Shrub in Good Form.

WINNING MANY RACES IN ENGLAND.

The veteran Alfie Shrub, who left for England early this fall to campaign over his old stamping ground, made good. He started out by losing a race against a horse at Hordham, his old home town, but he came right back at Preston park, Brighton, by giving Billy Williams, the Sussex professional champion, 200 yards and a beating at five miles in 27.51 3-5. He won by beating E. Mitchell, of Brighton, at Crawley. He gave him 200 yards start and did 27.06 for the five miles. At Woking, September 27, he defeated a three-man relay. Shrub is now coaching Oxford university track team and will not be back until April. He was very much disappointed that he did not get a crack at McKee, the Scotch wonder. McKee took sick the last of September, and has retired until the Spring.

Shrub writes that his dicky legs are in excellent shape and says that he can do 25.50 for five miles. That is pretty fair work for a 40-year-old man. In England they call him "The Little Wonder." Alfie Shrub was born at Slinfold, Sussex, on Dec. 12, 1879. His height is 5 feet 6 inches, and his weight about 122 pounds. He has beaten all the most famous men and created records in Canada, New Zealand, Australia, France, United States, England and Scotland. He is the holder of more running records than any other man in the world, alive or dead, to-day is still unbeaten from two to ten miles since he created the world's records at the above distances. The only handicap the world's champion ever received was when he entered his first race at Hordham Blue Star Harriers in 1898, when Fred J. Spencer conceded him 55 yards in a mile race.

STRIKERS ARE DEFIANT.

WASHINGTON, Monday. Labor leaders predicted to-day that international officers of the United Mine Workers of America, meeting at Indianapolis would not call off strike as directed by Federal Judge Anderson, whatever the legal consequences might be.

THEN WHAT WILL HE DO?

LONDON, Monday. Great Britain has no intention of making Peace negotiations with Lenin and Trotsky until the House of Commons has had an opportunity to discuss the subject. Bonar Law, leader, declared in the House of Commons to-day. Law declared that the Premier, in his Guildhall speech, had simply expressed the fact that there would be some kind of achieving peace with Russia.

AMERICA'S ATTORNEY GENERAL GETS SOLEMN.

WASHINGTON, D.C., Nov. 10. Solemn warning was given, the United Mine Workers of America to-day by Attorney General Palmer that violations of conventions and orders of officers of organizations are not the law. The formal and final declaration of the Gov't. policy on dealing with the coal strike was announced by the Attorney General to the officers of the Miners' Organization of Indianapolis were struggling with the question of how to answer the courts for a blunt and peremptory command to rescind the like order.

WILL VISIT PRESIDENT AFTER ALL.

WASHINGTON, Nov. 10. President Wilson will see the Prince of Wales if the Royal visitor so desires. Rear Admiral Grayson, the President's physician, said to-day. The Prince will arrive here to-morrow morning and arrangements have been made for him to call on Mrs. Wilson at the White House at three o'clock in the afternoon. He probably will meet the President in his sick room at that time.

THE STRIKE IS OVER.

INDIANAPOLIS, Nov. 11. The United Mine Workers of America, through its general committee, decided early to-day to obey the mandate of U. S. District Judge A. B. Anderson, which means the recall of the strike for a strike of 425,000 bituminous coal miners of the nation. The decision was reached at 4:10 this morning, after more than 17 hours' discussion. The conference then adjourned until two o'clock this afternoon.

THE PRINCE IN AMERICA.

ROUSE POINT, N.Y., Nov. 10. Edward, Prince of Wales, entered the United States to-night and received his first welcome to the Republic at this little out-of-the-way New York town. Officially he was greeted by Secretary of State Lansing with a beamed staff of Admirals and Generals in general attendance and the famous band of the United States Infantry which played "God Save the King." Unusually he received far more boisterous welcomes from two thousand inhabitants of Rouse Point, who waited patiently for hours in the bleak north wind to cheer the nation's guest.

WE CANNOT FIGHT OUR GOVERNMENT.

INDIANAPOLIS, Nov. 11. Acting President John Lewis, of the Mine Workers made the following statement: "Gentlemen, we will comply with the mandate of the court. We do it under protest. We are Americans, and we cannot fight our Government. That is all."

SPECIAL TRAIN FOR PRINCE.

OTTAWA, Nov. 10. The special train which the United States Government has placed at the disposal of the Prince of Wales for his journey in the United States, arrived at Ottawa this morning and the royal party embarked this afternoon.

departing for Washington at 4 p.m. Hon. Martin Burrell, Secy. of State, will accompany His Royal Highness the Prince of Wales to New York. Mr. Burrell will go as far as the international boundary, where the Prince will be met by Hon. Robert Lansing, Secy. of State for the United States.

GERMANS PROTEST.

BERLIN, Nov. 10. The German Government has addressed to the Supreme Council at Paris a note protesting against the retention by France of German war prisoners. The note declared that the holding of the men creates a situation which is not only dangerous to Germany's own existence, but is also a menace outside the German frontier.

THIS SOUNDS FINE.

NEW YORK, Nov. 9. Fire, followed by an explosion, destroyed three buildings of the Atlantic Macaroni Company in Long Island City to-day with damage estimated at half a million. Officials of fire and police departments have begun investigation of the report that the fire was of an incendiary origin. A strike had been in progress at the plant for three weeks.

PRINCE NOT A REGULAR FELLOW, THEN?

LONDON, Nov. 10. There is stated to be no truth in the recent report of the matrimonial intentions of the Prince of Wales, which, we are informed, caused trouble and annoyance in the highest quarters.

THIS SOUNDS GOOD, AT ANY RATE.

LONDON, Nov. 10. J. H. Thomas, the railway men's leader, in supporting proposals for public ownership of the liquor trade, said that he would be billed to his knowledge of the working class if he did not say, quite honestly and firmly, that prohibition would not be acceptable to them at this time. Therefore, they fell back on state purchase and control.

SCORE ONE FOR BUL-SH-WEEKS.

LONDON, Nov. 10. Authoritative advice on the Russian military situation shows that the Anti-Bolshevik forces have been compelled nearly everywhere to assume the defensive, owing to the increase in the Bolshevik forces. On the Eastern sector the severest fighting continues in the direction of Tobolsk, Yalutor, Okak and Kurgan, where the Reds have reached the Isham River.

225,000 GERMAN PRISONERS RETURN HOME.

BERLIN, Nov. 10. More than 225,000 German prisoners have been returned to Germany from English internment camps. It is said that the 55,000 prisoners yet remaining in England will be sent home before the end of the month.

A Lively Scene.

To-day a lively scene was witnessed near Prescott Street, when a bull, in charge of a couple of drovers took a notion to explore the contents of a number of cases stored at the back of the Royal Stores Showroom. The bovine becoming entangled in the cases the drivers made great efforts to extricate the animal by pulling his tail first. A crowd of spectators enjoyed the performance for some time, when the bull of his own accord, cleared all obstructions and made off up Prescott Street. The rope by which the bull was held broke, when the animal first took charge, and gave the man holding it a toss that made him see stars.

Kept Tab of Submarines

(Admiral Sims in the World's Work.)

The allied secret service was immeasurably superior to that of the Germans—I pay particular tribute to the British Intelligence Department in saying this. We always knew how many they were; we always knew where they were; we always knew how many they were building, where they were building them, their architectural characteristics, and the stage of progress which they had reached at a particular time. It was not the simplest thing in the world to get a submarine out of its base. The allies were constantly laying mines at these outlets; and before the U-boat could safely make its exit elaborate sweeping operations were necessary. It took a squadron of mine or torpedo surface ships, operating for several hours, to get a submarine out of its base and start on its journey.

So we always knew when one came out, and we knew not only that, but we knew which one it was, and often who its commander was, and other valuable details. Moreover, we knew where it went and we kept charts, on which we plotted from day to day the voyage of each particular submarine. At a given time we could thus point to almost the exact spot on the ocean where a particular U-boat was operating.

Tongue Tests.

There is no longer need to consult a palmist or phrenologist if you desire an indication of your disposition. "Glossomancy" is a new "science"—the "science of the tongue." According to the "Glossomancist," who hails from Paris, the owners of short and broad tongues are generally untruthful and given to exaggeration, while short and narrow tongues denote shyness and ill-temper. A woman who possesses a long and broad tongue is inclined to be a gossip and fond of a little scandal.

Character reading by waists is another new "science" which has come into being recently. According to a "waist expert," the girl who is possessed of a short waist has a lively, frank and vivacious disposition, is ambitious, and very thoughtful for others. The long-waisted miss is economical, but, unfortunately, she is not always straight-forward or the owner of the sweetest of tempers. When a long lead goes with a long waist, a designing, secretive, impractical nature is revealed.

The character can be read from the feet. Women with square feet have practical, strong, honest natures, and make excellent wives and mothers. Long, slim, and dainty feet indicate a sensitive, vain, and proud disposition.

Men with small feet are, as a rule, fond of society, smart clothes, and amusement. They are seldom ambitious, however, and are not always desirable as husbands. The men who make the best husbands are those who possess the knotty type of feet with square toes.

The Master Salesman

A Tribute to the Daily Newspaper

The power of the Press exceeds that of mighty armies in full panoply of war.

The Daily Newspaper lights the way for men and nations along the path of progress.

The Newspaper is a greater Educational Institution than all the colleges of Christendom.

Its doors are wide open to every man, woman and child who can read.

The Newspaper is the Bulwark of Liberty, the Flaming Sword of Justice.

It brings wrongs to light, without fear or favor, before the Supreme Court of Public Opinion, from whose verdict there is no appeal.

To an audience more vast than pulpiteers command, the Newspaper proclaims its great evangel—The Brotherhood of man.

Modern Civilization could not exist without the Daily Newspaper.

Second only in importance to its mission as a Disseminator of News is its work as a Builder of Business.

Its advertising columns are the Display Windows of Merchandise—eagerly scanned, from day to day, in the twenty million American homes.

Newspaper Advertising is the World's Master Salesman.

Great is the Daily Newspaper!

CARL P. JOHNSON.

Lord Bryce on the Peace Pact.

London, Nov. 4.—Lord Bryce, commenting on the work of the Peace Conference, says that the principle of nationality proclaimed in President Wilson's fourteen points was accepted in all belligerent countries and was the basis of the armistice, but that it had not been followed out in the Peace Conference. He declared that although the Conference had been sitting since last January not much had been heard about its proceedings.

The veteran British diplomat remarked they had not yet arrived at that "open diplomacy" of which so much had been said, and declared that if they had not been too much occupied at home, the English people would not have allowed so much to have been kept from them.

Lord Bryce said he thought the Conference had committed some very grave errors and was in grave danger of committing others. Under the treaty signed with the little bit of Austria which remained, he said, 280,000 Tyrolese were taken and handed over to Italy. He said he had searched in vain for the reason for this action, but could find none, although it was totally opposed to the doctrine of nationality. The Italian Government said it wanted the Tyrolese territory for strategic purposes, but Lord Bryce declared they could not want it for that purpose against a practically bankrupt state of only 6,000,000 persons.

IRON DUKE MET BY ARMED MEN.

There are still some people in the world who are unaware of the fact that the war is over. H.M.S. Iron Duke, with Sir John Jellicoe aboard, has picked up two white men at Auckland, N.Z., one a native of Christmas Island, who met a landing party with revolvers, believing them

to be Germans. They did not know that the war was over, having been cut off from the outside world for 18 months.
