Blocking Progress.  
We direct the attention of the business men and of the property-owners of Toronto to the conduct of Mayor Fleming as revealed in our news columns, in dealing with the street railway question. Why is he and his organs attempting so determinedly to oppose progress? They do not want to take the advice of S. H. Blake and Christopher Robinson on matters of law, and they do not want to follow the true policy of progress and improvement.

Let the cool-headed men of the town think this over. Are we in the hands of cranks, and are there cranks to bar the progress of the city?

Two Great Men.  
And now Senator Russell is likening himself to Sir Robert Peel, who "rattled" on the Protectionists. There are differences, however, between them two wonderful men, and there are between the circumstances of Canada and of Great Britain. We are proud to think that our country should have produced a Russell, and had he lived in England 50 years ago we are convinced, now that we have read his letter to Mr. Laurier, that he would have been in it with him.

What a mass of new and startling arguments! What a mass of facts! No wonder the Globe, thankful for even small merit in these days, welcomed the letter to its columns. Of Peel we read that he was the reformer of the criminal code, the introducer of an effective system of police—(Hence "Peelers")—the founder of a system of currency, the restorer of civil equality to the Christians of all denominations, and of our Bounties will be said that he is so like Peel he quite forgets he is British. He forgets, too, that we do not live in a small country with a large population, but the contrary. He forgets that England has not as her next door neighbor a country with twelve times her population and the highest protective tariff known. Some years ago Senator Russell was very nearly meeting his death at the hands of Riel, and it is charitable to suppose that he has never quite recovered from the shock.

Chinese Exclusion Bill.  
The exclusion bill which passed the United States House Monday shows that all Chinese except the Minister and his family are to be excluded from the United States. The passage of the bill, which is a worthy one of the twentieth century, is a disgraceful act, and should never be allowed to become law. It would be a disgrace to introduce in any country but an "unlighted Republic," and it is an outrage on common sense and decency. It is perfectly right for a nation to protect its territory from immigration, but to attempt to treat the whole people of another nation as convicts is a dishonor to the framers of the law and a dishonor to the country which they represent. Here is one provision:

No Chinaman, unless on a mission from his Government, shall set foot in the United States on penalty of imprisonment for one year; and all Chinamen now in the United States shall apply for certificates of residence, and if one is found without a certificate, his expulsion of a year after he becomes a law he shall be subject to the penalty of five years' imprisonment to which newcomers are liable.

The Great Fight in Little Rhody.  
The gigantic struggle over the election in Rhode Island yesterday, that a senator was to be elected, was as ridiculous as a steamboat race in a step. But it was rendered interesting to Canadians by the fact that the Democratic candidate for the Senate, Senator Aldrich, who was the McKinley of the Senate in preparation for the tariff bill in Ohio, so in Rhode Island the Democrats concentrated all their resources to defeat the high tariff senator, as his defeat could be construed into a vote of disapproval of the protection policy of the Republican party. They failed signally in Ohio, and the indications were at midnight last night that they had also failed in Little Rhody.

A still more elaborate description comes from St. Petersburg telling of the German balloons floating over Russian ports in Poland, equipped with electric searchlights and controlled in every movement as easily as a steamer on a quiet sea. If half the stories be true a new era of warfare may soon be ushered in. Then may be realized the mission of the lover in Tennyson's "Locksley Hall."

That Mr. Abbott is paving the way for the assumption of the leadership by Sir John Thompson was the main item of news from the Capital yesterday. As things now are this is the only forecast possible. Sir John has shown himself a wonderfully able man, equal to all occasions, full of resource, and extremely popular with the Conservative members. He has developed remarkable strength in Ontario since he assumed the leadership of the Commons. But Mr. Abbott is not going to retire just yet. He is a grand old man with lots of work to him and enough of the love of statercraft to steer the ship for many a day.

This is the end of a case of the Welland election case which is a flagrant case of fraud against decency, political morality and fair dealing to damn the Grit organization forever, if it is not already covered with undying infamy.—Empire.

This must be written for political ostriches capable of swallowing anything. But really, it is so humorous or serious? Is one supposed to giggle or cry virtuously indignant?
