

## SMART OUTING SUITS IN WHITE

Stylish as Well as Sensible Are the Sporting Togs This Season.

## NEW MIDDY DESIGNS

Exploit Very Modish Features, Smocking and Bright Ties in Stripes.

Sporting togs are occupying the minds of all summer enthusiasts, who realize that outing costumes need lack nothing in style of practicability this season, so truly stunning are the designs for every manner of outdoor sports.

The full short skirt is taken for granted and heralded with delight by the girl who golfs or sails, and the midday is as supple as ever. The midday has won a place in the wardrobe of the sportsman that is undisputed, and its popularity is increased more than ever this season when several novel features are introduced.

The white middie blouse is, of course, most popular, and whether of silk, poplin, crepe or one of the numerous fashionable cotton fabrics, is most attractive. In the majority of cases sleeves are long to prevent sunburn, while smart cuffs and deep sailor collars of contrasting materials lend a distinctive note. Coat middies which fasten down the front like blazer jackets are extremely smart, as are the new models exploiting old-fashioned smocking. Very pretty striped effects in ties give a new note.

The skirt models are conspicuous for their severely tailored lines—pleats, circular designs, and belted models showing practically no trimming, but always plenty of width.

Very stylish little linen hats with figured crepe crowns are shown for outing wear, and the boots are strong and very practical, facing high so as to give plenty of support to the ankles. White buck or fabric models are equally popular.

## GREAT POULTRY OPPORTUNITIES

Big Shortage of Eggs for Both Canadian and British Markets.

Last year Canada imported \$2,500,000 worth more eggs than she exported, so that there is a big home market here for that ever-needed poultry product.

The European war has cut off Great Britain's chief sources of egg supply and she needs to look elsewhere for a yearly supply of 100,000,000 dozen eggs. This looks as if there were great opportunities in the poultry business. Those who are in it can increase their profits by careful selection and by attention to feeding. Even the person who has only a small back yard can make a good profit on a few hens.

But success in this is like success in any other line of business—it depends largely on "knowing how." If you want to learn how to handle poultry profitably, the breeds to buy, the way to feed and other points about the poultry business, get the book "Making Money From The Soil," which you will find a special purchase certificate in another page of this paper. This book contains full and authentic information on all phases of poultry raising. Look up the certificate now.

## UNION STATION MATRON CAUGHT RUNAWAY GIRL

Fled From Alexandra School and Tried to Board Train.

Helen Green, a 15-year-old girl, escaped from the Alexandra Industrial School yesterday afternoon. Miss Jessie Sweetman of the Jarvis Street Jeaneau's Home, speedily supplied the information leading to the capture of the girl at the Union Station. Helen had met a member of the Salvation Army and told a story that she had lost her ticket and wanted to go to St. Thomas. Her scheme would have worked were it not for the quick action of the Union Station matron, Mrs. McKiegan, and Mrs. Galvin of the Y.M.C. Guild, who intervened and refused the girl's story. Police Constable Hunt, of the Union Station, took the girl in charge.

## DEMOCRACY ENDORSED BY GERMAN WOMEN

Returned Delegate From Hague Peace Meeting Describes Proceedings

Miss Laura Hughes, who has just returned from The Hague Convention, tells of the interesting proceedings of the four days session. She said it was not a peace conference. It was called the International Congress of Women and was originated by the suffragist leaders of the United States. Leaders have been received by the suffragist leaders from women in France, Belgium, England, Russia, Austria and Germany appealing for help. Among the extremely interesting incidents of the congress was the action of some German women in strongly supporting the motion of Mrs. Courtney, to the effect that the Congress of Women recognized the right of the people to self-government and that there should be no transference of territory without the consent of the women and men residing therein, and urging that autonomy and democratic parliaments should not be refused to any people.

## RESIDENT OF ACTON KILLED IN FIGHTING

Pte. Fred Mills of Fourth Battery Lost His Life After Convalescence.

In a letter to "The World," Mrs. J. Robertson of Acton West described the death of her grandson, Pte. Fred Mills, of the 4th Battery, who was killed by a German sniper while engaged in limbering up the guns for action. Pte. Mills was the first of the soldiers who died of action to be killed in action. He had been in the hospital for three weeks after being wounded in the fighting at Ypres and had only been back on the firing line for three days when he was killed.

A visit from Major Ballantyne of Acton was paid to Pte. Mills' mother, and the Acton boy was given a very high character and his bravery while under fire was highly commended.

## MIXED UP IN DEAL COMMITTED SUICIDE

P. C. Frean, Kalamazoo, Said to Have Thrown Himself Over Niagara Falls.

Special to The Toronto World. NIAGARA FALLS, Ont., June 23.—A letter found today under a rock on the Third Sister Island substantiated the report circulated last night that a man had jumped into the river from the Third Sister Island and had gone to his death over the Canadian Falls. The letter was signed by P. C. Frean, Kalamazoo, Mich. It had been written in Rochester, N. Y., but had not been mailed. The envelope was addressed to Milo Bennett, Kalamazoo, Mich. A card of Fred Kimball of Rochester was attached.

Treasure evidently was mixed up in a crooked real estate deal. Bennett had been his attorney and had dropped him and gone over to his enemy, Miller. A brother was communicated with in Kalamazoo and he has instructed the reservation authorities to watch for the body.

Work has been started at the Canadian Niagara power plant on the installation of three additional generating units.
