

BROTHERS IN ARMS

BY

E. ALEXANDER POWELL

A fitting memorial of the visit of Joffre and his fellow Commissioners is this eloquent tribute by the famous war correspondent, who knows, as few people do, the sacrifices France has made in the cause of Freedom. Mr. Powell describes the significance of the French mission, the reception accorded its members, and closes with a stirring plea to give France to-day the ungrudging help that she gave us when we were fighting for our freedom.

What Captain Ian Hay Beith has done for our relations with England in "Getting Together," Mr. Powell does in this book for our relations with the sister republic of France. "Brothers in Arms" is a book that every true American should read.
