NEW CROP OF SEEDS.

FOR the spring of 1855.—The old and well known ROCHESTER SEED STORE, for the last ten years managed by the subscriber, has been removed from 29 Buffalo street to 34 Exchange street, two doors above the Clinton Hotel.

Claiming to know from experience, something of the value to the grower of good, fresh seeds, as well as the necessity of having such kinds as will give the greatest and best return to labor, this branch of the seed business has received special attention, and purchasers may rely on correctness. Our motto is "never knowingly to deceive a customer."

It is our intention to keep all the varieties of seeds desirable to be grown in the Northern States. I shall have the Large German Clover, grown by the German Society of Farmers in Erie county. I have sold this large variety of Clover for several years, and it has never failed to give satisfaction.

Fife's or Scotch Spring Wheat, grown in Canada; may be sown as late as the middle of May. Good crops were grown from this variety last year in Monroe county.

SUGAR GROVE FARM,

7 Miles from Dayton, owned by Jas. McGrew.

THE undersigned, successors of Jas. Sumpter & Co., will continue the business of said firm and fill all the contracts made by it in Ohio and Illinois, and being thankful for past favors would now solicit future patronage. We design prosecuting our business with redoubled energy. We have no hesitancy in stating that we have the largest and best lot of Osage Orange plants ever grown on the continent, owing to the fact that the seed was planted where they did not suffer from the severe drought that has so generally prevailed throughout the country. We also import our own seed direct from Texas; it shall be fresh and of the best quality. All of which is warranted and will be sold at the lowest prices.

Full directions for raising plants, setting, cultivating and trimming in a manner that will secure success, will accompany each lot of seed and plants sold.

We continue to plant, cultivate, trim and mature a complete fence at from 75 cts. to \$1.00 per rod, one-third to be paid when planted, and the balance when completed. Hedges set and warranted at from 30 to 40 cts. per rod. Hedges grown, for what disinterested persons will say they are worth, when matured. Hedges completely grown at \$1.00 to \$1.25 per rod, to be paid when a thorough fence is matured.

We wish a large number of business men, living in localities where hedging is needed, to take hold with us in the planting and growing of hedges, the sale of plants, seed, &c. Those having the confidence of their neighbors, shall receive a liberal offer. Let us hear from you gentlemen. The enterprise is not only laudible, but will pay.
