Government Majority of 32 for the Irish Evicted Tenants Bill.

King Humbert Claims That Italy Now Controls the Sudan—Mr. Stead Publishes a Book on the Pullman Strike—Discovery of a Plot Against the Life of the Czar.

Santo's Trial Postponed.

PARIS, July 23.—The trial of Santo Caserio, the murderer of President Carnot, has been deferred until Aug. 2.

The Czar's Life is Not a Happy One.

ST. PETERSBURG, July 23.—The police yesterday arrested twenty nihilists in this city. No reason is known for the arrests, but it is conjectured that they are due to the discovery of a plot against the life of the Czar.

The Valkyrie Afloat.

GLASGOW, July 23.—Lord Dunraven's Valkyrie, which was sunk at the beginning of a Clyde race by the Satanita, has been pumped dry, towed to Greenock and docked. The damage to her hull is less than was supposed.

Emperor William's Consideration.

BERLIN, July 23.—As an evidence of Emperor William's desire not to wound the feelings of the people of France, the great fall parade of the Berlin garrison, which had been fixed for Sept. 2, the eve of Sedan day, has been ordered to take place on Aug. 18.

Controls the Sudan.

ROME, July 23.—King Humbert's telegram of congratulation to Col. Barrantieri, who commanded the Italian force in the battle with the Mahdists, contained these words: "The capture of Kassala is a triumph of civilization. It gives peace to the people under our protection and assures the control of the Sudan."

Britannia Wins.

QUEENSTOWN, Ireland, July 23.—The Britannia defeated the Vigilant today by 45 seconds. The Britannia won by 45 seconds actual time. Adding her estimated time allowance of 1 minute and 10 seconds, the Britannia won by 1 minute and 55 seconds. The Britannia has now won nine out of eleven races contested with the Vigilant.

A Laborer's Triple Crime.

BERLIN, July 23.—At Cannstadt, in Wurttemberg, today a laborer named Mannus shot and instantly killed his landlady, Mrs. Nipp, and fatally injured her husband by stabbing him. He then attempted to commit suicide, but was seized before he could accomplish his object. Mannus was in love with Mrs. Nipp, who rejected his attentions.

A Government Majority of 32.

LONDON, July 23.—In the House of Commons today Messrs. Chamberlain and Balfour spoke against the Evicted Tenants Bill, and its passage was advocated by John Dillon and John Morley, Chief Secretary for Ireland.

The division on the second reading followed Mr. Morley's speech. It showed a vote of 259 for the bill and 227 against it. The announcement of the result was greeted with prolonged cheers from the Government benches. The anti-Parnellites were especially enthusiastic.

Minnie Palmer's Side of the Divorce Case.

LONDON, July 23.—The trial of the action for divorce brought by John R. Rogers against his wife, Minnie Palmer, the actress, was resumed in divorce division of High Court of Justice today. Miss Palmer was called to the witness stand. She testified that she and her husband were American citizens. They were not domiciled in England, but were wanderers, living in hotels. She had quarreled with her husband in 1890 while she was living with him in Gramercy Park, N. Y. As the result of the quarrel she left her husband and went to live with her mother.

When she left her husband she assigned to him her furniture, half her diamonds and her carriage for the consideration of \$200. She also gave him 25 per cent of her earnings from certain plays. She thought she had got rid of him cheaply. She said she left the Gramercy Park house because her husband one night while he was drunk tried to cut her throat. She came to England in 1891, and Rogers followed her. She foolishly consented to live with him again, but at the end of 1891 he left her. Subsequently he had tried to make up with her, but she declared to him that she never would be reconciled to him again, but would apply for a divorce.

John R. Rogers, the respondent, testified that his flat in the Marlborough mansion in London was taken as a permanent residence. His motto, he said, was "America for money; England for home." His flat in Gramercy Park, New York, was a mere speculation which had proven unsuccessful. The court adjourned after Rogers' testimony.

The Oriental Warcloud.

LONDON, July 23.—The Central News says it has been learned from a high source in London that the relations between China and Japan have grown much more serious within the last 48 hours. Japan insists emphatically upon certain reforms of Corea's internal administration, while China resists Japan's demands with equal determination. Under no circumstances will China allow Japan's claim of the right to interfere. The Earl of Kimberley, Secretary of State for Foreign Affairs, had a long conference today with the Chinese and Japanese Ministers. He urged upon each the great need of moderation and forbearance in both Tokyo and Peking, and spoke emphatically of the danger of a war between the two

countries. His representations, while received with great courtesy and expressed satisfaction by both ministers, failed to elicit an affirmative response from either of them.

The Central News received this dispatch from Shanghai this evening: "The telegraph between Peking and Shanghai has been restored. The rumor that war has been declared is denied officially, but there seems to be no hope of a peaceful settlement. Apparently war can be averted only by the interference of European powers to protect their commerce and the lives of their subjects from the injury which Japan's action threatens to cause them. It has been reported that Japanese gunboats have been bombarding the Korean coast towns."

BERLIN, July 23.—The Vossische Zeitung expresses confidence in the belief that Japan will be backed up by the European powers in her dispute with China. War between the two countries, the Zeitung predicts, will inevitably result in the extinction of Corea as a State. In view of the increasing complications, the German gunboat Wolf has been ordered to sail north to Che Foo, which is directly east of Seoul.

Chicago Today.

LONDON, July 23.—Mr. W. T. Stead is nothing if not up to date. He has just published a good sized book on "Chicago Today; or The Labor War in America." As might be expected, it takes a ferocious view of Mr. Pullman and all railroad magnates, and exalts Debs into a miracle of eloquence, energy and organizing capacity. The earlier portions of his book, which are based on material that Mr. Stead gathered at first hand, contain a great deal of bright, suggestive matter, not the least interesting of which is a sarcastic study of paternalism as illustrated at Pullman City. The latter part, made up largely of cable dispatches sent here, is not of the same quality, but it all has a rattling dash and go which will insure for it hosts of readers.

SPREADING SMALLPOX.

A Bad Case in Windsor—The Victim Runs Away to Detroit.

WINDSOR, July 23.—Dr. Coventry, the medical health officer, had a colored man brought to his office at 1 p.m. today. He is 23 years old, and his face and hands were badly broken out with rash, and the doctor says it is a well developed case of smallpox.

When the man heard this he made a dash for it and got out of the office and succeeded in escaping. Dr. Coventry afterwards learned that the man had crossed on a ferry to Detroit. He then notified the health officer on the other side and the police are now looking for the man.

THE UNITED STATES TARIFF

A Bill Bound to be Passed in a Short Time.

BALTIMORE, Md., July 23.—A Washington dispatch to the Sun says Senator Gorman assured several of his associates today that there is no danger that tariff legislation will be defeated. He says a tariff bill will pass, and pass in a short time.

Not for many a year has the Senate Chamber witnessed such a stirring spectacle as that which took place there today. The knowledge that Senator Gorman was to take up the gauntlet thrown down by President Cleveland attracted large crowds. Mr. Gorman was in his best fighting trim. Without a note or memorandum to refer to or to refresh his memory, he held the floor for nearly three hours, exhibiting powers of oratory which few, even of his warmest political admirers, would have given him credit for. While unsparring in his attack on the President, he directed his efforts principally to sustaining the proposition that the conference bill as framed up by Senators Jones of Arkansas, and Vest, of Missouri, and finally passed by the Senate, had been submitted on several occasions to the Secretary and the President, and had received the assent and approval of both of them; and that it was not until after the publication of the Wilson letter that the hostility of the President to the Senate Bill had been known or suspected.

Senator White, of California, made a short speech in favor of the motion to insist on the Senate amendments and to agree to further conference; and then, without action on any of the pending motions, the Senate adjourned.

FIERCE FIRES.

Two Persons Killed and Several Injured at St. Louis—Twelve Houses Destroyed in Chicago.

ST. LOUIS, Mo., July 23.—About 3 o'clock this morning a gasoline stove exploded in the restaurant and lodging house of Wm. Hancock, of 1005 North Third street. Fifteen persons were asleep on the second and third floors. Two were burned to death and three seriously injured. Following is the list of dead and injured:

Dead—Mary Maher, aged 43, dishwasher at the Commercial Hotel; John O'Malley, aged 63, porter.

Injured—John Connolly, Belleville, Ill., may die; John Hancock, Belleville, Ill., unknown man, seriously. Loss to the property is \$7,000.

CHICAGO, Ill., July 23.—Twelve frame houses on Van Horn street were destroyed by fire shortly after 1 o'clock this morning. While a number of people were watching the flames the walls of one of the buildings fell into the street, burying three men in the ruins. One man named Steegt was taken out, but was so badly burned that he will die. Two men named Theick and Odin are still buried in the ruins. Property loss estimated at \$20,000.

BINGHAMTON, N. Y., July 23.—The business portion of the village of Great Bend, Pa., about fifteen miles from here, was wiped out by fire tonight. The blaze started from an exploded lamp, and at 10:30 o'clock seven buildings had been consumed, including several places of business and the office of the Great Bend Plaindealer. The loss is heavy.

Heaps of Hay.

CANADAMARIE, N. Y., July 23.—The Hay Trade Journal is in receipt of advices from England, France, Scotland and Germany which say the largest crop of hay known in several years has been secured in excellent condition.

A Peace-Maker Shot Dead.

BRUNSWICK, N. J., July 22.—J. E. Nelson, the oldest conductor on the Brunswick and Western Railroad was shot through the heart and killed today on his train, 30 miles from Brunswick, while trying to stop a crowd of drunken negroes from fighting. His train porter was mortally wounded. Six arrests have been made.

THE BOYCOTT

To Be Used in Every Way Against Pullman.

Debs' Trial Begun—A Strike at West Duluth.

OMAHA, Neb., July 23.—General Master Workman Sovereign of the K. of L., who is at the executive meeting here, says that all the packing houses will quit to-morrow unless the rates of wages paid Aug. 1, 1893, are restored. He adds that the executive committee of the Knights will go Debs one better in his request to boycott the Pullman cars. The Knights will ask a boycott on all who patronize Pullman. General Secretary Hayes says the committee is in favor of asking a boycott on every Chicago newspaper advertiser who patronizes Pullman. The 400 employees of the Duluth Manufacturing Company at West Duluth, which makes all kinds of freight cars, struck this morning. The company has been paying the men only a small portion of their wages, giving the difficulty of making collections as an excuse. The men are all heavily in debt and can get no further credit. The company has several good sized orders on hand.

CHICAGO, Ill., July 23.—The hearing of the contempt proceedings against President Debs, Vice-President Howard, Secretary Keliher and Director Rogers, of the American Railway Union, was the special order in the United States Circuit Court today. Defendants denied every allegation made against them, and insisted that they had in no way placed themselves in contempt of court. Debs and his associates, in fact, claimed to have no knowledge of the telegrams which it is charged they sent, with one exception. They admitted having sent the letter to the general managers, but it was subject to the approval of the men interested. In fact, Mr. Debs said he had no power to order a strike or to end one; that he only advises, and the members of the union act voluntarily. The court adjourned until tomorrow morning at 9 o'clock.

There was no indication at the stock yards today that the Knights of Labor employed there would go out on strike again, as hinted by Mr. Sovereign.

While the returns of last week's freight shipments do not show that the traffic has fully recovered from the prostration inflicted on it by the strike, they reveal a very material gain as compared with those of the previous week. It is expected that the traffic will get back to its normal condition during the present week.

The Allen Paper Car Wheel Company started up its works at Pullman this morning. The big Corliss engine of the Pullman Company was put in readiness to drive the machinery, but its services were not required at only two of the 50 employees returned to work. Instead of an increase of workmen in other departments at Pullman, as expected by the officials, the number responding to the whistles' call this morning was less than any day since the attainment of resumption of work.

BUTTE, Mont., July 23.—At a meeting of the local A. R. U. this evening the strike on the Montana was declared off. It was the last road in the State to hold out.

UNIONTOWN, Pa., July 23.—Dynamiters made an attempt last night to blow up the town of Dunbar, just north of here. At 1 o'clock a large bomb was exploded under the house of a non-union workman named Vaughn, in the center of the town. The building was blown to pieces and the larger part of the town was badly shaken by the explosion. Nearly 2,000 strikers have gathered here to-day for a meeting. Many are armed with guns and revolvers.

RAILWAY MISHAPS.

Train-Wreckers at Work in Indiana—Fatal Smashup on the Big Four.

FORT WAYNE, Ind., July 23.—A Grand Rapids and Indiana passenger train, south bound, was wrecked at midnight at La Otto by some one who had driven a stake into a frog. Seventy-five Fort Wayne excursionists were on the train. The officials say they were only shaken up.

NORTH BEND, Ohio, July 23.—The Chicago express on the Big Four collided with a freight engine at Griffith's about 6:30 a.m., killing the fireman on the freight engine and two tramps on the mail car.

SEVEN PEOPLE KILLED.

TEXARKANA, Ark., July 23.—The north-bound passenger train from Dallas over the Texas and Pacific Railroad, due here at 7:15 p.m., was wrecked near Queen City, Texas, shortly before 6 o'clock. The train consisted of a baggage car, smoker and one passenger coach, and it is reported that seven people were killed. Among them were the engineer, fireman, and express messenger, the colored porter and three passengers.

STABBED HIMSELF TO DEATH.

A Despondent Hamilton Workman's Terrible Suicide.

HAMILTON, July 23.—James Bertram, of 42 Chatham street, committed suicide this morning by plunging a dagger into his heart. The dagger was made of a small file and was very sharp. Bertram had been out of employment for some time and because of despondency. He rose at 4 o'clock this morning, and without disturbing his wife went to the washstand and did the deed. He was 52 years of age and was a member of the A. O. U. W.

TORONTO, July 23.—Chas. H. Usher, aged 20, son of Deputy Provincial Registrar J. J. Usher, was drowned this morning in the lake near Mimico. The young fellow jumped from a yacht in which he and some companions were sailing, in order to capture a boat that had broken away from their vessel, but his strength gave out before he could be reached.

The United States Senate Scandal.

WASHINGTON, D. C., July 23.—The sugar investigating committee met today. There but one witness, Emil Guillard, of the New York firm of W. B. Wheeler & Co. This is the witness who is said to possess the original contract in which a certain senator ordered sugar purchased. The members of the committee refuse to talk further than to say they are getting at something tangible.

Philanthropic Dancing Party.

[From the Chicago Herald.] There is a gentleman on the West Side who pays an organ-grinder \$1 one evening in every week to come before his door and play for an hour. "You must be mad!" I said to him when he told me. "Do you mean that you really hire one of those hurdy-gurdy men to inflict his dreadful tunes upon you?"

"Yes, and thereby I am doing missionary work of the correct sort. You should see the dancing school that forms under the trees. All the children of the neighborhood, mostly of the poorer class, flock here and dance in sets. It is the prettiest sight you ever saw. The electric light out above that big willow casts a legion of flickering lights and shadows on the scene, and the picture is worth traveling far to see."

"Yes, we have a lively time though," exclaimed his wife, "with nervous old ladies in the block. You ought to have heard the chatter from the window when John's experiment was in full swing."

"Both the old ladies, anyway," said John, "they always break up anything that is especially jolly! They have shooed away the organ-grinder and broken up my neighborhood dancing party pretty effectually."
