THE WHITE

Sewing Machine is the best machine to buy.
There is no exaggeration in the following
statements.

EXTREMELY SIMPLE.—No eye to thread
but the eye of the needle.

LIGHT RUNNING.—It can be run with a
single thread of spool cotton in place of the
leather belt.

You can thread the shuttle with your eyes
hut.

You can set the needle without looking at
it.

When once started it will wind the bob-
bin like a spool, without a hand to it.

The belt is put on by simply laying it
against the wheel under a spring; it adju-
st itself.

The most convenient machine for those
with sight or the blind. Used in the Asy-
lum for the Blind at Brantford.

A great variety of convenient attachments
with the WHITE.

Be sure you see the WHITE before pur-
chasing anywhere.

THE SUN.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of all THE SUNS printed and sold last year you would get a continuous strip of interesting information, common sense, wisdom, sound doctrine, and sane wit long enough to reach from Printing House square to the top of Mount Copernicus in the moon, then back to Printing House square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only one hour over it, and if his wife or his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, night and day.

It is only by little calculations like these that you can form any idea of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process costs, which presents the news of all the world without waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this coming year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in his history. If you do not know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid as follows,
DAILY—50 cents a month, \$6 a year; with Sunday edition, \$7.

SUNDAY—Eight pages. This edition furnishes the current news of the world, special articles of exceptional interest to everybody, and literary reviews of new books of the highest merit. \$1 a year.

WEEKLY—\$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with \$10, an extra copy free.
