Misunderstanding in Sydney Coal Dispute

Miners May Not Resume Work as Planned—C.P.R. Liner Montrose Strikes Obstacle in St. Lawrence and has to Return to Quebec—Airliner Service From London to New York in 35 Hours Planned—Welch Anthracite Strike Settlement Expected To-Day

MORE TROUBLE IN SYDNEY.—SYDNEY, Aug. 9. Work may not be resumed in the coal mines of the Province tomorrow as had been planned, a misunderstanding having arisen between the British Empire Steel Corporation and the United Mine Workers concerning the mining of iron. The miners at No. 2 Colliery, New Waterford, representative of the District Executive that some men had been refused their former jobs while others had been signed who applied after them. District president John W. MacLeod said that unless that difficulty was cleared up the miners would not go to work tomorrow. A meeting was to have been held this afternoon to settle the difference but with Vice-President J. W. McLaughlin of the Corporation, absent in Baddeck and others failing to turn up, it did not start until late this evening. Thirteen hundred men had been signed on yesterday before the misunderstanding arose.

U.S. ANTHRACITE STRIKE DEAD-LOCK.

ATLANTIC CITY, N.J., Aug. 9. The hope that the Anthracite operators and miners might reconcile their difficulties, in time to avert a suspension on September 1st, faded to-night. John L. Lewis, President of the United Mine Workers of America, informed Samuel D. Warringer, chairman of the Anthracite Operators' Conference, that further negotiations were useless until the operators abandoned their opposition to wage increases and adoption of the check off.

A RAILWAY HORROR.

TORONTO, Aug. 8. Four men were killed, and a fifth probably fatally injured at a railroad crossing near here to-day, when a passenger train struck an automobile, in which State Highway workers were returning from work because of rain.

A HOLOCAUST.

CENTRAL VALLEY, N.Y., Aug. 8. Five members of one family were burned to death to-day in a fire which destroyed their home on a farm near here.

A PRESTON PROMISE.

MONTREAL, Aug. 8. Drastic cuts in rates from Europe to Canada will be made by British interests with whom W. T. R. Preston, Canadian Government Investigator, has been negotiating in England, he announced. Emigrants will be brought from Great Britain at forty dollars a head. Cattle will be transported to British ports at \$15 a head instead of \$20, and merchandise rates will be reduced.

INCENDIARIES AT WORK.

POMEROY, Ohio, Aug. 8. Two of the biggest coal tipplers in Pomerozy District were destroyed by fire at three o'clock this morning, within ten minutes of each other. County officials said both fires were of

incendiary origin. Loss about \$135,000.

DISTRESS IN CLONMEL.

DUBLIN, Aug. 8. Grave conditions are reported to exist in Clonmel, the largest town in Tipperary, where, according to the Mayor's report to the corporation "it is terrible to listen to the tales of woe."

BRITAIN, FRANCE AND SYRIA.

BEYROUT, Syria, Aug. 9. The British authorities in Palestine have dispatched a motorized machine gun contingent to the northern border of Trans-Jordan to drive a number of the Druze tribesmen who have taken refuge in Trans-Jordan; back into the French mandated territory in which the tribesmen have rebelled against the French. British airplanes also are patrolling the border between the French and British mandated areas.

FIERCE FOREST FIRE.

VANCOUVER, Aug. 8. Fanned by high winds a forest fire, sweeping through the Northern Section of Velde Island, jumped the fire-break at Hyacinthe Valley, and now threatens destruction of the whole southern section of the island.

TWIN VOLCANOES ERUPT.

MANAGUA, Nicaragua, Aug. 8. The Volcano of Omotepa, on Omotepa Island has burst into violent eruption from both peaks, spreading ruin to nearby plantations.

MACMILLAN REPORTS.

WASHINGTON, Aug. 9. Fog and rain is holding up the plans of the MacMillan Arctic exploring expedition at Etah, Greenland. Commander MacMillan, reporting to-day by Radio to the National Geographic Society, said, he had never experienced such a long period of wet weather, with no signs of clearing. The airplanes of the expedition are unable to make extensive flights.

WELSH ANTHRACITE SETTLEMENT.

CARDIFF, Aug. 9. A settlement of the wages dispute in the West Wales Collieries by Monday, and an immediate resumption of work in the mines is expected as a result of a meeting on Saturday of representatives of the Anthracite Mine Owners and Miners, at which the operators accepted the miners' proposals for a settlement. The strike in the Anthracite Districts of Wales during the past several weeks has been attended by frequent disorders in which a number of the striking miners and several police constables have been injured.

WHY KIRKWOOD DROPPED OUT.

LONDON, Aug. 8. The Westminster Gazette, referring to the fact that David Kirkwood, Labor member of the House of Commons for Dumbarton, did not accompany the delegation from the Empire Parliamentary Association, which sailed for Newfoundland, yesterday, although his name was in the list of delegates at first, says that Kirkwood has objections with regard to honoring Royal Toasts at State functions. He has anti-Royal views, the Gazette says, and, as toasts to the King are drunk at banquets in Newfoundland, it would be embarrassing if Kirkwood were with a touring Parliamentary party, and did not fall in with general loyal customs.

SOCIALISTS DESERT PAINLEVE.

PARIS, Aug. 8. The Socialist Congress of the Department of the Seine to-day, by a vote of 3650 against 414, decided to decline to support the Government of Premier Painleve, or to allow members of the party to accept Portfolios in his Cabinet. At Clermont Ferrand, the Socialists in Congress also passed a resolution against participation in Bourgeois Cabinets, and by a show of hands demanded the cessation of any political co-operation with the Painleve Ministry.

Europe endangered by Bolshevism, unless she alters her policy of "brute force" towards the Orient, was made by Felix Yalvi of Paris to-day in a statement made public by the Institute of Politics. M. Yalvi is one of the Institute Lecturers and editor of the Revue Politique Internationale. "Instead of introducing opium and whisky in China, England should give more attention to the spiritual aspect of her relations with the eastern world. Otherwise in the inevitable war between England and Russia within the next generation, for their conflicting ideas of economics and social life cannot be solved by peaceful means, the British Empire might succumb to the hatred of Asia."

What Silk, Sport and Jazz Have Done for Women

Speaking at the congress of the Royal Institute of Public Health at Brighton, Dr. Percy Hall, of the Mount Vernon Tuberculosis Hospital, W. said: Never has the gentler sex been so healthy nor so attractive as it is to-day. A generation ago the woman of forty was an old lady who wore voluminous flannel petticoats and a shawl across her shoulders, while she sat by the fire and crocheted. To-day the woman of forty looks twenty, plays golf and tennis during the day, and jazes far into the night, and then is first down to breakfast in the morning—and without the temper of a bear.

She is emancipated both in body and mind and appears to have captured the veritable elixir of eternal youth. What has she done? Simply cast away those superfluous clothes, and is wearing silk next her skin, short skirts and clothing low in the neck, allowing more light and air to get to her body, and as a direct consequence has achieved youth, beauty, and health.

And yet the first act of a democratic Conservative Chancellor of the Exchequer is to put a duty upon silk and artificial silk. By his thoughtless action he has dealt a blow against the health of the fair sex. I feel assured that he will have cause both to repent and relent. (Laughter.)

Hudson's Bay Co. to Build in Winnipeg

WINNIPEG, Man., Aug. 1.—(C.P.)—Construction of one of the largest and most modern departmental stores on the continent in Winnipeg by the Hudson's Bay Company will be proceeded with immediately, according to an announcement made to-day by Mayor R. H. Webb.

A start upon the company's building program here was assured, stated Mayor Webb, with the passing of a by-law by the City Council to-day, providing for a Memorial Boulevard flanking the Hudson's Bay property. This improvement will involve an expenditure of about \$132,000, while the proposed store will cost in excess of \$5,000,000.

Electric Charged Brook Kills Horse

SCHIFFERSTADT, Germany.—A brook charged with electricity proved fatal to one of a team of horses recently when the owner drove into the stream to wash the wheels of his carriage. As soon as the horses touched the water one of them dropped dead, while the other after frantic efforts managed to break loose from the harness and galloped out of the water.

Investigation showed that the brook was charged with electricity, transmitted from a subterranean installation of power plant.

OVER THE ROAD.

Over the road the cars go by,
Rich man's motor and farmer's dray,
A cloud of dust 'neath the summer sky
And youth goes swinging along the way.
Mourners follow the solemn hearse,
Sobbing that nothing than death is worse.

Over the road this life goes by,
Wealth and poverty, joy and care,
Tottering age with its frequent sigh,
Care-free youth with its jaunty air,
Proud and pleased with the thought no doubt,
That never shall laughter and youth give out.

On countless mission I've trudged the road,
Grief and laughter have lured me on,
At times I've bent to the heavy load,
At times to a sorrowing house I've gone.
But whether I've travelled in hope or dread
I knew 'twas the road which we all must tread.

For life is lived on the roads we face,
We go and come on our missions bent,
Some to pleasure and some to care
Till the last brief day when our strength is spent.
We go and come till our tasks be o'er,
And we journey out to return no more.

Champion Shots Army Career

Mr. Archie Smith, the King's prizewinner at Bisley yesterday, who is an assistant to the composing overseer in the printing department of Messrs. W. H. Smith and Son, Stamford street, was entertained at a private luncheon given in his honour at the Hotel Victoria yesterday by Mr. W. T. Welfare, the manager of the department.

Proposing the health of his guest, Mr. Welfare said that Mr. Smith was fourth in the "King's" last year, and it was apparent that he had no nerves when shooting. "Archie," he added, "joined the Army when he was seventeen, in 1915, and was mentioned in despatches. On being demobilized in 1919 he returned to Messrs. W. H. Smith and Son to complete his apprenticeship, which he did only five years ago."

Bears Seize Golfer's Ball

JASPER, Alberta.—A new golf course was opened in the National Park here yesterday by Earl Haig. A unique incident occurred when Col. F. F. Clarke, a member of Earl Haig's party, driving from the first tee, sent his ball rolling along the fairway, in front of a big brown bear which happened to amble across his course at the moment.

lacing it again on his head, for Mr. Merry Sun was shining brightly from the sky and careful Uncle Lucky wanted no freckles on the top of his head in the place where the hair ought to be.

"How are all the folks at home?" enquired Granddaddy Bullfrog, just to make conversation you know, because he was not an inquisitive person,—not the least bit like Grandmother Magpie, sometimes called Old Mother Mischief by the little Shady Forest Folk and the Pleasant Pasture People. "Little Miss Mousie is very well. Keeps my house clean and neat. As for the Old Red Rooster, whr, he's just about the same, only perhaps, but more likely, a bit lazier," answered dear Uncle Lucky, with a smile. "How's Mrs. Frog?"

"Visiting our grandchildren, the Tadpoles," replied the old frog gentleman, and in the next story you shall hear what happened after that.
