To work fearlessly, to follow earnestly after truth, to rest with a childlike confidence in God's guidance, to leave one's lot willingly and heartily to him this is my sermon to myself. If we could live more in sight of heaven, we should care less for the turmoil of earth.-From the Letters of John Rich-

MAKING OTHERS HAPPY.

Sydney Smith cut the following from newspaper, and preserved it: "When you rise in the morning, form a resolution to make the day a happy one to the deserts every man is accompanied a fellow creature. It is easily done; by his own past. So long as memory, a left-off garment to the man who ful, an encouraging expression to the his past and makes the past a part of needs it, a kind word to the sorrowstriving-triffes in themselves light as the present, and imagination, which air—will do at least for the 24 hours. projects the past into the future with And if you are young, depend upon it, it will tell when you are old; and if you are old, rest assured, it will stream of time to eternity. STRONG DRINK.

It is more than half a century since the eloquent voice of the late John Bright was raised against the evils from which the country suffers by the traffic in strong drink. In one of his earliest speeches he said: "What is the greatest obstacle to the diffusion of education amongst the masses of the people of this country? Their love of strong drink. How many thousands of innocent children are deprived of in-struction, and reared in contact with vice and every debasing influence through the drunkenness of their parents? What chiefly prevents the good which the general distribution of the Holy Scriptures is calculated to produce? The drunken habits of the people. Look into the pawnshops and you may see loads of Bibles, and ask who brought them there. The answer will probably be 'a wretched woman reduced to extreme want by her husband's intemperance.' The missionary societies, the school societies, the Bible societies, and every benevolent institution utters the same complaint. Our path is before us, but a monster ob-stacle is in the way; strong drink, ale and wine, or brandy, by whatsoever name the demon is styled in whatsoever way it presents itself, whether in the beerhouse or the dramshop in the dining-room of the man of the world or on the table of the serious professor; this-this prevents our success. Remove this obstacle, and our course will be onward, and our labors will be blessed ten thousandfold."

OUR COMPANIONS.

No man is ever absolutely alone. In which makes a man contemporary with all manner or new combinations, exist, no man can be in absolute solitude. alities like his own, no real solitude is possible; so long as men stand in relations to the world, to one another, and to God, they must always be in

In the sight of the Infinite it is always present; there is no past or fu-ture, and they who have gone before in the long generations of the dead and they who are to come after, with the men and women of today, constithe men and women of today, constitute one innumerable, unbroken company. This sublime fact, the glorious incarnation of the idea of immortality, is rarely realized by men, but it exists as a fact in their lives, if not in their consciousness. Sir Philip Sidney, the image of all pastlements. ney, the image of all nobleness, said, "They are never alone who are accom-panied with noble thoughts." This is the beautiful and impressive side of the picture; there is another and darker side; he might have added, "They are never alone who are accompanied by evil thoughts." But, to put it more accurately, no man is ever alone so long as thoughts, good or evil, noble or debasing, accompany him. He is not solitary; and since every man must think, and to every man, however isolated, thoughts come and go in countless troops and in unbroken succesno man is ever without com-

The real question is, "What kind of company shall he keep?" That depends upon what he selects; for, in a very true sense, every man creates his own world. Every man is born into a vast workshop full of materials and tools. His business in life is to select the material upon which and the tools with which he shall work; and then, out of his own imagination, he fashions his world, and, as the pro-duct of what he thinks and does and feels, that world passes out of the realm of imagination into reality and becomes his world. So every man creates his companionship according to his thought. If his thought is fine and generous and high, he is the best company and the most inspiring; if it is mean and low and vile, no matter what deserts surround him, he is in base and vile and ignoble fellowship; it is a matter of character. Companionship does not depend upon accident, but upon selection. Every man makes his own friends; and it is this fact which gives the profounder truth to the old proverb, "A man is known by the company he keeps."-New York

FROM SMALL BEGINNINGS.

Bright-hued soap bubbles, blown from an ordinary tobacco-pipe, were observed by Dr. Young, and suggested to him his theory of "interferences." and eventually led to his discovery relating to the diffraction of light.

Cuvier, when but a boy, was one day sauntering along the sands of Fiquainville, in Normandy, when his attention was arrested by a cuttlefish lying on the beach. He picked it up, took it home, dissected it, began the study of the mollusca, and in time became one of the most eminent natural-

ists of modern times. Aloisio Galvani, an Italian physiologist, was one day struck by the remark of his wife, that the legs of some frogs that had been skinned for eatworld, or on the table of the serious finally discovered the electric phenomenon now called "galvanism" after

THESE FOUR REMEDIES

Represent a New system of medicinal treatment for the weak and those suffering from wasting diseases, weak lungs, coughs, sore throat, catarrh, ing from wasting diseases, weak lungs, coughs, sore throaf, catarrh, consumption and other pulmonary troubles or inflammatory conditions of nose, throat and lungs. The treatment is free. You have only to write to obtain it. By the system devised by DR. T. A. SLOCUM, the specialist in pulmonary and kindred diseases, the needs of the sick body can be condensed into his treatment by four distinct preparations. Whatever your disease, one or more of these four remedies will be of benefit to you. According to the exigencies of your case, fully explained in the treatise given free with the free medicines, you may take one, or any two, or three, or all four, in combination. The four together form a panoply of strength against disease in whatever shape it may attack you.

DR. SLOCUM IN HIS LABORATORY nonstrating to Medical Men, Scientists, Statesmen and Students the value of the New Slocum Sys of Treatment for the Permanent Cure of Consumption and all Pulmonary and Wasting Diseases.

Do you cough? Do your lungs pain you? Is your throat sore and inflamed? Do you spit up phlegm? Does your head ache? Is your appetite bad? Are your lungs delicate? Are you losing flesh?

Are you pale and thin? Do you lack stamina? These symptoms are proof that you have in your body the seeds of the most dangerous malady that has ever devas-

tated the earth—consumption.

Consumption, the bane of those who have been brought up in the old-fashioned beliefs that this disease was hereditary, that it was fatal, that none could recover who were once firmly clasped in its relentless grip.

But now known to be curable, made so by the discoveries of that man whose name has been given to this new system of treatment.

Now known to be preventable and curable by following and practising his teachings.

The new system of treatment will cure you of consumption and of all diseases which can be traced back to weak lungs as a foundation.

It is not a drug system, but a system of germ destruction and body building.

Not guesswork, but science.

Not a step backward, but a stride out of the old ruts.

Good-bye, Old Year! You who a welcome had With all the gladness that our hearts We hankered for the changes you might bring; We loathed your predecessor, cross old

We thought no other could be quite as But say, old man, you've surely been a buster!

Good-bye. Old Year! We hate to see you leaving, Though numerous were the trials that you brought us— Business reverses, long forgotten bills, Not much of pleasure, far too many ills; Cause for rejoicing, causes more for

grieving—
And yet some valued lessons you have taught us.

Good-bye, Old Year! We toll your parting knell, And then we turn to greet the New Year hope and pray the future he'll disif better not than yours will be no worse.

Do you see that? What is it?

A lady.
What is a lady?
A woman by a different name.
How? All ladies are women, but all women re not ladies.

And society dearly loves a title?

It does. Do they not fear public opinion?

Why not? Society is a strictly private and exclusive organization, and cannot be amenable to public criticism. I don't quite understand that.

And you won't until you are in it. With all the advantages of wealth are not society persons quite superior

In their own estimation. Not in that of others? Wait till you have met and tried to talk to a few of the glittering exem plars of the real thing in society. What's the matter with them? Heaven only knows, and it won't

Don't the "glittering exemplars" want to be different?
Yes—different from everybody else, and they are. I see, I see. They make figures themselves. There is a harsher term, but let go at that.

Are society persons happy?
When they are on top of the heap.
How do they spend their time?
As they spend their money. Trying to be happy. You mean trying to keep on top? Mostly. How old is society?

Not so old as the grandfathers of most of its devotees. Who created it? The Lord God Almighty.

You don't mean it? I do: and man organized it and made it what it is. Which accounts for a good many
