FACT AND FANCY.

It is said General McClellan will criticize the mastery inactivity of the British in Egypt in his forthcoming article. Minister Morton has leased the proscenium box at the opera house, Paris, directly opposite that belonging to President Grey.

The Horseshoe Falls of Niagara have entirely lost the shape which gave them the name, and present now the exact outline of the letter Y.

Arabi Pasha does not dash along his lines on a foaming steed. He cannot ride, and when he is obliged to mount a horse the animal is led.

Of course, whip your children if you cannot govern them by moral suasion—that is to say, if you are stronger in the arms than in the brain.—Boston Transcript.

Sir Garnet Wolseley's troops in Egypt have received their safeguards against ophthalmia, and are now treated as an army with blue spectacles.

Right Hon. Lyon Playfair, M.P. for Edinburgh and St. Andrew's university, has sailed for New York. He will remain in America until parliament opens in October.

English sportsmen hunt bear through the mountains of Montana with success, while American sportsmen are unable or unwilling to grapple with the grizzlies of that region.

At every station on the Russian railroads is a grievance book, in which the traveller may inscribe his wrongs in any language he likes, and which is periodically read by the authorities.

Spain produces more lead than any other nation—120,000 tons last year; the United States comes second, with 110,000 tons; Germany next, with 90,000 tons, and England follows, with 67,000 tons.

Three Free physicians in New York claim to have a remedy for hydrophobia. It is said that each one of them is anxious to test the new treatment of the other two by being bitten by a mad dog.

The expenses of the three days' reunion of the Palmer family at Stonington, Conn., amounted to about \$1000, and it is anticipated that within a few weeks the sale of certificates of membership in the family organization will put several thousand in the treasury.

Prince Henry of Prussia will start on a voyage around the world next October. He will probably be away a year and a half, and spend most of the time cruising in the West Indies and around the South American coast.

Alexis Cyr, of Grant Isle, Aroostook Co., Maine, writes: "Having used Northrop & Lyman's valuable Emulsion of Cod Liver Oil with Hypophosphites of Lime and Soda, and derive a great benefit from it, I take the liberty of asking you for quotations, and also whether you are willing to give me the agency for this territory. I am confident there would be a large sale for it in this vicinity when its merits were made known."

Another Alpine accident has occurred, making the fourth this season. The victims were an Englishman named Dr. Gobet and two guides. On Friday last they left Zermatt to attempt the ascent of the Dent Blanche. On Sunday all three were found dead, having fallen from a precipice.

"John, what is that peculiar smell?" asked a man's wife as he was trying to steal in bed without waking her, about 2 o'clock a.m. "That is the incense we use in the lodge room, my dear; it exhales it exhalation of the incense, it has been interrupted. "I recognize the odor—x ales."

C. R. Hall, Grayville, Ill., says: "I have sold at retail 150 bottles of Dr. Thomas' Electric Oil, guaranteeing every bottle. I must say I never sold a medicine in my life that gave such universal satisfaction. In my own case, with a badly ruptured throat, after a year's treatment for several days to no effect, the Electric Oil cured it thoroughly in twenty-four hours, and in threatened croup in my children this winter it never failed to relieve almost immediately."

Gold mines in Siberia produce annually about \$1,000,000; but the search for ore is expensive and vexatious. No liquor is allowed to be sold within twelve miles of each shaft, so that the workmen are kept in proper discipline. The pay of miners is contemptibly small, averaging but three dollars per month, with board and lodging. The mine were much more profitable when the labor of serfs was the only means of production.

The second of the four sitting statues that are to commemorate the landing at Plymouth in 1620 is completed. The one already in place represents the Pilgrims, and this second one, which is the gift of Roland Mather, of Hartford, is a symbolical of education, being a woman's figure of large size seated on a pedestal. The statue is cut from a single block of granite, at a cost, including a marble panel with various designs, of \$20,000. The other two statues will represent liberty and law.

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers and equines never used anything so effectual. Good results immediately follow its use. I know its value from personal experience, having been troubled for 3 or 40 years with Dyspepsia, and since using it digestion goes on without that depressed feeling so well known to dyspeptics. I have no hesitation in recommending it in any case of Indigestion, Constipation, Heartburn, or troubles arising from a disordered stomach."

A great change has been decided upon in the Russian army. With the exception of the Cuirassiers, Life Guards and Cosacks, the whole force a regular cavalry is to be transformed into dragoons, carrying small bayonet rifles for the performance of infantry service. The existing regiments of Hussars, Lancers and Grenadiers and others will retain their present titles, but as regiments of dragoons. The reasons for this change are chiefly economical, and seem to be directed toward lessening the enormous expense which is entailed in a national army like that of Russia by foot gear. A physician calls attention to the fact that if tobacco smoke be instantly ejected from the mouth and throat before descending into the chest and be made to pass through a cambric handkerchief drawn tight across the open lips, a peculiar yellow stain, corresponding in size and shape to the opening between the lips and having numerous spots of a darker hue surrounding it, will be left on the handkerchief; but that the prolonged puff from the chest after inhalation from a cigarette fails, under similar circumstances, to produce any but a scarcely perceptible and speedily evanescent mark. What in the latter case becomes of the substances which stain? This physician thinks it remains in the lungs, and he therefore condemns the common manner of smoking cigarettes as dangerous.

READABLE PARAGRAPHS.

Only Young Once.
There are joys for all our lives,
There's a gain for every pain,
But when youth, the golden age,
Takes something from our hearts,
And leaves us some-thing left.

We are stronger, as a father,
Under manhood's sterner reign,
Yet we feel that something sweet,
Followed by sorrow, is gone,
And it never comes again.

J. M. Hovenden for Cotton signs and Window Shades—124 Bay Street. 135

Long sails are now on hand, and woman holds the balance of power in her hands.

J. M. Hovenden, House & Sign Painter—124 Bay Street. 135

Mental depression and all nervous diseases of whatever nature or cause, in old or young, male or female, cured by Dr. E. C. West's Nerve and Brain Treatment.

We have always great pleasure in noticing the different styles of Photographs at the studio of J. H. Lennette & Co., 324 Yonge Street, (two doors north of Edward) and are without exception, at the highest of their profession and extremely merit the extensive patronage they receive. New styles of cabinet, cabinet and cards on hand in a few days at their usual prices. 135

The Wet Weather.
For the wet weather, should always have a nice silk umbrella; the finest stock in the city at White's Shirt Store at King street west.

Miss Smith, the great artist, attended a ball Friday when she was kissed at by all.

And a person said, with a very bad grace, "That he knew she could paint by the looks of her face."

A Hard Task
To find a better remedy for dyspepsia, indigestion, and impurities of the blood, than Dr. Fowler's Extract of Wild Strawberry, Burdock Blood Purifier, Price \$1.00, trial bottles 10 cents.

Woman is born for love, and it is impossible to turn her from seeking it.—Margaret Fuller.

Dr. Fowler's Extract of Wild Strawberry Cures all forms of bowel complaints, in infants or adults. The most safe, pleasant and perfect remedy known. Fully reliable and free from opiates or poisonous drugs.

Woman is the Sunday of man; not his repose only, but his joy, the salt of his life.—Michelet.

Nothing is Supererogatory.
Dr. Fowler's Extract of Wild Strawberry is the best remedy for infants teething, it is safe, pleasant and reliable, and cures promptly all forms of Bowel Complaints. For Canadian Cholera or Cholera and Dysentery of either children and adults there is no better remedy.

For where is any author in the world teaches such beauty as a woman's eyes?—Shakespeare.

Would Not be Without It.
One who has fairly tested Dr. Fowler's Extract of Wild Strawberry, though prejudiced against proprietary medicines in general, writes: "This reliable remedy for sudden attacks of Cholera, Cramps and Cholera Morbus so prevalent in the summer season I keep a bottle ready at hand."

It is vigorously denied in the Ithaca Journal that President White has accepted an invitation to attend the "free thinkers' convention at Watkins."

A Wretched Scare.
A score of years is a long time to look upon, but when attended with continual suffering, it seems almost a century; and all this pain could have been avoided if, when your liver commenced to trouble you, if you had taken Burdock Blood-Purifier. Price \$1.00, trial size 10 cents.

Many men admit women's anatomy, but they can't be persuaded to "hold the baby just for a moment."

What Every One Says Must Be True.
All unite in praise of Dr. Fowler's Extract of Wild Strawberry, who have tried it in all the most distressing cases of Cholera, Dysentery, Nausea and Stomach and Bowel Complaints generally in children or adults. Every person should keep a supply on hand.

As a Side to the Stranger.
When the bar begins to tumble,
Then the bar is the best possible,
As he makes the stranger's home,
And so makes the stranger's home,
And so makes the stranger's home.

On a Quest.
Recently over 1100 physicians and surgeons visited Dr. M. Souville of Montreal, an ex-surgeon of the French army, and his wonderful invention, the "Electric Oil," as an instrument which conveys medicinal properties direct to the parts affected, and is used in the leading hospitals of Europe for the treatment of catarrh, otitis media, deafness, bronchitis, asthma and all throat and lung diseases. Parties unable to come to the office can be treated by letter. Call or write to the International Throat and Lung Institute, 19 Phillips square, Montreal, or 75 Yonge street, Toronto, Full particulars free.

A Plaindealer had was going away from his wife, who was afraid to stay in the house, that he would buy her a dog. "Be sure to get me one that snores loud," said his affectionate better-half. "It will remind me of you while you are away."—Bradford East.

If a few grains of Common Sense could be infused into the thick noddies of those who perpetually and alternately irritate and weaken their stomachs, and bowels with drastic purgatives, they would use the highly accredited and healthful laxative and tonic, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which causes "good digestion-to wait on appetite, and health on both."

Prince Ibrahim Pacha, fourth son of the ex-Khivde Ismail Pacha, will solicit leave from the Duke of Cambridge to serve as a private in the English army in Egypt.

He will go to London for that purpose. His father has given his consent to the arrangement.

A single wicket cricket match has been arranged between Geo. P. Simpson of Galt and Mr. Rogerson of St. Thomas, for a stake of \$100 a side, game to take place in Galt on Aug. 31.

S. Chadwick of Aresia, Wayne county, writes: "I have had severe attacks of Asthma for several years. I commenced taking Dr. Thomas' Electric Oil. The first dose relieved me in one hour. I continued taking it in teaspoonful doses for a few days and have not had an attack of it since, now nearly one year."

A letter twenty years old has been filed for probate in Pittsburgh, Pa., as the will of J. W. McConnell, a soldier, who died in 1863 from a wound received at Spottsylvania. Some property has recently been discovered of which he was the owner. This is the first instance on record of a letter being offered as a will.

THE RETIRED.

John the Retired.
Toronto Letter-Writing Press Work.
The expenses made by the World about Senator John O'Donohoe are as incredible as can well be imagined. An honorable man, conscious of innocence, would never have allowed a single day to have passed without arranging for a libel suit. John is doing nothing of the kind, and apparently has not allowed a single day to have passed without arranging for a libel suit.

Come now, John, did you really do as you are represented in these contracts matters? If you did, you must be a fine fellow. Well, if you did, if you did not, would it not be the thing to say so? Mind you, a great many people believe the accusation, and it has an exceedingly ugly look. Contract-breaker.

From Fort Hope News
At one time John O'Donohoe was a loud-talking reformer. Latterly he has been a flaming conservative. The date of his anti-Union conversion was 1877. The Toronto World produces documentary proof that he proposed to Mr. Mackenzie to manipulate the Union and Provisions on the fact that he (O'Donohoe) could pocket \$50,000.
