SUFFERERS are not generally aware that these diseases are contagious, or that they are due to living parasites in the lining membrane of the nose and eustachian tubes. Send stamp for circulars describing this new treatment to A. H. Dixon & Son, 303 King Street West, Toronto, Canada.

At the late Dominion Exhibition one of the stands which attracted most attention was that exhibiting the Cairneross Economic Folding Bed. After some unexpected delays in manufacturing, this bed is at length on the market and, as is well known by those who have seen it, is extremely neat, simple and useful to those who want to make the most of their room and to those who find it convenient to have the bed out of sight as well as not occupying any floor space during the day time, being simply turned on a pivot and bed made up ready for use (a child can do it) against the wall under a mantel board and screened by drapery hanging from the latter.
