

- (d) In the case of Ottawa Airport, a continuous armed presence shall be provided for a single daily peak period not exceeding 3½ hours. At other peak times at Ottawa, armed law enforcement patrols shall be conducted through the preclearance area every 10-15 minutes. If there are significant changes to these peak hours, the U.S. Inspection agencies and the airport authorities shall consult.
 - (e) The Canadian armed law enforcement presence may be met by co-location of Canadian armed law enforcement officers within preclearance areas if:
 - (i) the co-located officers are responsible for responding to emergency calls from preclearance personnel;
 - (ii) an armed officer is present in the office or the preclearance area during all preclearance facility hours of operation, except possibly during emergencies;
 - (iii) the armed officer has a clear view of the preclearance area from his/her office; and
 - (iv) an armed officer makes frequent patrols (every 15-30 minutes) through the preclearance area.
2. In the case of preclearance facilities located on the United States' territory, the United States shall ensure a high standard of security for Canadian preclearance personnel, including the presence of armed U.S. law enforcement officers during hours of operation at these preclearance facilities. The specific provisions applicable for each location shall be determined after consultations prior to the establishment of a preclearance facility but shall not in any way be less than those stipulated above.
