THE HAMILTON TIMES

SATUDRAY, NOV. 16, 1907

THE PRICE OF BREAD.

Bread is a very live question these days, not only because it is "the staff of life," but because the publication of the report of a recent sermon in which the increase in price and diminution in the size of the loaf were discussed brought down on the Times the threat of an action for libel. Every family uses bread, and the question of its cost is one very near to the people. Among the letters bearing on it is one asking the Times to say what profit there is in baking and selling a barrel of flour. That is not easily answered. It involves not only the facts as to prices at which the flour is sold to the bakers, and how much bread the barrel of flour will make (which varies with the particular kind of flour), but also the economy or otherwise of the manufacture and sale of the product. And we have not this

Appleton's Cyclopedia says: "Usually one pound of flour is found to produce ound and a quarter of bread." The Americana says: "On account of the additional water absorbed [from 40 to 60 per cent., part of which is expelled in steam in the baking], a pound loaf of bread can be made from .65 to .75 pounds of flour. A barrel of flour weighing 196 pounds will make from 275 to 300 pound loaves of bread. * * * The larger the amount of gluten which a flour contains the greater is the power to absorb water and to produce a large number of loaves of bread."

The gluten element is very high in the hard Northwestern spring wheat, and lower in the Ontario fall wheat, so that the difference in price is partly compensated for by the extra yield of bread that can be produced from the flour.

If a barrel of Manitoba flour costing (highest wholesale figures quoted today) \$5.80 make 300 pounds of bread selling at 5c. for the 11/4 lb. loaf, or 4c. a pound, it will yield a return of \$12. If it make 280 pounds of bread, it will yield \$11.20. If it make only 275 lbs., it will yield \$11.00.

If a barrel of Ontario flour costing \$3.90 (also wholesale quotations to-day) make 275 lbs. of flour—the Encyclopedia Americana's lowest figures-it will vield

A harrol of blended flour half Manitoba and half Ontario, at the highest wholesale quotations of the day will cost \$4.85. If it make 280 pounds of bread at 4 cents a pound it will yield

only the material, and it would be great mistake to think that the differonce of \$6:20 to \$7.10 a barrel went into the baker's pocket. He has a great deal more to provide for. In the first place fifty cents? he must provide an up-to-date and costly plant, for no primitive methods will suffice. He must engage skilled workmen. He must provide for accidental and incidental waste, fuel, etc. He must pro vide yeast, milk, salt, etc., used in the process. Even water rates are an item He must observe scrupulous sanitation. of marketing the product, and pay dealers for selling it. the question will be complete that does not make ample allowances for these items; and they will materially reduce the margin of profit. The baking industry is not one about which there is much mystery; every housewife is a housewife gets the idea well settled that she is overcharged, she sets to work and And in comparing results with buying tage of the fact that the baker must have a costly plant and hire his journeymen, while she throws in free her time and the use of the home plant em-

INDUSTRY AND FRUGALITY.

apted to save as a matter of common e. If a man assumes the duty of sense. It a man assumes the duty of working he cannot shirk the responsibility of saving. He has not worked sanely if he has not saved a fair percentage of his earnings.—John J. Mitchell, President of the Illinois Trust and Savings

There is sound philosophy in that. If good judgment and frugality-a proper care for the future- went with industry, the advocacy of schemes to pension the aged on the country would be left almost entirely to the idle and the spendthrift. What little of aged poverty we should

could be easily cared for.

There is too much of the grasshopper about many youths. They mouth too glibly that the world owes them a living, when the world owes them nothing, when they are deeply in the world's debt. They have not made use of the talents and opportunity with which they were enwed, or, having used them, have squandered their product in riotous living. Their motto has been, "Let the future take care of itself; enjoy the present." And they seek to make the industrious, the frugal, the foreseeing bear the bur-den of the support of idleness and prodi-

educates the youth of to-day owes him nothing. The debt is on the other side. He owes much to society; he owes much to his family. When he assumes the re sponsibility of the head of a household and should very early prepare toward it. Thinly disguised devices openly run by made that there is a way of escape left. The young man who earns fair wages wealthy men, who consider themselves for him. Adam is a great jollier, of the

-that is the other extreme; but the sav insurance, the insurance of those dependpendent upon him. A little savings fund is a great help to independence.

And the work habit is a good one cultivate. The man who watches the clock and strives to kill time deserves to suffer an old age of poverty. It is to canny" in the industry of to-day-too sible for the wages paid; too much fear that we may work a few minutes too long, or produce a few cents' worth too day as short as possible, and to produce little better than a thief. He is likely age pensions. He is not the kind that ployers sometimes have eyes; they are to whom they give the better jobs are The men they select for advancement are those who identify themselves with the institution for which they work; who take a pride in its product, and feel a personal interest in its reputation and success; who do not need the watchful their wages, and who do not regard the prosperity of the employer as a wrong to themselves.. The youths who set out to do their full duty to their employers will be the successful men of to-morrow; the shirkers, the grumblers, the idlers will be seeking to billet themselves on

the community they have defrauded. ever be your vocation. Seek to do tion. Retain your own self-respect. No shirker does that. Adapt your living to your earning. Don't be mean, but don't think honest frugality is meanness. Always save a little; it will stand you in good stead. The fellow who "blows" his earnings has plenty of friends-of a sort-while his money lasts. The one that has a tidy sum in the bank, the esult of the saving habit, has a very useful friend in time of need. And the strength of character gained by the practice is an asset in itself. Industry, Ionesty, Frugality make a strong trio.

EDITORIAL NOTES.

Money represents value. Some people forget that fact when they talk of Gov rnment coining or printing more money

But is it really a religious act to place the motto "In God We Trust" on a dollar the intrinsic value of which is about

No, dear reader, Hon. Mr. Hanna did not perside at Ward 6 Tory meeting in Toronto, when Doc. Nesbitt made his reappearance in politics.

Doc. Nesbitt has already donned his political war paint. Hon. Mr. Hanna is probably keeping an eye on the big medicine man's wigwam.

Railway men surmise that the colli-

ciency and please the Government and

The Montreal Star welcomes the news of Sir Hibbert Tupper's acceptance of his nomination in Pictou. But will that entitle Sir Hibbert to a slice of the "Zan-

The Limerick Gamble.

The Limerick Gamble.

(R. S. G. A., in Presbyterian.)

Next to the drink evil, Britain suffers at present most sorely from the gambling mann. When legislation closes one door another seems to be immediately opened. Our streets have been made much freer from the erichanting wiles of the 'bookie.' Gambling clubs for workmen have been largely suppressed. Raffling, even at Church bazaara, has had to go, Gambling advertisements—and competitions by the lighter class of journals have been checked one after another. But for the moment these journals have checkmated the law with their 'Limerick' competitions. Several of these journals maintain their circulation simply by their superiority of des attra vecess of the gonius who first offered the sweepstakes of a siapenny try at the last line of a "Limerick' has passed his wildest dream. His success forced the others, as they maintain, to make similar offers and spread the plague. The law, appealed to, replied that technically the competition was a game of skill and outside of its reach. But no one maintains their middle of the sweepstakes of clerks emberziling mone for the same pure syreat that cased are stated of men allowing their wives and children to go hungry that they might buy coupons and postal notes of clerks emberziling mone for the same pure shave had to make a new issue of sixpenny postal notes to meet the demand. Even at Church bezars it has been introduced to make money in place of the forbidden raffling. Unfortunately, like most gambling mailse, there is no sign of it turning itself out. Already church conferences and the higher type of journalism, with many publice-spirited men in high places are demanding that the demand is secured for its suppression. (R. S. G. A., in Presbyterian.)

(London Advertiser.)

Railway men surmise that the collision at Bass Lake yesterday, in which seven men were killed, may be traced to the stopping of an engineer's watch.

AWFUL ECZEMA

Sight of Eye Destroyed by Disease— Tried Five Doctors but Grew Worse - In Agony Eight Months -Parents Discouraged, Until They Tried Cuticura Remedies

IN ONE WEEK ALL SORES DISAPPEARED

"Our little girl, one year and a half old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething, as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczema. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her yes. Of course we phoned for doctor No. 3. He came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help in the week of the week of the could help the week of the week of the could help the could help in the paper and thought we would try doctor No. 4. We were nearly discouraged. I saw one of the Cuticura advertisements in the paper and thought we would try doctor no. 4. We were nearly discouraged. I saw oue of the Cuticura advertisements in the paper and thought we would try doctor not have a decident of the cuticura and in three days our daughter. We have all some stick about eight months, showed exist about eight months, showed exist about eight months, showed exist about eight months, showed the eye well that the would have saved the eye. We think there is no remedy so good for any skin twould have saved the eye. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 9. Fulton, Oswego Co. N. Y. August 17, 1906."

THE T. H. PRATT CO.

IS RECOVERING.

Remarkable Case of Little Charlie Mitson of Dundas.

Dundas, Nov. 16 .- Over three months ago Charlie Mitson, younger son of Wm. Mitson, nine years of age, but small for his years, was stricken with typhoid his years, was stricken with typional fever. From the first it was seen that his sickness would be a serious one, and that the chances of recovery were not very bright. He grew worse day after day. Skilled physicians were in constant attendance and held many consultants. Complications of a very serious stant attendance and held many consultations. Complications of a very serious nature arose that alarmed and baffled the medical attendants. Competent nurses and parents nursed and attended the little sufferer night and day, when life, for weeks, hung in the balance. Eventually, slowly, almost imperceptibly, came a change for the better, hope came to parents and attendants, and now it has become almost a certainty that in time his garents, companions and

schcolmates will see him about in his old time activity and vivacity. He is now able to leave his bed, but is weak and frail, going through a second babyhood. His recovery, so far, is a most remarkable one, and has brought rejoicing to a large number of friends and companions.

I. K. Millard, the widely known implement agent, had determined to move to the west, and a few days ago sold by auction his home and effects. The day of the sale Mrs. Millard, who a few months ago had an arm amputated to arrest the progress of blood poisoning, took sick, and her physician says will be unable, for some time at least, to undertake the journey. The purchaser of the home, a Toronto gentleman, very kindly consented, if it was their wish, to annual the purchase, and the consequence is that the family will remain here for a time at least.

Mrs. McManus, an elderly lady, widely kn wn throughout the town, died last evering, aged 70 years. She had been enjoying excellent health until Thursday, when she suffered a stroke of paralysis. She has, of late, been living with her son-in-law, Wm. Mitson, assisting in caring for her grandson, Charley Mitson.

HUMANE MEDAL

To be Presented to Dr. Williamson on Monday.

The Royal Humane Society has forvarded to Mr. Adam Brown a medal to be presented by him to Rev. Dr. Williamson, who in July last jumped from Grimsby Park wharf into 12 feet of water and rescued from drowning, Miss Marjory Buter, of 485 Euclid ave., To-ronto.

ronto.

Miss Butler was fishing and by accident stepped back off the wharf. Dr. Williamson without removing any of his clothing jumped in and brought her to safety. The medal will be presented by Mr. Brown on Monday night next in Emerald Street Methodist Church on the occasion of the annual tea mealing.
