

HEREDITARY BLOOD

or blood tainted with syphilitic virus, tubercular diatheses transmitted through the blood, predisposition to Carcinomatous blood, Scrofulous diatheses are all cases continually met with. If the blood can be maintained at the proper standard, the predisposition to the so-called hereditary conditions will disappear. Allow the blood to become poor in quality and immediately family characteristics of disease and degeneracy appear. New blood, rich blood, healthy blood will keep the body pure and less liable to be attacked by the insidious foes which devastate entire families.

Pepto-Mangan ("Gude")

if given in incipient tuberculosis and all wasting diseases, will build up the system by building up the condition of the blood. The patient gains in weight and strength and the body is better able to ward off the impending disease.

Pepto-Mangan ("Gude") is ready for quick absorption and rapid infusion into the circulating fluid and is consequently of marked and certain value in all forms of

**Anæmia, Chlorosis, Bright's Disease,
Rachitis, Neurasthenia, etc.**

To assure proper filling of prescriptions, order Pepto-Mangan ("Gude") in original bottles containing 3 xi. *It's Never sold in bulk.*
