As a matter of law Mr. Fairty claimed that the board had no jurisdiction

## **DEMURRAGE RATES**

Railways Convince Railway Commission That Shippers Are Chiefly to Blame for Congestion.

RAISE IS TEMPORARY

And Railways Must Prove That Higher Rates Are Beneficial in Relieving Acute Situation.

OTTAWA, Dec. 2 .- (Can. Press.)he Dominion Rallway Commission

The Dominion Railway Commission today issued an order granting the application of the C. P. R., G. T. R. C. N. R. and Michigan Central railroads to increase their demurrage charges on Ireaght cars from \$1 per day to \$2 and \$5. The increased rates, however, will be allowed only from Dec. 15 of this year 1.7 March \$1 of next year. The railways asked for \$2, \$3 and \$4 for the first, second and third day, respectively, after the free time allowed, but the \$4 charge was not sanctioned by the board. Henceforth \$2 will be assessed by the railways for the first 24 hours after free time, and \$3 for each succeeding day. The order, however, is not to apply to cars held in transit at stopover points under published tarnis, which have been filed with the board. A number of reasons are given, and some very important statements are made about the question of car shortage, in the judgment preceding the older, which is in part as follows, and is signed by Commissioner Scott.

Situation is Serious.

"It cannot be denied that a car shortage equal to, if not greater than, that of last year is imminent, and, unless some steps are taken to secure all adequate supply of cars, traffic will be seriously handicapped during the approaching winter and spring, until the opening of navigation. Evidence was submitted to the board ay the applicants, showing an unreasonable detention of a large number of cars at many of the principal traffic centres of the country. It is urged by the railway companies that the unnecessary detention of cars which would otherwise be available for traffic, but also causes congestion by blocking team tracks and private sidings in terminals. It is also contended that at least 50 per cent. of what is called railway detention, that is, the unnecessary detention of cars by shippers and consignes so to blocking of these terminals by the unnecessary detention of cars by shippers and consignes.

railways to do to equip themselves to handle the business of the country properly, but, as I have said before, I am satisfied that they are making an honest effort to do so.

"The practice of consignees holding cars and using them for storage or warehouse purposes, undoubtedly exists. In many cases, it is cheaper for consignees to pay \$1 a day demurrage and use the car as a worehouse, than to unload the car promptly and store his goods in some other place. Many merchants and traders, whose business has materially increased within the last few years, have not sufficient shed capacity to take care of their goods.
