for you at Home Sweet Home and sometimes a wife and little ones you had better get a photograph. It's a good amusement for young and old and makes boys and girls love their homes. Instrumental music of all kinds, of the world's best singers make records both sacred and comic for the Edison Amberola. Let us put one in your house on free trial or better still, come and see them for yourself. Terms right and you are all welcome. I appreciate very much the way people remembered me and sent work to me this winter. I try my best to get around and see folk the way I used to do but am not well at all, so fail to do what I would like. But am still framing pictures. Have a good stock of frames, both square and oval, glass, mouldings, mirrors and patriotic paintings; run into the adjoining room. Send it to me, or better still, bring it yourself and hear some music at the same time, as we have both the Brunswick, Disc and Edison Cylinder Phonographs on sale here, just a little way out of town.
