this suffer set manne control.

On Friday night last the United States Sanate took up Mr. Chandler's resolution directing the President of the United States and the Control of the Contro THE SAULT STE MARIE CANAL AND THE RE

would require the attention of the American Government.

Mr. Howard desire to know whether the Canadian Government were enlisting Indians in their service.

Mr. Ramsey replied that there was no doubt of the fact, and that the coming conflict threatened to involve other Indians on our frontier. He also called dians on our frontier. He also called dians on our frontier. He also called attention to the report that the expedition was to proceed by way of the Sault Ste. Marie Canal, in the State, of Michigan. He read from private letter in cor-roboration of his statement, to show the difficulty of transportation for the ex-pedition in any other than American

arpose. Mr. Howard expressed his assurance that the Michigan State authorities would not permit the use of the Sault Ste. Marie Canal in furthering any military operations by the British authorities. military operations by the British auth-orities. The country need not fear any assent by the State to such an expedition. He would go further and say that he had

He would go further and say that he had it from an authoritative source that premission would not be given by the United States authorities for the moving of troops within our limits.—Great Britain had no right to ask such license, and he predicted she would not.

Mr Sumner thought the apprehension which had been expressed would prove unfounded, and that it was not contemplated by the British Government to use the canal referred to. He stated that the resolution previously offered by Mr. the resolution previously offered by Mr. Ramsey on the same subject was pending before the Committee on Foreign Re-lations, awaiting official information, upon

etion.

The discussion terminated by the discussion form in the Town of Goderich, those effections of the resolution. On motion of valuable parents of land, being lots 3% and 39 in the
