THURSDAY, AUGUST 10, 1905.

NO TIME FOR RECIPROCITY.

"It would be useless," says the Detroit News, "to attempt any reciprocity agreement between the Canadians and the people of the United States at the present time." And in the same article the News says: "There is a disposition among Canadians to look out for themselves."

Perhaps it is because of a realization on the part of our neighbors of this disposition of Canadians to look out for themselves that our neighbors are beginning to see that there is little use attempting a reciprocity arrangement at present. Experience has taught Canadians that trade reciprocity with the United States cannot be obtained save at the sacrifice of Canadian industries and interests which Canadians do not wish to sacrifice. They have learned the value of these interests as factors in national development, and—well, they are "disposed to look after themselves."

The best way for Canadians to look after themselves as Canadians is to make this country industrially independent of its great neighbor. When that work is thoroughly accomplished, it will be time to think of a substantial measure of reciprocity between the two countries.

COAL PROSPECTS.

At this time of the year the careful man is considering or has arranged for his winter supply of coal. More especially is this the case at present as the report is about that there is likely to be a coal strike in the Pennsylvania anthracite regions and another coal famine.

It is, therefore, re-assuring to see that John Mitchell has sent out a vigorous denial of the report of the threatened strike, which the Boston Transcript thinks ought to set at rest any public fears on this account.

The contracts with the mine workers do not expire until April, and Mr. Mitchell then looks for a peaceful renewal of agreements, for, as he says: "The last strike of 1902 was a lesson not soon to be forgotten by miners or operators."

There is a world of meaning in this simple statement. The coal companies realize that the strike, despite the high prices which they wrung from the public for coal, was not a thing which they would like to see repeated, in view of the fact that there is no certainty that the outcome would be favorable to them, and that the public was so stirred up during the last strike that another settlement might be disastrous to the coal.

The coal companies, of course, the Transcript remarks, are trying to store up coal enough so that they will not be forced to face another famine in case of a strike. The miners are naturally trying to make their organization as complete as possible. This looks, at least, like an armed truce.

It is plain that the coal companies and the miners have not fully learned their lesson, which is that a lasting peace can only be concluded on a basis of a fair agreement of square dealing with the men, and reasonable demands on the part of the miners. It may take another long and costly strike to show this, but it will be demonstrated some day, and then we may look for peace on a better basis. There are some who recognize this fact now, and it is well for the public that one of them is the long-headed president of the United Mine Workers.

ENGLISH THE RICHEST LANGUAGE.

London Tit-Bits.

The English language—according to a German statistician who has made a study of the comparative wealth of languages—heads the list with the enormous vocabulary of 250,000 words. German comes next with 80,000 words, then Italian with 75,000, French with 30,000, Turkish with 22,500, and Spanish with 20,000.

OYAMA'S ABSTEMIOUSNESS.

Exchange.

Marshal Oyama is very careful of his health while in the field, and will not drink any liquor. He smokes but three cigars a day, takes a certain amount of exercise on the days when he is not chasing the Russians, and frequently takes a day off and goes shooting. He weighs 150 lbs., which is 25 less than when he left Japan.

EARLY CLOSING.

At Monday night's session of the Council Ald. Marshall gave notice of motion that a by-law be prepared to rescind the by-law requiring grocery stores to close at 7 p. m.

LOOK OUT FOR GERMS NOW

The Summer Months Call for Constant Vigilance and Use of Mi-o-na.

In the summer months constant vigilance is necessary, or dangerous disease germs will be absorbed from food or drink. The so-called summer complaints and bowel troubles do not come to people with a healthy stomach, for Dame Nature kills the disease germs with the natural juices secreted by the healthy digestive organs.

Persons with a weak stomach and poor digestion in the summer season live in constant fear of germs of disease. Let these people use Mi-o-na before each meal, and the stomach and the whole digestive system will be strengthened so that disease germs will have no effect whatever. You can eat what you want and all you want without any

fear of indigestion or bowel trouble, if you take a Mi-o-na tablet before each meal. When there are pains or distress after eating, headache, belching of gases, sour food, and bad taste in the mouth, dizziness, heart-burn, specks before the eyes, furred tongue, sleeplessness, and debility or weakness, it shows that the stomach needs the help of Mi-o-na. Just one little tablet out of a 50 cent box of Mi-o-na, before each meal for a few days, and you will regain perfect health and strength, and be proof against the germs of summer diseases. Ask C. H. Gunn & Co. to show you the guarantee under which they sell Mi-o-na. It costs nothing unless it restores health.

WORLD OF SPORT

LAURUSSE

At the Island, Monday, Tecumseh beat the Chippewas 10-3 in a rough game. St. Kitts defeated Brantford 8-3 on the former's grounds.

BASEBALL

It is altogether likely that the Stratford team will play a double-header here, on civic holiday, with the locals. Arrangements for the game are almost completed.

FOOTBALL

The Cack-Na-Waugas team, LaCrosse street, played a game of football with the Manson Campbell Fanning Mill team, on Victoria Park last evening, and defeated them by a score of 1-0.

The Cack-Na-Waugas play a return game with Bridge End, on August 11th, at 6 o'clock, slated to turn. This team has played three games this season, and have not met with defeat so far. An interesting game may be expected on the Park next Friday.

THE AUTO

At the Grosse Point, Detroit, while competing in five mile event, Barney Oldfield collided with Wurgis in the stretch. Barney's engine broke down and Wurgis, who was following closely, did not have time to turn out. Oldfield's car went through the fence and sixty feet into the infield. He was thrown out, unconscious, and taken to Harper's Hospital. He will be around again in a few days.

Webb Ivy beat Barney Oldfield by an eighth of a mile on the Detroit Grosse Point track yesterday. Ivy assumed the lead at the start and was never headed off.

CRICKET

In the first game against the Marleybone cricketers the Toronto team scored 102 against the 342 scored by the former. In their second innings Marleybone made 304. Godsell, the English captain, gave a splendid exhibition of leg hitting. Henley, for the visitors, drove the ball over the grandstand for six.

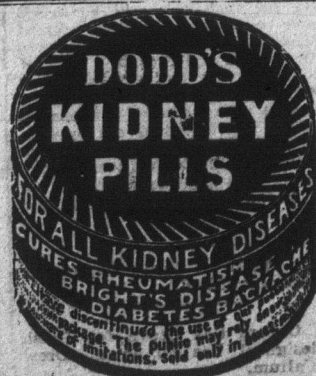

The International will likely be played on the Rosedale grounds Aug. 18, 19 and 21.

J. W. Aitken has received word from the Toronto team that a combined team of western cricketers can be accommodated with games in Toronto on the 18th and 19th of August. The team will be composed of two men each from Pittsburgh, Cleveland and Chicago, and three men each from Detroit and Chatham.

The Marleybone cricketers are playing a picked Toronto team on the Rosedale grounds. In the first game the Englishmen scored 342, the Toronto team presenting them with 150 runs by costly muffs. Toronto scored 70 for the loss of seven wickets. The Britishers indulged in some pretty hitting, Wyld getting 75. Their ninth wicket put on 40 runs and the tenth 80.

SUMMER PUDDING.

Beat the yolks of three eggs until light, add one cupful of sugar, the juice of one lemon, the whites of the eggs beaten stiff, and one cup of flour into which has been sifted one teaspoonful baking powder. Pour into a rather shallow baking pan, which has been buttered, and bake twenty minutes. When done, turn out on a towel; have ready stewed peaches chopped fine, in sufficient quantity to cover the sheet of cake. Roll the cake up and serve with a sauce. To make the sauce, take a cupful of the peach juice, a half cupful sugar, one teaspoonful corn starch. Mix together, and boil five minutes.

DR. A. W. THORNTON

Office over A. I. McCall & Co's Drug Store, Cor. King and Fifth Sts. Phone. Office 164, Residence 295.

The Ancient Fisherman. He stopped a bunch of three. Now, by the beard of the pickarel, Pray whither stepst thou woe?

He held us with his glittering eyes and would not let us go. Till he had poured into our ears His little tale of woe.

"We started on a fishing trip. A merry gang of eight, With hampers loaded down and eke A jug of jovous bait.

"To reach the happy fishing ground We hired a panting tug. When one uncouth and clumsy wight Fell down and broke the jug.

"We landed on a smiling isle. Whose shores were green and pink. With water, water everywhere, The only thing to drink.

"We landed just a week ago, And in those days occurred Without an effort I acquired A large and howling thirst.

"Now you have guessed the reason why I've had my little say— Have one or two of all of you, A bottle home away!"

He Succeeded. "Stop!" With a desperate gesture the man forced his way into the room where the two women were engaged in a discussion.

The woman who was speaking kept on as if nothing had occurred. "Stop!" cried the man again excitedly. "This thing has gone far enough. I forbid you to do this thing you contemplate. My rights shall not be so down-trodden."

His wife regarded him in exasperating silence for a moment, and the maid looked bored.

"I command you to desist," he thundered.

"Well, have it your own way then," remarked she who bore his name, and together the two women left the room.

The man drew a long, quivering sigh and wiped his pallid brow, but victory was his.

He had saved his favorite shirt from becoming a dust rag.

Not Encouraging. "What is he going to educate his son for?"

"He can't make up his mind."

"Does the boy seem to take to anything?"

"Only cigarettes."

Higher and Hire. The hired man has conquered pain. And cure and toll and strife.

The reason, too, is very plain— He leads a hire life.

For Some Men. "Pa, what is the race question?"

"The race question? Oh, that must be the dope as to which of the horses is going to win out."

The Usual Reason. "She has learned to love another."

"Struck a fellow with a little more dough, I presume."

By Another Name. His rheumatism pained him so He couldn't go about; He felt heir to a million.

When it comes to the matter of spelling there are some people who do a great deal of original work.

The state of matrimony was in the union without being admitted.

An expense account, like charity, covers a multitude of sins.

All signs fail in dry weather except the signs of dry weather.

A policeman must at times be tempted to put his job on the market in small packages as a cure for insomnia.

Poverty may be a blessing, but one's poor relations seldom see it that way.

Even flattery may begin at home.
