

Amatite ROOFING

Needs No Painting.

MOST ready roofings require special painting and coating, and unless this is done regularly, you are sure to have leaks and trouble right along.

If you use Amatite, nothing of the sort is required. You will have real roof protection without painting of any kind.

Amatite is made to stay waterproof and give protection year after year, without any thought or care on your part.

First—Because it is waterproofed with Coal Tar Pitch.

Second—Because it has a real Mineral Surface.

Amatite, owing to these features, is the most economical roofing made. Its first cost is low, and you are saved all future expense for repairs or paint because it will need neither.

If you hav'n't seen Amatite, write for a sample to-day. From it you will very quickly understand why it does'n't require painting; why it does not leak; and why it saves you money.
