Captures of Stock and Supplies Reported Constantly, and Boers Are Surrendering by Scores and Hundreds Every Week—  
No Talk of Reinforcing British Troops.

London, July 7. (Cable.)—A British army of 200,000 men is still employed in waiting and watching for a force of Boers ranging between 7000 and 10,000 men. The last incident of a railway station 50 miles from Johannesburg on the Natal Railway, with a final repulse of the raiders. It was even more insignificant than the wrecking of a train on the Pietersburg line. The largest Boer force which has been raiding or skirmishing during recent weeks does not exceed 400 men. The captures of stock and supplies are constantly reported by Gen. Kitchener, and the Boers are surrendering by scores and hundreds every week. It is evident that the Boer guerrilla warfare becomes month by month less venacious, and that Gen. Kitchener is gradually wearing down by processes of attrition the Dutch resources for resistance, narrowly efficient as these have proved. The bands of raiders have been reduced in strength, and their capacity for inflicting injury has been impaired. The loss of horses would be an insuperable obstacle to a continuance of guerrilla warfare if the fighting Boer when reduced to hard straits were not enabled to conceal his gun and masquerade as a native.

### 60,000,000 OF MANITOBA WHEAT IS PREMIER ROBLIN'S ESTIMATE

Thinks Also That 20,000 Men Will Be Required to Harvest the Crop—Expects Province to Get \$111,000 Revenue From School Lands.

Winnipeg, July 7.—In a political address Premier Roblin said, with regard to the crop, that he had never seen or heard of such glowing prospects as at present. As Minister of Agriculture, he was sure that the yield would be nearer thirty bushels per acre than twenty-five, which would mean 60,000,000 bushels raised in the province. With regard to the additional labor required to handle the crop, he had formerly estimated it would require 15,000 men, but now he thought it would be quite 20,000 that would be required, and that would only mean one extra man to each two farmers. The Premier gave the details of the Dominion school land question, by which the local government claimed \$111,000 from the Parliament at Ottawa. They had received a notice that the claim would not be allowed, but that the Manitoba government could appeal to the Exchequer Court of Canada, and he took the public opportunity of saying that it was the settled policy of the government to take the matter to that court, and he had no doubt that the province would secure the addition of the \$111,000 to the revenue of Manitoba. The rest of the Premier's speech was taken up with an explanation of the matters connected with the railway deal.

He says the new law is contrary to natural and ecclesiastical rights, and declares that the true cause of the persecution is the world's hatred of the Church. The extinction of the religious orders, he says, is an able maneuver to prepare for the apostasy of the nations. The world's malignity persists work for the Church and not angry, overcoming evil by good. In conclusion His Holiness says: "With you are the Pope and the entire Church. Remember Christ's words: 'I have conquered the world.'"

### BOERS EARN NAME OF "BUTCHERS" BY BRUTALLY SHOOTING WOUNDED

LONDON, July 8.—The Daily Mail gives sensational prominence this morning to the mail advices from Vlakfontein, which attribute to the Boers inhuman atrocities that the censor would not allow to be described by cable. "A couple of Boers," says the Daily Mail's correspondent, "were armed with Martini, walking around among the dead and dying. Some they turned over to see if they were dead. If it were otherwise, then one or the other of the Boers shot them as you would shoot an ox. I saw four killed in this way. One youngster pleaded for his life. 'I heard him say: 'Oh, Christ, don't!' and then bang went the rifle. That is what happened."

### WOMAN MAY SAVE THE PARTY—ENGINEER HELD TO ENGINE, A PLAGUE OF SMALL FROGS

Lady Campbell-Bannerman Has Some Liberals on Good Terms With One Another.  
Norton, N.B., July 7.—Saturday morning the people of this small village were startled to hear of another terrible accident on the Central Railway. ### TRUCE MAY BE PATCHED UP But Rosebery is Out of Sight and Asquith Hangs Back—Good Feeling May Not Last.

London, July 7.—The Liberals have been saved from disruption by the timely services of Lady Campbell-Bannerman, who at a critical moment invited all her husband's supporters to an evening party. The Liberal Imperialists and the Radicals were so astonished to find that everybody on the Opposition side was on speaking terms with everybody else that they became genial and peaceable. Other Liberal houses will come to work for social amelioration during the next ten days. It is a large field for social missionary work. Lady Campbell-Bannerman has a reputation for the Liberal peace and Comrades next week, and Lady Crewe, Lady Curzon, Lady Grey and Lady Minto Ferguson are planning similar peace-making functions. West Enders are rubbing their eyes and wondering whether there will be a revival of the old-time Whig salon, once associated with the hospitable and generous Mrs. St. John. Sir Henry Campbell-Bannerman will receive a vote of confidence from the Liberal caucus, and may possibly accept an invitation to the Asquith dinner. Lord Rosebery remains out of sight, and Mr. Asquith hangs back; consequently there will be no direct challenge of Sir Henry Campbell-Bannerman to the leadership of the Liberal party. It is not likely to be a permanent peace, however; Mr. Asquith and the Liberal Imperialists are too far removed from the Boers and the pro-Boers to remain idle spectators when the Boers are making a bid for the leadership of the Liberal party, which he led in today's party. Like the Nationalists after the Boer war, the Liberal Imperialists are looking for a leader who will lead them in the tactics of guerrilla warfare like the scattered bands of Boers in the field.

### EMPLOYEES OF GIANT STEEL TRUST TO COMBINE AGAINST EMPLOYERS

With 850,000 Members to Support It, and Agreements Going Into Effect at the Same Time, Such an Organization Will Be a Force Not Easily Combated

Chicago, Ill., July 7.—The Chicago Record-Herald correspondent in Pittsburgh, Pa., sends his paper a despatch in which he says: "I predict a settlement in less than two weeks," said President Shaffer of the Amalgamated Association of Iron, Steel and Tin Workers yesterday afternoon. The announcement was scarcely out of his lips when word came to his headquarters that a great meeting of labor leaders will be held in Chicago during the coming week. Then it was learned, altho President Shaffer would not discuss the subject, that the real purpose of the meeting is to combine into one organization or combination all the employees of the United States Steel Corporation, whether they work at the steel mills, on the docks, in the iron and steel mills, at the blast furnaces or in the coal mines. Labor is Not Capital. This move, in the face of the strike now on in the Pittsburg district, and which may involve all the steel, iron and tin workers of the United States Corporation, is taken to be highly significant. It is labor forming, marshing itself, to meet a billion dollars of capital. Nearly a score of powerful labor organizations have been invited to send representatives to Chicago, and to aid in the work of organizing the Steel Corporation's employees. All these organizations hold charters from the American Federation of Labor, and they are some of the largest and strongest unions affiliated. For the month of May the union of the Federation shows there are 850,000 members, and it is an alliance for offensive and defensive purposes is formed it will be a power in the labor movement of the country, and one that of necessity will have to be reckoned with. An agreement is expected to be reached between the organizations whereby in the event of trouble one trade or craft can go to the assistance of the other. This is said to be impossible at the present time. It is further proposed, if any plan is formed, as those who are behind the movement hope will be, that all agreements regarding wages, hours of the same time and expire on the same date, so that no trade shall be handicapped from receiving assistance while the others are not. Strengthened by Absorption. As if to effect this purpose, a merger of labor the absorption of the National Steel and American Steel Hoop Companies into the Carnegie Corporation took place yesterday. They say this absorption strengthens the opposition in corporation circles here to union labor. President Shaffer laughed when this phase of the coming army of two great forces was presented to him. "I've seen his hand to his forehead as he answered: 'I do not think the amalgamated people have anything to fear. So far as the employment of labor is concerned, things will go on in the old way. They have new presidents, vice-presidents, secretaries, treasurers and the like, but there have been no changes in the operating departments and it will be the operating departments that we deal. Presidents and treasurers do not bother with labor disputes.'"

### May End Strike. Pittsburg, Pa., July 6.—The strike of the United States Steel Company and American Steel Hoop Company may probably terminate next week, arrangements were made in this city today for a joint conference in Pittsburg between representatives of both companies, which are components of the United States Steel Corporation and representatives of the Amalgamated Association of Iron, Steel and Tin Workers, to adjust the existing labor troubles.

Winnipeg, July 7.—(Special.)—William Mackenzie of the Canadian Northern Railway stated that the object of his visit was chiefly to look over the construction work on the Canadian Northern between here and Port Arthur. It was expected that this would be finished by Oct. 1, according to contract with the Manitoba government, so that the road would be ready to carry out its share of the necessary work from July 29th onwards. When asked as to the proposed extension of the shops here, Mr. Mackenzie said that the shops were now ready to build 100 box cars in time for the fall wheat traffic. The bridge across the Red River would be finished before Oct. 1. On Monday Mr. Mackenzie will go to Port Arthur to meet Mr. Mann, after which they will return to Winnipeg and go over the Rainy River section together. When questioned as to a new hotel, Mr. Mackenzie said he thought the site of the Queen's Hotel, which was the headquarters of the old Manitoba Hotel. The citizens of Winnipeg might take shares in the large hotel and theatre as was done in Toronto.

He inherited much of the business ability of his father, and marked success attended the commercial enterprises which he planned and executed. At the death of his father he received about \$1,000,000 and an interest jointly with his brothers and sisters in the great tobacco house, of which his father had been the head. He at once purchased from his brothers a control of the house and by shrewd management greatly increased his fortune. He built a handsome residence at Fifth-avenue and 69th-street and entertained in princely manner. In 1874 he became interested in the turf. His first great horse was Parole, and with Troilus in 1881 he was the first American to win the classic English Derby.
