

## RULES FOR NEW MARKET

Ald. Westman Submits the  
Schedule for Venders  
at the Square

Other Business Transacted at Mid-  
night Session of City Council—  
Meet Again Friday

Every member of the Council was present at the meeting last evening and it was not before half past eleven o'clock that the Mayor's gavel fell for the adjournment.

One of the most important matters brought up was in reference to the electric light plant. A communication was received from the Gas Company saying they would have their estimates for taking over the lighting of the city ready in a few days.

Ald. Westman thought that the Council had waited long enough for the Gas Company and made a motion that the Property committee be given power to purchase a new dynamo and place the plant in up-to-date shape. He had a report on the estimates for lighting the city made out by Engineer Jones, which he did not wish to read, as it would put the city's figures in the hands of the Gas Company. If the dynamo were purchased it would provide lighting for the city this winter and the Gas Company could still make their offer. He thought, however, the city could furnish lights cheaper than the Gas Company. If the dynamo were purchased the Property committee would guarantee good light.

Ald. Austin moved in amendment that the matter be laid over for a few days to hear the offer from the Gas Company.

The amendment was lost and the motion was ruled out of order, as the report from Engineer Jones had not been read.

So the matter stands as it was before.

Much discussion was caused through the state of affairs on Raleigh street recently discovered.

Ald. O'Keefe reported the sewer connections to residences there were disgracefully made.

Ald. Austin—The Board of Works should find out who was to blame and if it were the workmen they should not again be employed on such work.

Ald. O'Keefe—There was no one in charge. There were 15 or 20 workmen on the job.

Ald. Austin—Then fire the 15 or 20.

Ald. Dunn—Didn't the superintendent look at the work before it was covered up?

Ald. O'Keefe—No.

Ald. King—Does this come under the engineer's department?

The Mayor—It is in his department. If he cannot do all the work alone he should have an assistant.

Ald. Dunn—Are there not Y's and T's on that street 50 feet apart?

Ald. O'Keefe—Yes. They struck one of them by accident (laughter).

Ald. Marshall—They were simply burying tile.

Ald. Dunn—I think a thorough investigation should be held.

The matter was then dropped.

The Secretary Railway commission sent plan of the Grand Trunk spur to the Bent Goods Company's factory.

Several accounts for sundry amounts were presented and passed.

Mr. Howell called the attention of the fact that all the lots in the cemetery are sold at the same rate and some are not worth as much as others. Referred to the Parks and Cemetery committee to re-adjust rates.

Mr. Colles, who resides on Wade street, complained that the sewer on this street has not been flushed in the last two years. Referred to the Board of Works.

The Manson Campbell Company asked permission to put down an asphalt block pavement in front of their factory on Colborne street, work to be done at their expense and under the supervision of the engineer. Granted.

Peter Roulhouse asked permission to erect a granolithic sidewalk on the corner Colborne and William streets. Granted.

A petition was received for a granolithic sidewalk in front of J. W. Miles property on King street. Granted.

A communication from Judge Bell asking permission to cut down trees was referred to the Chief of Police.

D. A. Hutchison asked for a transfer of a cemetery lot. Referred to Parks and Cemetery committee.

The Chatham Gas Company notified the Council they are preparing an estimate for which they will provide the city with street lights. Referred to Property committee.

Bligh & Fielder notified the Council that on account of delays in the Head street pavement they would ask extra remuneration, and also asked to be relieved from liability for damages caused by any accident that may happen on that street. Referred to Board of Works.

The Board of Health recommended a sewer on Centre street from Harvey to Wellington streets. Referred to Board of Works.

INDUSTRIAL COMMITTEE.

Chairman Austin for the Industrial committee reported in favor of the acceptance of the offer from the editor of the Woodman to write up Chatham, giving views, providing it costs nothing to publish it. Carried.

FINANCE COMMITTEE.

Chairman Marshall for the Finance committee reported as follows:

1. Re the claim of Ed. Rouse we

## BRUSHES

A brush that bears on its handle the name of an old-established and reliable maker, such as **Boeckh**, is sure to be superior to unknown or nameless varieties. The name is the manufacturer's guarantee of value. If you want the best in brushes ask for

**Boeckh's**

recommend no action, as we are not liable. Carried.

2. That the request of Thomas Moore for a refund of part of the license tax paid by the Norris & Rowe circus be of record. Lost.

3. That the account of W. R. Baxter for \$3.50 be paid. Carried.

4. Re the account of Bligh & Fielder against Mr. Chrysler for \$3.40, no action be taken, and we advise Bligh & Fielder to procure an order from Mr. Chrysler. Carried.

The report with the exception of the second clause was passed.

Ald. Marshall announced he would report on the Pleasance matter and the early closing matter at the next meeting.

BOARD OF WORKS.

Chairman O'Keefe for the Board of Works reported as follows:

1. That the sewer on Centre street from the C. P. R. to Harvey street be examined and, if necessary, relaid and cleaned.

2. That a new sewer recommended by the Board of Health on Centre street from Harvey to Wellington be laid.

3. In reference to the Raleigh street sewer matter we find that the house connections have been badly and disgracefully made, and we recommend that the part between Grey street and Spencer avenue be taken up and properly put down. Carried.

4. That the engineer be instructed to purchase Y's and T's for making house connections in sewers and that workmen be prohibited from breaking into the sides of sewers.

The Mayor—It is only justice to say that the city has had an order in for Y's and T's for some weeks but is unable to get them from the factory.

5. That no sewer connection be covered up until it is approved of by the engineer or his assistant.

6. Owing to the fact that land is much lower as you get back from the river, we find it impossible to get sufficient fall for sewers south of Harvey street to empty into King or Wellington, therefore we would recommend that the engineer be instructed to take the necessary steps to ascertain the most suitable point to locate a large brick sewer to serve as an outlet for all property south of Harvey street.

The report was adopted.

PROPERTY COMMITTEE.

Chairman Westman for the Property committee reported as follows:

1. Re W. Moffat's letter soliciting an order for name plates for Mayors whose pictures are not in the Council room, that no action be taken.

2. Re the letter of J. W. McGowan of Vancouver, asking information re the electric light plant, that the request be granted.

3. That the insurance on the market building be placed at \$12,000, and that it be given \$2,000 apiece to W. E. Rispin, A. McDonald, A. H. White, Smith Bros., G. K. Atkinson and J. F. Dunn.

4. Re the old market building, that it be left as it is until next year, when the ratepayers will have a chance to say what they want done with it.

5. That the small market scales be sold and a new 2,000 pound scale be purchased for \$25 or \$30.

6. Re the renting of the market stalls and spaces, that we rent four meat stalls at \$150 each per year, eleven vegetable and fruit stalls at \$90 each per year, two auctioneers' spaces at \$35 each per year, 180 spaces in basement at \$3 each per year, 40 spaces outside at from \$6

to \$3 each per year. This will make an income of about \$2,230 per year, and counting \$1,600 a fair estimate for maintenance, will give the city a revenue of \$330 per year every week.

7. That J. M. Northwood have the renting and collecting in hand and the city purchase books to keep accounts straight and receive a statement from Mr. Northwood every week.

8. That the Property committee have power to advertise the stalls and spaces for sale and sell them on October 14.

The report was adopted.

In reference to the sixth clause re the renting of the stalls, Mr. Austin moved in amendment that 40 stalls in the basement be reserved for casual visitors to use for a fee of ten cents per Saturday.

The amendment lost in the following vote:

Yeas—Ald. Austin and King, and the Mayor—3.

Nays—Ald. Marshall, Dunn, O'Keefe, Ainsworth, Potter, Westman and Edmondson—7.

Ald. Austin also thought \$60 too high a rent for the vegetable stalls.

Ald. Westman replied that the committee has not made final arrangements and some of the rentals may have to be changed. This was a trial draft to see how it works.

Ald. Austin read a letter which has been sent to the Electric Railway Company notifying them the street have not been properly laid.

INQUIRIES.

Ald. Austin asked if it was customary for the Board of Works to appoint inspectors on the new streets which were permanent works without consulting the Council.

Ald. O'Keefe replied that the matter was left to the Board of Works this year with power.

Ald. Austin asked if there was any trouble about the new Police Court ventilation.

Ald. King replied that the committee had made arrangements for a ventilation shaft which would be satisfactory to the police authorities.

Ald. Potter—I would like to draw the attention of the Board of Works to a water wagon which has been standing on the corner of School and Centre streets nearly all summer. He thought it should be removed.

Ald. O'Keefe (smiling)—That's for the Property committee.

Ald. Westman—The Board of Works should have it removed to the tool house.

Ald. Potter called attention to the mud on the sidewalks where street work is being done.

The Mayor also added a few words to Ald. Potter's remarks.

A petition for a granolithic sidewalk on the south side of McKeough avenue was referred to the engineer for his report.

The Board of Works to the poor curb and gutter on King street west. There is a guarantee on this work.

The matter of sundry small improvements to the market building was left to the Building committee with power.

The inches avenue sidewalk matter came up again and it was decided to introduce a by-law at the next meeting with a view to granting the prayer of the petitioners on that street.

The Council then adjourned.

TO CATARRH SUFFERERS

HYOMEI CURES BY BREATHING MEDICATED AIR.

The popularity and increase in the sales of Hyomei are unique in the annals of medicine. Such astonishing cures have been made by this remedy that its sale is steadily increasing every year.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hyomei.

The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write to-day for consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

When you require a bill of hardware call on Drew & McCallum.

### THE STAGE

"All the world's a stage and all the men and women merely players."

ANNOUNCEMENTS

At The Grand—

The Isle of Bong Bong—Oct. 3.

On the Bridge at Midnight—Oct. 5.

Pollard Australian Juvenile Opera Co.—Oct. 7.

(Supplied to The Planet by Press Agents.)

Manager B. C. Whitney, the enterprising purveyor of modern theatrical successes, will present the sparkling musical surprise, "The Isle of Bong Bong," at the Grand to-night.

The production is sumptuously staged and elaborately costumed, and an all-star cast of unequalled merit has been provided, including John W. Ransome, of "Prince of Pilsen" fame, Alice Yorke, Anna Boyd, Edith Dewey, John W. Hendricks, Walter Ware, Charles Parcor, Chas. R. Haigh, Clement Johnstone, and other notable.

"ON THE BRIDGE AT MIDNIGHT."

Persons, who, besides enjoying a good play are interested in a stage achievement that took twenty men five months to build, will be sure to see Kilnt & Gazzolo's "On the Bridge at Midnight," which is coming on Thursday, Oct. 5. They will find the \$10,000 reproduction of the jack-knife style of draw-bridge equal to the expectation aroused by its fame, and they will be delighted with the

bright comedy and romance of W. L. Roberts' well-known drama. The author and producers were determined that "On the Bridge at Midnight" should not offer the usual cheap, sensational effects but, on the contrary, should be a play of genuine merit, not by any means wholly dependent on its remarkable climax for success.

A genuine treat is in store for our people with the coming of the Pollard Australian Juvenile Opera Company to the Grand on Saturday, Oct. 7, for an engagement of four nights and Wednesday matinee.

This organization is without a peer in the world, the founders of the Pollard Company being the first to put on the road a company of children with success, in works that before that time were always thought to be impossible for youngsters to handle. Many fine performers who started in the ranks of the Pollard Company are now prominent in England and in this country, their special training for the stage standing them in good stead. They have made a number of tours of the Orient and last season made a successful trip through the western part of this country. "The Belle of New York" will be the opening musical comedy, said to be the best ever written.

GARIBALDI WANTED TO BE CREMATED.

Garibaldi left directions in his will for the cremation of his body, but his wishes were overruled by the Italian Government. The soldier's instructions were minute and perhaps a bit self-conscious. "Facing the sea, you shall erect a pyre two metres high, built of acacia wood, myrtle and other aromatic trees and plants growing at Caprea. On this lay a sheet of iron, on which shall be placed my body, dressed in the red shirt. A handful of the ashes place near the coffin of my daughter, Rosa and Anita." The rest were to be blown away by the wind as seeds of liberty for other parts of the world.

### He Will Cure You First Then You Pay Him

The physician, who has not sufficient confidence in his own ability to cure his patient first and receive his pay afterward, is not the man to inspire confidence in those who are in search of honest treatment.

Dr. Goldberger's acceptance of a case for treatment is equivalent to a guarantee to cure, because he never accepts a case unless he is satisfied to cure it.

Dr. Goldberger has 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee as to his standing and ability. He makes no difference who has failed to cure a patient. He will give him what is worth much more money—he has given him his health.

Dr. Goldberger is the first specialist in the U. S. of America, who has had sufficient confidence in his ability to say to the afflicted that a dollar need be paid him only if he is cured.

There is no guesswork, no experiment in his method. He is a known expert in his specialty, and offers you the best, and only best treatment. When your life or your health is at stake, inferior treatment (which is inferior to the best) is worse than the disease itself.
