OF  
COPPER,  
1-100 GRAIN.  
1-150 GRAIN.  
1-200 GRAIN.  
1-3200 GRAIN.  
PRICE 50 CENTS  
PER BOTTLE OF  
500.**

We have received a large number of letters from physicians in all parts of the country confirming the experience of those mentioned on the attached circular, in cases of Cholera Morbus, Cholera Infantum, Dysentery, Diarrhoea, and other complaints of a similar nature.

It is claimed that Copper Salts have proven valuable in all the Cholera Epidemics within the last fifty years, and medical literature affords abundant confirmation of its great value in complaints of a choleraic nature, many physicians also claiming that the Arsenite will prevent the development of those symptoms which so often lapse into Asiatic Cholera.

**JOHN WYETH & BROTHER.**

I was called to attend a lady, a resident of Savannah, Ga., who is on a visit here, on Friday morning, the twenty-third instant. I found her suffering intensely from paroxysmal pains of intestinal colic attended with diarrhoea. My patient declared that she could not live another hour unless relieved. I felt sure that I could relieve her pain by giving an injection of morphia and atropia, hypodermically, but would be apt to have a nauseated patient to look after the balance of the day, so I dissolved a tablet of the Arsenite of Copper (one one-hundredth grain) in four ounces of water. Gave her the first teaspoonful myself and begged her daughter to give another teaspoonful every ten minutes for the first hour, the same dose every hour after, until I called again. I went back in two hours time and found the patient sleeping. She was relieved after taking the third dose of the Arsenite. I requested her daughter to give a dose once each hour, and left with a promise to call again that evening. I found my patient up and feeling well at eight o'clock, and so much pleased with the treatment that she wanted to put the remaining portion of the solution in a phial to carry back home with her. She says that she is subject to these attacks of colic, and was never so easily and pleasantly relieved by any other form of treatment.

C. E. DUPONT, M. D.

Grahamville, S. C.

A. P. Brown, M. D., Fort Worth, Texas, writes us in reference to the above as follows.

*Messrs. John Wyeth & Bro.*

"Bloody Flux is very prevalent here, and these Tablets, 1,100 grain to four ounces of water surpass any other medicine we have used in arresting this painful and dangerous disease; its effects are simply wonderful, and it is no trouble to get a patient (even a babe) to take it. Thanks, many thanks, for your prompt reply to my requests for tablets, etc."

Recent medical literature confirms the practical experience of Dr. A. P. Brown in the use of this remedy, in serious dysenteric cases, with an additional therapeutic value in indigestion, diarrhoea, etc.; also, as an antisudoral in the night-sweats of phthisical patients.
