Why I am a Total Abstainer.

BY MRS ORMISTON CHERRY.

First of all I believe in total abstinence from alcoholic liquors from the point of view of health. To be well, and keep well, should be the aim of every sane human being; but perfect health is not compatible with the taking of narcotics.

Now and again one meets with people in apparently excellent health who are alcohol drinkers, because they declare it keeps them well, "supports the constitution," "gives tone to the system," "braces the nerves," "promotes appetite," "allays indigestion," "induces sleep," "increases the activity of the brain," and "tends to genial intercourse!"

It can not be scientifically right to be even temporarily and partially paralyzing the nerves day by day, and that is the effect of even a small glass of wine, a teaspoonful of brandy, or a tumbler of beer. No matter how well the drug-drinker may appear to be today, there is a sore and certain tomorrow coming in which nerves will avenge the wrong done them, and refuse at some crisis to do what is required of them.

Second, I believe in total abstinence from the point of view of brain power. To be thoughtful, observant and accurate, the brain must be active, alert and sympathetic.

I am, therefore, a total abstainer because I place immeasurable value on the thinking power and the power to feel which my Heavenly Father has entrusted to me for His service and the service of man.

Third, I believe in total abstinence because as a wife and mother and in a word as a household I am bound to set the best example I can before all—in my unselfish, industrious and orderly ways, and in all matters of food, drink, clothing, conversation, and general conduct.

Fourth, I am a total abstainer from the standpoint of citizenship. The life of a nation is but the expanded life of its homes.

Next to the sunlight of heaven is the cheerful face. There is no mistake in the bright eye, the unclouded brow, the sunny smile, all tell of that which dwells within. Who has not felt its electrifying influence? One glance of this face lifts us out of the mists and shadows into the beautiful realm of hope.

Scrap for Odd Moments.

Professor Fieb, of Vienna, announces that the earth will come in collision with a comet on November 13, 1899.

Bring. Does your wife laugh when you tell her a funny story? Brags—Oh, yes, I always tell her beforehand that is funny.

There are some minds like either convex or concave mirrors, which appreciate objects such as they receive them, but they never receive them as they are.

"Bobby, what are you unhappy about?" "I'm mad 'cause we ain't got no big family. Over at Billy Hopkins' house he's got two grand'mas an' three aunts to help him git his own way."

Mr. Sculptor—Is that last bust of your husband finished yet? Mrs. Jagg—Well, I hope so. I found his bust on the rag jet, shoes in the brush tray, and him under the folding bed.

Minards Liniment is the best. When a man has started on the right road to business success he should not allow himself to be driven from it by the unrighteous methods of men, who, while they are in business are on the road that leads out of it.

Small Boy—Papa, won't you take me to the circus? Strict Father—No, my son; the circus is the abiding place of Satan.

Have you watered the cattle yet? asked the farmer of his son. Not a head of 'em. I heard you say in the Grange last night that any of those other critter waiting stock ought to be sent to the penitentiary. I'm taking no chances.

Minards Liniment for Rheumatism How the wind howls to-night! said the melancholy boarder. I shouldn't wonder if it had the tooth-ache suggested Mrs. Ashbury Peppers.

A baker asked a farmer, "Has a lady passed this way?" And the farmer told the baker, "It's mighty hard to say. From the clothes they are wearing, I think she is a she one. Or a baker is he?"

We demand shorter hours, air I said the spokesman of the committee of dissatisfied workmen, addressing their employer. "And do you think," replied the capitalist, "that I was a purist in language, that I was able to accelerate the diurnal motion of this planet?"

A gentleman was assisting at a bazaar last winter by reciting now and again during the evening. He had recited once or twice, and the people were sitting about chatting, when he heard one of the committee say to the chairman and whisper, "Hail! Mr. ——— better give us another recitation?"

The following is an excellent substitute for cream to set on fresh butter. Beat together the whites of two eggs, a tablespoonful of sugar, a piece of butter the size of a hickory nut and one tablespoonful of corn starch. Stir in half a cup of cold milk and beat very hard. Put one cup of milk and pour in the egg mixture. Let it simmer until the milk thickens a little. When cold, strain through a sieve.

I was cured of lame back, after suffering 15 years by MINARD'S LINIMENT. Two Rivers, N. S. ROBERT ROSS.

I was cured of Diphtheria, after doctors failed by MINARD'S LINIMENT. Antigonish, J. A. FOSTER.

I was cured of contraction of muscles by MINARD'S LINIMENT. Dathousie, Mrs. RAGNELL SAUNDERS.

When Willberforce was a candidate for Hall, his sister, an amiable and witty young lady, offered to give a new gown to the winner of every man who voted for her brother. When she made this offer at a political gathering some one shouted, "Miss Willberforce forever!" Where upon the plebeian observed, "I thank you very much for the good-will expressed, but, really, I do not wish to be Miss Willberforce forever!"

"No, disincarnated partnership," remarked the dairyman. "But he was altogether too punctilious."

"I suppose he wanted to give more than there was any necessity for."

"That's it!" He was the most impractical man I ever saw. Why, else, he wanted to go to the expense of having the well water analyzed once or twice a year to be sure there wasn't anything in it that 'd make the customers sick!"

Wonderful Aids. Diamond Dyes Conduce to Modern Home Comfort.

The present generation of women are blessed with privileges and aids that our grand parents never enjoyed. Among the many important aids to the family the Diamond Dyes hold a high and important place.

Formerly, the dyeing operation was a tedious, hard and doubtful job. To-day, a dress, cape, jacket, coat, pants or vest can be colored and made to look as good as new at a very small cost.

When trouble arises in home dyeing, it is because you have allowed your dealer to sell you dyes that are crude and dangerous to use—vile imitations of the popular Diamond Dyes.

Successful home dyeing can only result when you use the genuine Diamond Dyes. Years of severe testing have proved this fact.

DR. WILLIAMS' PINK PILLS RESTORE HEALTH AND STRENGTH.

A Well Known Young Lady in Napawa gives her Experience. She Was Weak, Nervous, Pale, and Suffered from Headache, Dizziness, and Loss of Sleep. Now She is Well and Vigorous.

Among the young ladies of Napawa, there is none better known or more highly esteemed than Mrs. Mary L. Byrnes. Indeed her acquaintance and popularity covered a more extended field as she is a travelling saleslady for the Robinson Corset Co., and has many customers on her route which extends from Ottawa to Ottawa. How this young lady happens to be the subject of this article is due to the fact that she has recently undergone a most remarkable change through the use of those wonderful little messengers of health, Dr. Williams' Pink Pills.

When the reporter of the Beaver called to make enquiry into her cure, he was met at the door by the young lady herself, whose rosy cheeks and healthy appearance gave to the notion that she had undergone a prodigious illness. The reporter mentioned to her the name of the little pills she had used, and she said she had used them for some time.

She said she had used them for some time, and she had found them to be a most valuable medicine. She had used them for some time, and she had found them to be a most valuable medicine.
