orders than we could fill in several weeks. So we immediately increased the production—filled the orders and notified our dealers not to push the model too hard as we were going night and day to catch up with orders. Before the end of the first week orders were pouring in so rapidly that we decided to again increase the production so that there would be no disappointments. But still bales of business continued to flood the factory. Now we are shipping 500 of the new cars every single day and are fairly breaking our backs to keep pace with the great demand that now looks as if it never would cease. We anticipated a great success, but we did not look for such a daily avalanche of definite shipping orders. Such is public opinion—the strongest force, the greatest asset, in the world. Never before has any automobile enjoyed such an unparalleled victory. Step in and see this extraordinary car yourself today. JAS. A.
