Washington Territory—A Coal Mine on Fire.

SEHOME, Oct 12th-Goafstink was discovered on Friday late, so weak, however, that but few were able to detect it. On Saturday a close examination was instituted, and in following the stink, it became evident that a fire must be in existence in one or was reached about midnight. A determined effort to draw the fire by means of long rakes, soon proved fruitless, and an equally determined effort was now made to wall the fire in by means of a shed, with no better result. Both efforts proved unsuccessful because of the immense masses of black damp issuing from the burning gallery, preventing | quiet of her rulers and people. the workmen from approaching the fire near enough for proper work. A minute examination having been made, the fire proved of but | much attention there as well as in other parts small extent and making little or no progress. Hose has been ordered and will arrive during | ette declares that the European powers are the night. The Superintendent intends to nominally bound to interpose. attach this hose to the mine pump and by means of the engine, force large quantities of water up the burning gallery and cause the burning mass to extinguish and also to work down to a point where it can be reached by workmen. Every one here is entirely confident that this plan will be successful.

Europe.

CHICAGO, October 10th-The Cable earned £46,048 in fifty-five days. The tariff will probably be reduced to one-half the present rates at a very early moment.

The Paris Patrie asserts that the insurrecy tion in Palermo, the revolt in Candia, the disturbances in the Ottoman Empire, the insurrection in Greece, and the revival of the Juarists in Mexico, are the results of a vast plot formed in the belief that a general European couflagration would be the result of the late German war.

Advices from Athens say the Turkish Ambassador had threatened to break off relations with Greece, and that his representations were suspected by the French and British Ministers.

Further insurrections are reported at Smyrna, in which the Turkish troops had the advantage.

PHILADELPHIA, October 10th, 10:30 p.m. An immense vote was polled in the city and State yesterday. At this hour it seems probable that General Geary has 20,000 majority, and that 18 Union Congressmen are elected. Union gains are :- Henry L. Coke in 10th District, and John Covode in the 21st District. Philadelphia footings give Geary 50,212; Clymer, 46,843.

CINCINNATI, October 9th-In this county the Union ticket has 3,000 majority; Eggleston (Union) beats Pendleton by 300, and Haves (Union) is re-elected by over 2000 majority. Returns from the State (Ohio) show large Republican gains. The total majority is not less than 40,000. Schenece ated. tady has 1500 majority; Columbus, 1020 .-The Republican State ticket has between 5000 and 6000 majority. The Congressional delegation is unchanged, standing 17 Repub-

licans and 2 Copperheads. Indianopolis, Ind ana, Octh-The entire vote of this city is 6,500; the Republican majority is about 3000. The returns fire was discovered in the rear of the Alta

Letter from Lillooet.

LILLOOET, October 6th, 1866. EDITORS COLONIST & CHRONICLE :- I have much pleasure in informing you of the election of Capt. Stamp, as member of the Council. This has been the first bona fide election held in the district. On former occasions, the aspirant to Legislative honors carried around a paper, got signatures, and the one who acquired most names on the sheet of foolscap was declared qualifiedconsequently the one first in the field won the day. On the present occasion, a fair poll was granted by Judge Elliott and we obtained our choice gloriously. Great excitement and enthusiasm were manifested. Ru mor had it, that our late member of Council (Mr Holbrook) and Mr Walkem, intended to coniest the honor, while Mr Kelly was the only cardiadte who showed his face, Capt. Stamp being proposed and represented by a resident. Canvassing was carried on to the last minute, when Mr Kelly, seeing that his chances were few, came forward after nomination, and in a little speech declined to stand the contest. Polling went on, and sixty votes majority were given for the captain. We could have got twenty-five more did we require a rally or had we felt crowded by opposition. Our number, too, has been thinned by the new diggings on Lillooet river, which are represented as good "poor man's diggings"-five to eight dollars per day.

A poll was to be held subsequently at the foot of Pavillon mountain, lake La Hache, Clinton and Pemberton, the numbers, roughly estimated (exclusive of Chinamen and Indians, who are not voters) of men who have lived three months in the district, is about 250; of others, white men who lived too far about 250 more. We are safe in those divisions, having pledges, and we conclude it is a pretty good John Bull that can make us stamp-ede on our own stamp-ing ground.

And now a time has come, when every mem ber's political influence may be of vast importance to the United Colonies' welfare. You of Vancouver Is and are well versed in our member's principles, he having lately vacated a seat in the representation of Esquimalt. Locally little can be done for this listrict by any member, but we are satisfied in having elected one who, combining the qualifications of sound business principles pool with 20 cases of cholera on board; 14 with impartial and unbiased views, may be deaths in the city. There was not a single safely entrusted by the people to act as their faithful representative in the British Columbia Legislative Council.

selling for two bits each; and, the original and only genuine City of Lillooet, voted on the winning side.

INSANE GIRL-Clara A. Brooks, a vouns lady of nineteen, escaped from the Hartford Insane Asylum lately. While her friends were carrying her back to Hartford she made her escape a second time from the carriage, while on Hockanum bridge, and ran into the Connecticut river, and, as it was dark at the time, could not be found, and was supposed to have been drowned.—
The people of that vicinity searched for her several days without success, until she went to a house at Glastenbury, hungry and weary, but perfectly rational, and asked for some money. She had wandered about in the fields and woods for six days and nights, and had lived wholly on berries and apples which
