Guiteau retired last night at the usual time. He slept well and appeared much refreshed this morning. He ate heartily, and was cheerful and less taciturn than usual. He took half an hour's exercise in the corridor in front of his cell, at mostly a slow walk but now and then putting in quick spurts. Then he returned to the cell and read the Revelation of St. John. Dr. Hicks arrived at 10 30 and spent twenty minutes with the prisener. They talked about the Revelation and the beauties of the other world. CHICAGO, June 25.—The combination which has control of No. 2 spring wheat has been quietly at work for some time disposing of wheat in store. Of the wheat in elevator in Chicago all but 700,000 bushels is in process of shipment and what remains will be on its way east by the first of the month. This grain has all been sold in Europe and will not stop on this side of the Atlantic.

Since the first development of the deal about seven million bushels of short wheat have been settled at prices ranging from \$1 32 to \$1 34. During the past week 1,000,000 bushels have been settled, and 253,-Leave Nothing for the Shorts.

It is understood that the July wheat syndicate also has c.rn and provisions, and it is predicted that before thirty days have elapsed corn will be 80 cents a bushel and pork \$23 a barrel. The receipts of corn are next to nothing, and all the corn in store here is being rapidly moved out of the city. It is not put on the New York market, but is some directly to New England where a place has been provided for every bushel. The visible supply of pork is diminishing with astonishing rapidity. The pork is going into consumption in one form or another, and it is to be distributed in every direction. In consequence of the manipulation of the various commodities traded in on the board, this market will come nearer being cleaned out of everything this summer than it has for years. The new grain crops will be brought to empty elevators, and the supplies of prouisions will be very meagre, Much of the grain which is now being shipped to Europe has been lying in store for three, four and five years.
