CREDITORS' ASSIGNEES,

Robt. Cochran received this despatch from his New York, agents to-day:
New York, May 14:—There was only a limited attendance at the Windsor yesterday. The usual habitues put in an appearance during the evening, and their opisions while not being novel, were unmistakeably bullish. Nearly every trader was a bull. Without doubt they thought the market would improve, particularly if Europe continued to buy, which was probable, considering the reassuring tone of despatches sent to the other side last night by foreign banker. It commences to look as if We will vote to increase the rate of dividend in June. The point is given that the company will return to a fper cent basis this year. Both Sage and Gould fayor an advance on account of increase in business, which, as Wormser says, is strictly cash and no rebates.
