BY ELECTRICITY!

No more trouble in getting children's pictures taken. I am now working in connection with my Camera, an ingeniously constructed Apparatus, worked by Electricity, enabling me to produce a beautiful Picture of any child in one second of time—All we need now is a wink from the little folks, and we have a facsimile o

them securely made.

In thanking the people of Miramichi for their very liberal patronage during my stay in Chatham, I can assure them in future of getting EVEN better work done by me than past. For the greater the facilities greater will be the results. I have just procured at a great expense the very latest improvements in apparatus, I keep on hand a large stock of pictures, such as Oil paintings, Chromos, and Mottoes, Also a very large stock of picture frames and mouldings. Pictures framed in any style desired, with but short notice and prices to suit the times. I do not wish as I am the only photographer here to exact unreasonably high prices.
